\$50,000 For Ottawa Hospital. Sto,000 For Ottawa Hospital.

Ottawa, March 19.—The will of the widow of the late Alexander Lumsden, lumberman of Ottawa; bequeaths \$50,000 to the Protestant Hospital, \$15,000 each to her nieces and some \$500,000 to two daughters; \$340,000 has already been given to John Lumsden, a son, by deed.

Gibson to Lead Bisley Team. Ottawa, March 19.—Lieut.-Col. the Hon. J. M. Gibson will command the Bisley team from Canada this year. Capt. J. Duff Stuart of the Duke of Connaughts of Vancouver will be adjutant.

# SCALY ERUPTIONS

Itched Constantly—Scratched Until Blood Flowed—Suffered 10 Years—Doctors and Medicines Were Fruitless—Tries Cuticura and Is Completely Cured

## BY THREE BOXES OF **CUTICURA OINTMENT**

ratched them with a brass pin and shortly afterwards both of those limbs became so sore that I could scarcely walk. When I had been suffering for about a month the sores began to heal, but small scaly eruptions appeared

sores began to heal, but small scally but small scally eruptions appeared where the sores had been. From that time onward I was troubled by such severe itching that, until I became accustomed to it, I would scratch the sores until the blood began to flow. This would stop the itching for a few days; but scaly places would appear again and the itching would accompany them. After I suffered about ten years I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe the sores in a mixture which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, —'s Salve, —'s Salve, —'s Sulve, —'s Sulve, —'s Sulve, —having used almost everything else, I thought I would try Cuticura Ointment, having previously used Cuticura Soap and being pleased with it. After using three boxes I was completely cured, and my hair was restored, after fourteen years of suffering and an expenditure of at least \$50 to \$60 in vainly endeavoring to find a cure. I shall be glad to write to any one who may be interested in my cure. B. Hiram Mattingly, Vermillion, Sold throughout the world Potter Prug & Chem. Corp., Sole Proys., Boston, Mes.

Centenarian Dead.
Toronto, March 19.—Mrs. Featherstone Oaler, one of the most distinguished and benevolent ladies that has graced the city's history, died yesterday at her residence, in her 101st

year.

She was one of the very few centenarians in the Dominion, and was in every respect a remarkable woman. Her last birthday, Dec. 14, was the most memorable of her whole life, as it was on that day she reached a century of existence, and the occasion was made one of celebration and congratulation. gratulation.

Salvador Joins Honduras

Salvador Joins Honduras.

Panama, March 19.—According to reliable information received here from
Salvador, that country has allied itself openly with Honduras in the war
with Micaragus.

On March 10, 2,500 Salvadorean soldiers landed at Amapala and proceeded the next morning for Choluteca.
This body of men came from San
Miguel, in Honduras, and are under
the command of Gen. Jose Dolores,
Press.

Knocked Down By Skater; Dies. Winnipeg, March 19.—While skating Sunday afternoon Thomas Stoddard collided with another skater and was knocked down, becoming unconscious. He lingered until evening, when he

Elected By Returning Officer.
Winnipeg, March 19.—In the recount held in Morris yesterday the
vote stood even, and Attorney-General Campbell was elected by the
casting vote of the returning officer.

# What Do They Cure?

The above question is often asked con-cerning Dr. Pierce's two leading medi-cines, "Golden Medical Discovery" and "Favorite Prescription." The answer is that "Golden Medical Discovery" is a most potent alterative or Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach, as catarrhal dyspepsia), bowels (as mucous largetes), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting curies.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and fregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nervine. For weak worn-only over worked women-no matter what

THE MODUS VIVENDI.

Government Treatment of Newfound-land Severely Criticized.

Government Treatment of Newfoundland Severely Criticized.

London, March 19.—(C. A. P.)—In the House of Commons yesterday, Mr. Lyttelton said, respecting the Newfoundland fishery controversy, that while admitting it was impossible to ignore the United States case, there was a grave issue which was likely to lead to friction and collision unless it was settled. No prejudice ought to arise in future through making the modus vivendi.

He complained of the pathetic and negligent manner in which the Government treated the matter. He declared the Government ought at once to have consulted the colony, and both together ought to have framed such a policy as would, if possible, have been acceptable to the United States. If not, the policy ought at any rate to have been acceptable to the United States. If not, the policy ought at any rate to have been acceptable to Newfoundland. Britain, he complained most seriously, was the country of the Government which had allowed themselves to be placed in a position of conflict with the colony.

Mr. Winston Churchill, defending the Government, said the provincial arrangement was without prejudice,

Mr. Winston Churchill, defending the Government, said the provincial arrangement was without prejudice, and was absolutely necessary if the fisheries were to be conducted in a peaceful manner. He denied that the Government had prejudiced the permanent interests of the colony.

The Solicitor-General said Newfoundland was fully consulted. The United States displayed the greatest possible anxiety to reach a reasonable arrangement, and had met the Government fairly.

ernment fairly.

Previous to the discussion Earl Grey declared he regarded the settlement

as temporary.

The Chronicle says the Newfound land discussion only indicates the need of an improved imperial organi-

## SAVE NATIONAL CREDIT.

Government to Reduce Expenditure and Strengthen Sinking Fund.

London, March 19.—In the House of Commons yesterday the Government was questioned by Unionists and other members on the low prices of consols in the attempt to draw the inference that the decline in British credit was coincident with the attempts of the Government in 1885 to grant home rule to Ireland

The Ministers ignored the insinua-The Ministers ignored the insinua-tion, but, in reply to a question by Sir Howard Vincent, Conservative, as to whether steps were contemplated to restore the national credit, the Chan-cellor of the Exchequer, Mr. Asquith, said that, while the Government fully recognized the serious character of the decline in consols, it could not ac-cept the statement that the credit of Great Britain was lower than in mem-

ory of the living.

Many of the causes leading to the decline in British Government stocks. and of most other high class securities during the last ten years, were international in their operation and independent of Government control.

On the other hand, the enormous increase in the national expenditures, the neglect to make adequate provision for the redemption of the national debt and the freedom with which new obligations were created undoubtedly affected the national credit.

The steps the Government proposed were to reduce the expenditure, strengthen the sinking fund and avoid as far as possible borrowing for current expenditures.

# MORE COSTLY WRECKS.

Two Mail Steamers on the Rocks-But All Lives Saved.

London, March 19.—Details received yesterday of the disaster to the White Star Liner Suevic, homeward bound from Sydney, N. S. W., by way of Cape Town, with nearly 600 passengers and crew on board, show that she struck the Brandies Rocks close under the Lizard Lighthouse at about 10.30 Sunday night, and will probably be a total wreck. Lifeboats and tugs from the Lizard and Falmouth soon reached the scene, and together with the Suevic's own boats, commenced landing the passengers. The women and children were first sent ashore. There were no fewer than 100 children on board, many of them being babies in arms, whom the local fishermen and their wives lifted out of the boats and carried through the surf to near-by cottages. London, March 19.—Details received

surf to near-by cottages.

Rescued With Breeches Buoy.

London, March 19.—Almost wit Londen, March 19.—Almost withinsight of the wrecked White Star Line steamer Suevic, the Elder Dempster Line steamer Jebba, from Calabar, Lagos and other West African ports for Plymouth and Liverpool, ran on the rocks under the cliffs near Prawle Point early yesterday morning. Her seventy passengers, many of whom were soldiers invalided home from the west coast of Africa, and whom were soldiers invalided home from the west coast of Africa, and her crew were safely taken ashore by the breeches buoy. Heavy seas were breaking over the steamer, rendering the lifeboats, which are standing by the vessel, useless, The Jebba will prove a total loss.

PASTOR AND PEOPLE FOUGHT FOR HIS LIFE

# (PRONOUNCED SI-KEEN)

A Marvellous and Triumphant Record of Victory Over Disease.

No medicine has ever effected as large a number of wonderful and almost mavellous cures as Psychine. It has had one continuous record of victories over diseases of the throat, chest, lungs and stomach. Where doctors have pronounced cases incurable from consumption and other wasting diseases Psychine steps in and rescues numberless people even from the very verge of the grave. Coughs, Colds, Catarrh, Bronchitis, Chills, Night@wests, La Grippe, Pneumonia, and other like troubles, all of which are forerunners of Consumption, yield quickly to the curative powers of Psychine.

Mrs. Campbell, one of the many cured, makes the following statement:

I cannot refrain from telling all who suffer of my remarkable recovery with Psychine. April, 1902, I caught a heavy cold which settled on my lungs and gradually led to consumption. I could not sleep, was subject to night sweats my lungs were so diseased, my doctor considered me incurable. Eav. Mr. Mahaffy, Port Eigin Presbyterian Church, recommended Dr. Slocum's Psychine to me, when I was living in Ontario. After using Fsychine for a short time I ate and all the hight sweats and cough ceased.

Mrs. Arbusw Campsett.

### OPPOSE CHANNEL TUNNEL.

But May Become Necessary For the Successful Defence of England.

The revived Channel tunnel proposal appears to have been received with disapproval by Lord Roberts and sundry other prominent soldiers, even as the idea was universally received when originally advanced in 1882. At the National Defence Association's dinner, recently held to consider the question, the opposition of some prominner, recently held to consider the question, the opposition of some prominent soldiers to the scheme constituted the most salient feature of the evening's debate. Though all soldiers are agreed that the Channel is our natural line of defence, it is probable that the exigencies of policy, combined with a sound consideration of modern tactical methods, will cause those who have now opposed the scheme to reconsider their opinions from a purely defence point of view. The fact that France and England are undoubtedly bound, together, not only in the interests of both nations, but in those of Europe also, would seem to have altered the entire situation of 1882. Whatever the economic aspect of this proposal may prove, it is clear that, in accordance with advanced tactical theories, the construction of the tunnel is strictly reaching. theories, the construction of the tunnel is, strictly speaking, a military necessity—an essential to our successful defence. One of the chief objectors to the original scheme, Gen. Sir Lintorn Simmons, said that "England may be regarded as an island fortress, unassailable so long as the integrity of the silver streak—its moat—is maintained." The Channel, as the late Napoleon III. remarked, saves us the burden of a large army raised by conscription, such as Continental Powers are compelled to maintain. But in modern warfare the defensive alone can never lead to decisive results. The Continental situation domands that Britain shall, if attacked be in the position, as allied with France to specify the stream of the stream o theories, the construction of the turn e in the position, as allied with rance, to speedily exercise the effective force of counter-attack—the very essence of all defence. Only a Channel tunnel would provide for this con

FFICER'S DESPERATE STRUGGLE WITH A LEOPARD IN INDIA.

Vas Returning From a Day's Hunt, When the Infuriated Beast Attacked His Wife-Could Not Shoot For Fear of Killing Her-Grappies With the Animal and Finally Overcomer It Without Ald.

The story of an officer's desperate encounter with an infuriated beast comes from Lucknow. Lieut.-Ool. Hutchinson, of the Second Ghurkas, had a trilling fight with a leopard, which attacked his wife while on a shooting trip near Dehra Dum.

They were returning after a day's shooting, and the beaters had gone on some distance ahead. Mrs. Hutchinson was walking about ten yards in front of her husband. She deviated alightly from the path, and surprised a young leopard, which immediately attacked her.

Col. Hutchinson instantly raised

attacked her.

Col. Hutchinson instantly raised his rifle to shoot the beast, but dared not fire for fear of wounding his wife.

Then, seeing that the only way to save her life was to drag the leopard off, he dropped his rifle and attacked the beast with his hands.

the beast with his hands.

A Desperate Fight.

The leopard first attempted to seize his arm, but missed, and Col. Hutchinson was able to keep it at bay while his wife rose and ran to call the beaters. Meanwhile, the animal sprang again on Col. Hutchinson, and a desperate fight between the man and the beast followed.

Col. Hutchinson eluded its spring with marvelous agility. He made

Col. Hutchinson eluded its spring with marvelous agility. He made several attempts to regain his rifle, but the leopard was on him before he could pick it up. Then he thought of his revolver, and was placing his hand en his hip to draw it, when the leopard sprang on him again and seized his right arm. Desperate as the position was, Col. Hutchinson did not give in, and, although he was suffering terrible agonies, he grappled with the beast. They rolled over several times, the leopard still clinging to its hold on his arm.

Rifle Does the Wark.

Rifle Does the Work.

At last Col. Hutchinson freed his arm and succeeded in getting his revolver. Then he shot the leopard in the eye. The animal let go its hold, but the shot had only blinded it.

Before it could spring on him again Col. Hutchinson had gained possession of his rifle, and succeeded in killing the beast just—as the first of the beaters came back.

Col. Hutchinson was by this time so exhausted from loss of blood and the struggle that he was in a state of collapse. He was carried back to his bungalow, and his arm, which was terribly lacerated from the shoulder to the wrist, was attended to.

He is now progressing favorably. Rifle Does the Work.

# BARBARIC RELICS FOUND.

Massive Bracelets and Armlets of Solid Gold That Once Adorned Warriors Bold, In Good Preservation.

riors Bold, In Good Preservation.

Workmen engaged in a sandpit at Crayford, Kent, England, have unearthed a number of massive bracelets or armlets of solid gold, supposed to be portions of the barbaric ornaments of ancient British chiefs.

The supposition that the sandpit was the burying place of the chiefs is supported by the discovery of bones at the same spot and of weapons of stone and flint close by.

The armlets were found at a depth of three or four feet from the surface. Their value as gold alone is estimated to be from \$1,250 to \$1,500, but their antiquity and historical associations make them priceless.

antiquity and historical associations make them priceless.

They are in a perfect state of preservation, and bear inscriptions on some of the jewels, which have not yet been deciphered. Experts are of opinion that they date from a period long before the Christian era.

They have been deposited at Scotland Yard as treasure trove, and are now the property of the Crown.

In May last eight similar bracelets were found near the same spot, and

were found near the same spot, and the finders received as their share of treasure trove a sum equal to about \$110. Those bracelets are now in the

Ventilating London. Skysorapers were advocated by Mr. A. Hudson, at a lecture at the Surveyors' Institution, for the purpose of

A. Hudson, at a lecture at the Surveyors' Institution, for the purpose of ventilating London.

The best natural ventilator of London, said Mr. Hudson, was the Thames. The London parks were also most important ventilators.

The action of motors in stirring up germ-laden dust was a very serious item. In future, windows in many streets might have to be used purely for the admission of light. In that case the ventilation would chiefly have to be derived from shafts running down the middle of the house.

Mr. Hudson thought that tall blocks of buildings here and there throughout London would constitute health resorts for those who lived in the neighborhood of these high buildings would have the ventilation of their houses vastly improved by the eddies round these lofty buildings.

Fear In Children An examination of 1,500 children recently made in the west shows that thunderstorms are by far the worst terror of childhood. Afterward, in the order set down, come snakes, strangers, darkness, fire, death, disease, wild animals, policemen, water, insects and ghosts. In the fear of rats and mice girls exceed boys in the ratio of seventy-five to sixteen. In boys fear begins to diminish after the eighteenth.—New Orleans Times-Democrat.

# Why We Blend Ontario Red Winter Wheat With Manitoba No. 1 Hard

NE might be led to believe, from the fact that Manitoba Wheat flour contains more phosphates, gluten and other food elements than all others, that it would make the best bread and pastry.

But it's not so-far from it. An all Manitoba Flour lacks flavor - that's why we blend with it the soft-shelled Ontario Red Winter Wheat, which imparts to bread and pastry made from "Kent Mills" Flour the delicious, delicate flavor so agreeable to the palate of the epicure.

Then too, an all Manitoba flour requires so much water to be mixed with it, on account of its extremely dry, absorbent nature, that it's really difficult to make good bread and pastry.

Pastry is inclined to be heavy and soggy and the bread sours quickly, besides being unpala-

But by our method of blending Ontario Red Winter Wheat, which doesn't absorb water so easily, with No. 1 Manitoba we produce a flour of exact consistency necessary to make the best pastry and bread.

Pastry will be light and flaky a delight to the eye and palate. Bread will be sweet and wholesome. Will keep fresh longer than when made from any other

Why do without the best flour

ever put in bags or barrels? Order from your dealer to-day. Every bag or barrel "Kent Mills" Flour guaranteed by both

# the manufacturer and dealer. "Kent Mills" Canada Flour Mills Co., Limited Chatham Co.

# SPRING CLOTHES MAKING

We want your order to-day for your Spring Suityou will do better here than anywhere else.
