C. H. BORDEN, * WOLFVILLE.

THE ACADIAN.

WOLFVILLE, N. S., FEB. 14, 1896.

Local and Provincial.

St. Valentine's Day.

Mr. H. H. Wickwire, M. P. P., has the thanks of the ACADIAN for parliamentary papers.

The members of the Propylaeum Society of Acadia, give a reception in College Hall this evening.

The Senior class of Acadia College, were on Tuesday evening last entertained at the residence of Mr. Lawrence Eaton, Canada.

Special evangelistic services are in progress at the Baptist church. Meetings will be held on Tuesday, Wednesday and Thursday evenings of each week, to continue for several weeks.

Says the *Boston Herald*: The Dominion Atlantic makes another fine display of apples from the Land of Evangeline. There are 11 different varieties in the collection, and their red and yellow coats make the mouths of thousands of people water every few hours.

The annual meeting of the Halifax Sailors' Home Society was held the other day and it was discovered that, while all the departments were in a flourishing condition, the deficit on the year's operations amounted to about \$400, while the whole deficit is \$7,000.

We understand that Mr. J. P. Bigelow has the agency for "Empire King" spraying pump. This pump was on exhibition at the recent meeting of the Fruit Growers' Association, and was pronounced by those who saw it the best ever seen in the valley.

The service of song held in the Methodist church on Sunday evening last, was well attended. An excellent programme was rendered, including a number of hymns and anthems by the choir, and solo by Mrs. A. J. Woodman and Miss Randall. The audience expressed their appreciation by a liberal contribution.

A grand tournament of sports is to be held in Aberdeen Rink on Saturday evening. The programme will include an exhibition of figure skating by Mr. D. H. Munro, several races, and a hockey match. After the programme an opportunity will be given for those wishing to skate. A good time will no doubt be had.

The early closing innovation adopted by the grocers and hardware men did not meet with popular favor, and their places of business are to be found open every evening as under the old regime. A little rough on the clerks, but business is business, and the trade should, as far as possible, be retained in the town.

Justin McCarthy has written the secretary of the anti-Farrellite party a letter in which he states the reasons which led him to decide to resign the leadership of the party are of purely personal nature. He has, he says, to earn his living by his pen and has too long neglected his profession. He will regain his seat in Parliament.

A Recital, by the pupils of Acadia Seminary, will be held in Almon Hall, Saturday evening, Feb. 16th. The programme will consist of literary and musical selections (two pianos), Classical authors and composers. Price of tickets 25 cents. Doors open at 7 o'clock. Recital to begin at 8. Proceeds to be used for Seminary furnishing fund. Tickets for sale at Acadia Seminary, Wolfville.

Graduate of Philadelphia Dental College.
Office in Heriot's building, Wolfville.

Miss Reade's Recital.

The recital and concert given by Miss Miss A. Reade in College Hall on Monday evening last, was a success, artistically and financially. As an elocutionist Miss Reade sustained her reputation and is undoubtedly deserving of the press notices which she has been the recipient of on former appearances. Her rendition of "The Honor of the Woods" was very fine, and was enthusiastically applauded. Miss Reade was assisted by Miss Fitch, violinist; Miss Bertha I. Barker, soloist; the College Quartette, and Misses O'Key and Jones, accompanists; all of whom are too well known to need any comment. Those who were not present missed a very enjoyable entertainment.

The Weather.

Temperature of January, 1896, at Wolfville as observed by G. Thompson. Minimum average for the month 8.55, maximum average for the month 17.77. During eight nights the mercury fell below zero.

On the night of the 20th the thermometer marked 18 deg. below zero, being the coldest of the winter as yet. Highest temperature for the month was on the 4th, when it reached 47 deg.

Waterville.

Special services are still being held in the Baptist congregation at this place. The meetings are well attended and with every appearance of success.

The Presbyterian church here has been undergoing repairs during the past few weeks, or rather a complete change from what it was to a more modern style, with an addition at the rear end for the choir, at the back of the minister's desk. The old-time gallery has been removed and the seats have been differently arranged. The ceiling of the whole structure has been sheathed and modern style. It is now nearing completion. The work has been rapidly pushed along by R. S. Johnson, the contractor, with only one workman besides himself at the church.

The stonemason and painter in the work of John H. Wolfe, of Waterville. The job when finished will reflect much credit on the faithfulness of the contractor as well as the skill of the painter. The church is to be ready for use by the first or second Sabbath in March. Preparations are being made to secure Ray, Mr. Gaudier, of Halifax, to preach the opening sermon, and other ministers will be present. A good time is anticipated. Wolfville friends are cordially invited.

Business has been quiet here the past week.

The little ripple made by the news of Sir Charles Tupper's great victory in Cape Breton has nearly died away, only leaving a sore spot with some.

At the preliminary trial of Peter Wheeler for the murder of Annie Kempton at Digby, Harry Eason stated that he had been with Wheeler near Miss Kempton's house on the evening before the body was discovered. That Wheeler asked him to go in and stay with Annie, but he refused; and that next morning after the murder was discovered Wheeler cautioned him not to say anything about their being at the house the evening before, as two knives had been discovered, and people would charge them both with having to do with the murder. The remaining evidence given was the same given at the inquest. Wheeler has been committed for trial.

A CHILD CAN USE THEM.

Directions Are Simple.

SOME ladies think that it is a difficult matter to do their own dyeing. It certainly is when crude and imitation dyes are used; but when the long-tested Diamond Dyes are used, it takes but little more trouble to get a beautiful color than it will be to wash and rinse the goods. With imitation dyes your goods are ruined; coloring with Diamond Dyes means success and lovely colors.

See New Goods advertised by A. O'Connor, Halifax, the Pink, Blue and Butter Ocreon Blouses for evening wear at \$1.25 and \$2.50 are exceptional value.
