died was based upon the report of Analyst Ellis that strychnine was found in the stomach of the deceased, and that such ingredient was not used in the embalming fluid.
The inquest on the mysterious death of Julia Klee, on June 12th was recordered at Humberstone to-day before the works. At 2 o'clock the jury was is sworn in, and the 'following report from the analyst was read:
"School of Practical Science. To ronto, Nov. 27.—TO T. Cumines, Esq., coroner, Welland, Ont. Dear Sir,—I have eximined the viscera of the late Julia Klee, left with me by Mr. Rich and Griffin. From the stomach I have extracted a very small quantity of an alkaloid, which gives the reaction of strychnine. Yours truly.
"W. Hodgson Ellis."
To fold was called, and swore that in his opinion. If the alkaloid was administered in the milk, which, according to previous evidence, she had taken half an hour before she died, it did not have time to act. SHIPWRECKS-OTHER DISASTERS. London. Nov. 20.-The latest re-ports from various points along the coast show that the gale which swept English waters yesterday and last inght, and which had not abated its fury up to noon to-day, was one of the worst storms of recent years. Scarcely a town on the coast has escaped without more or less injury. falling walls and flying debris adding to the loss of life. There have been rocket and lifeboat rescues almost without number. Stories of thrilling escapes come from all points. On the Norfolk coast, between Backton and Happisburg, five vessels, as yet un-identified, went down, and the crews of all perished. A number of bodies have been washed ashore near Yar-mouth. The British brig Ruby was wrecked off Grimsby. The coastguard service made desperate efforts to save the crews and succeeded in getting a line on board. A dying woman was "rocketed" in safety , and then the brig capsized, all the rest of the ship's company perishing. A large steam roller dashed upon

"rocketed" in safety ; and then the brig capsized, all the rest of the ship's company perishing. A large steam roller dashed upon Flamborough head, the famous pro-montory on the North Sea coast. Inoated off, and then foundered, with all on board. A steamer not yet iden-tified was wrecked on Bridlington sands with her entire crew. Last evening the ship Rose of Devon, Capt. Davis, went on the rocks near Redruth, Cornwall, where she pounded all night long, her crew of twelve per-ishing. This morning the bodies of the captain and five Scamen, all wearing lifebelts, were washed ashore. Phenomenally high seas are report-ed in many localities. The district near the month of the Thames has suffered severely, several townships being partly submerged. The Sheerness dockyard and the 'Woolwich arsenal were inundated. At Scarborough, the fashionable watering, place, the sea wall was washed away. At Yarmouth, Lowestoft and other coast towns of Norfolk, the esplanades were flooded. At Liverpool the squalis blew off the froof of several houses, threw down chinneys, and tore up trees. The Mer-sey flooded its banks on the Chester side, and deluged the shore district for miles.

Mrs. Gauthier Arrested. Pembroke, Ont., Nov. 29. – This monning Mrs. Gauthier was arrested at the instance of Detective Rogers on the charge of murdering Fred Car-riere at Port Arthur. She was taken before Police Magistrate Mitchell, and remanded for one week. tands. The scenes at such popular resorts as Yarmonth and Margate were of great graindeur, but the damage done was terrible. Tremendous seas still invade the gardens of the hotels and the resi-dences, wrecking parades and build-ings, while the debris is floating about. Immense damage has been done to Government property at the Sheerness dockyard and Woolwich arsenal. Seven thousand troops were huurledly or-dered out to-day to remove thousands of pounds' worth of ammunition and stores from the wharves and sheeds to places of safety. The tide continued to rise, and invaded almost all the workshops, quenched engine fires, and stopped electric lights. The workmen were obliged to go home, wading knee dean Desnite all precations, damage stopped electric lights. The workmen were obliged to go home, wading knee deep. Despite all precautions, damage to the amount of many thousand pounds has been done. At Sheerness and Queensborough, two miles away, hundreds of acres have been sub-merged, scores of cellars flooded, and 200 yards of the Sheerness pier have been swept away. The boom of distress guns from the Goodwin sands has been almost continuous.

continuous

Goodwin sands has been almost continuous. Below London Bridge low-lying houses and cellars are flooded, and all work is temporarily suspended along the Thames, even as high as Charing Cross. The continually ris-ing river is looked upon as ominous, though as yet no damage has been done above London Bridge. Six vessels were wrecked between Yarmouth and Bacton, only a few miles apart, on the Norfolk coast, and 25 lives were lost. The brig Yedra stranded °at Bacton. The storm tore out her masts, and when the rocket line was lired, the crew were unable to haul it in. Finally the line dragged them into the surf, and three out of the seven were drowned.
