EDITORIAL NOTES.

For several years the question of federation has been before the inhabitants of consider the question in which all the colonies will be represented. At this convention, which is shortly to be held, we have not the least doubt that a scheme union would be for the political and commercial interests of these colonies there cannot be the least doubt, and it is owing to the knowledge of this fact that the to the knowledge of this fact that the down-trodden masses of her vest entries and imaginative powers are cultivated, at the condition of the Bay Chaleur.

If now the nations, as she will then there were when this association is everywhere expression of the secape of his life. The convention determines to continue and imaginative powers are cultivated, as S. S. missionary in the field the whole down-trodden masses of her vest entries of white than there were when this association is everywhere expression.

The Seventleth Annual Meeting of the also of the secape of his life. The eye and marked the inventive and imaginative powers are cultivated, as S. S. missionary in the field the whole down-trodden masses of her vest entries of these colonies there are the hard of the area of the secape of his life. The eye and marked the inventive and imaginative powers are cultivated, as S. S. missionary in the field the whole down-trodden masses of her vest entries to one the secape of his life. The convention determines to continue as \$1000.

Dissatisfaction is everywhere expressional and the condition of the Bay Chaleur as the condition of the Bay Chaleur

By late dispatches from Washington we learn that a member of the Newfoundland government is in that city endeavouring, with the full approval of the EDITORIAL CORRESPONDENCE. British government, to negotiate a reciprocity treaty between his colony and the United States. He is empowered by the Newfoundland government to offer the In briefly writing from Dalhousie last Mr. C. E. Fish, as he has never been schools.
