

WHERE IS BULLER?
NO DIRECT NEWS.

Gen. Brabant's Troops Will See Lots of Fighting.

FARLEY, ST. THOMAS, DEAD

Lord Roberts' Plan of Campaign Taking Shape.

GLASGOW VOLUNTEERS SENT OFF.

Everything Quiet at Ladysmith—Kruger and Steyn Protest to Roberts—Methuen May Make a Move—Leinsters Going to Africa—Davis at Boer Laager.

London, Feb. 6.—The report of the advance of Gen. Buller is still unconfirmed. A Ladysmith correspondent, in a telegram, dated January 31st, reports that the situation there is unchanged. He says that the garrison's chief occupation is "sitting on the kopjes." The Boer artillery is silent, except for an occasional half dozen rounds. The new Boer laagers have been made in the direction of Tabananyama.

There is a rumor that some of the Boer guns at Magersfontein have been sent to Norval's post. On Saturday Gen. Lord Roberts received a joint protest from President Kruger, of the Transvaal, and President Steyn, of the Orange Free State, against the British troops destroying farms and other property. Gen. Roberts replied that the charges were vague and unsubstantiated, but assured the Presidents that wanton destruction was contrary to the British practice.

A report from Molder River that all the sick who are in a condition to be moved are being sent to the base hospital is interpreted here as meaning that a movement by Gen. Methuen's force is impending, but this is merely a guess. The hospital ship Maine has received its first consignment of wounded at Durban. All the berths are occupied. Lady Ranselph Churchill superintended the placing of the wounded and addressed cheering words to the sufferers.

The South African Republics have levied a special war tax on all non-resident landowners, and also on companies and syndicates unless all the members are burghers.

Gen. Brabant to His Troops. London, Feb. 6.—The Times publishes the following despatch from its correspondent at Cape Colony, Feb. 5:—

General Brabant, in addressing the troops of the colonial division, said that the time impatiently awaited had at length arrived. The men had been long in preparation, and their creditable to the officers and men. They were leaving for the front on Tuesday, and he hoped they would not return until the task entrusted to him by General Roberts had been successfully accomplished. He could not disclose the plan of operations, but if the intentions were carried out, the greatest glutton for fighting would have his fill.

The despatch adds that the Dutch commandants are repressing and punishing those who rob houses owned by the English, and that there is no looting, except from the railway buildings.

British Army Prestige. Berlin, Feb. 5.—Lieut. Col. Waech, of the War Department, said to the Associated Press correspondent today: "The prestige of the British army cannot be said to have suffered so far as fighting qualities are concerned. Both privates and officers have behaved with the utmost bravery in action, as the lists of the dead and wounded show."

Wauchope Story Reiterated. Glasgow, Feb. 5.—The Daily Mail publishes a letter from Molder River in regard to the charge of the Highland Brigade at Magersfontein and Gen. Wauchope's objection to the movement. The writer says that Gen. Wauchope told Lord Methuen that he would be unable to lead his men into the position they had been ordered to take. Gen. Methuen insisted, however, that the order should be carried out. Gen. Wauchope afterwards made an address to the Highlanders, in which he said: "There is some mistake here, but, men, I have to obey orders. Now do your best."

Leinsters Going, Too. Halifax, Feb. 5.—The military authorities this morning advised by cable that the Allan Line's Cephalonia, which has been chartered as a transport, will leave Portsmouth, England, for Halifax on Feb. 11th, and to have the Leinster Regiment in readiness for embarkation from Halifax on Feb. 15th. The Leinster Regiment, with other troops, probably embark at Portsmouth for South Africa with the eighth division.

More Guns Landed at Durban. Durban, Feb. 5.—The transport Purwa, from India, has arrived, and landed a battery of artillery. A more hopeful feeling prevails here.

Glasgow's Send-off to Volunteers. Glasgow, Feb. 5.—The Glasgow city corporation on Friday gave a dinner in honor of the local yeomen and rifles who have volunteered for the South African service, the leading men of the city being present. The volunteers were created honorary burgesses of Glasgow, as were the volunteers who in the year 1778 enlisted for service against the American colonies. These instances are the only two on record where this honor has been thus conferred.

Another Canadian Dead. St. Thomas, Ont., Feb. 5.—A message has been received here from Belmont, Cape Colony, announcing the death of Egerton Farley, a son of John Farley, Q. C. He was in the 23rd year of his age, and had promise of a bright career. He was born in St. Thomas. For many years he had taken great interest in military matters, commencing when he was a member of the Cadet Institute Cadets. After joining the 25th Battalion he took a course in the London Military School, and afterwards was appointed a lieutenancy in the 25th. He studied law with his father, and after passing his examinations in Toronto made a trip to the continent. He was among the first in this section to offer his services for South Africa. Mr. Farley wired Dr. Borden to

have the body placed in a sealed casket and forwarded home. When Mrs. Farley heard the sad news she became hysterical, and a physician had to be summoned.

No Word at Ottawa. Ottawa, Feb. 5.—No word has been received from Col. Otter on the death of Egerton Farley at Belmont.

Trial of Cape Rebels. London, Feb. 6.—The Cape Town correspondent of the Daily Chronicle says: "The South African League has passed a resolution declaring that it regards with regret and almost with despair the probability of the authorities trying colonial rebels before a jury. The resolution urges a court-martial. Mr. Schreiner, the Premier, replying to a letter enclosing a copy of the resolution, says the Government has taken steps to prevent undue detention of persons charged with sedition."

At the Ladysmith Laager. Lorenzo Marques, Delagoa Bay, Feb. 5.—Mr. Webster Davis, United States Assistant Secretary of the Interior, accompanied by a party of friends, which includes the German Consul at Pretoria, is at the head laager of the Boers at Ladysmith, and is closely inspecting the camps and positions around the besieged town.

Macrum is Still Mum. Washington, Feb. 5.—Mr. Macrum called at the State Department today at 3:30 o'clock and spent about half an hour in consultation with Dr. Hill, Assistant Secretary of State. Secretary Hill having left his office for the day. He still refused to make any statement explaining his reasons for leaving Pretoria.

Making a Wide Detour. London, Feb. 6.—Military opinion in London continues to assume from very slender materials that General Buller is again throwing his army against Boer works. A retired general, Sir Wm. Henry Green, whose distinguished career gives weight to his opinion, thinks that Gen. Buller with 25,000 men is making a wide detour to the west and north, in order to avoid the roughest parts of the country. As Gen. Buller must have some thousands of wagons, Sir Wm. Green points out that the advance would necessarily be slow.

No authentic word is at hand save that the War Office reaffirmed orally to newspaper enquirers at a late hour that it could not confirm the reported advance. There the Natal situation rests.

Looks More Favorable. London, Feb. 6.—Mr. Spencer Wilkinson, in the Morning Post, says: "The tide is beginning to turn. In the western theatre of the war it looks as though Gen. French had been reinforced, perhaps by Gen. Kropf's brigade. This would be the campaign. When Gen. French has disposed of the enemy forming his present objective, his force will be available for other operations."

Detailing possible operations of Gen. French, Kropf's brigade and Gatacre, Mr. Wilkinson says: "There is now a prospect that in two or three weeks the British forces will be holding the passages of the Orange River, repairing the bridges, and collecting all the requisites for the advance northward to begin as soon as Lord Roberts sees his way to order the movement."

There are now more than enough troops between the coast and Orange River to form three infantry divisions and a cavalry division, without counting either the colonial troops or five militia battalions, which can be used to relieve regular battalions on the lines of communication. Lord Methuen's three brigades make a further addition that might ultimately be utilized. Mr. Wilkinson then proceeds to urge the Government to make every preparation against emergencies at home, and particularly to put on foot all available forces in the most complete condition for service if needed. He recommends remaining volunteer battalions of position with the best modern guns, and in short the organization and equipment of the available forces to be better than hasty endeavors to recruit untrained men. Sir Alfred Milner has sent most hopeful and encouraging reports to the Government regarding the prospects of the campaign, and he understood his views are shared by Lord Roberts.

PENSIONS FOR THE TROOPS. Mr. Chamberlain Gives Information of Interest to Canadians.

Ottawa, Feb. 5.—In the correspondence regarding the Transvaal contingents, a cable from Hon. Mr. Chamberlain gives particulars of the pensions and allowances given by the Imperial Government in the event of officers and men being killed in action. For the loss of an eye, or for an injury equal to the loss of a limb, a full year's pay is given, and then a pension is granted per year: Colonel, £300 a year; major, £200; captain, £100; lieutenant, £70.

If the injury is less, though severe, a full year's pay is given, and the pension is half the above rates. For even less severe injuries a gratuity of from three to twelve months' full pay is given, but no pension.

PENSIONS FOR WOUNDS. Pensions for wounds received in action by warrant officers, non-commissioned officers and men, if discharged, because unfit for service, scale as follows: Warrant officers, sergeants, etc., from 1s. to 3s. 6d. a day; corporals, from 9d. to 3s.; privates, from 6d. to 2s. 6d.

PENSIONS TO WIDOWS. Pensions to widows and children of officers, killed in action or died within a year: Colonel's widow, £180 a year; children, £24 a year each; major's widow, £140; children, £12 a year each; captain's widow, £100 a year; children, £18 a year each; lieutenant's widow, £80 a year; children, £15 a year each.

If officer's death was due to exposure: Colonel's widow, £135; children, £17 10s. a year; captain's widow, £75; children, £15; lieutenant's widow, £40; children, £12 10s. a year. It is noticeable that none of the above rewards are made if the widow is left in more comfortable circumstances. Widows of warrant officers and sergeants get £20 a year, and children £5 a year. No provision has been made for the widows of non-coms. and men.

The Transport's Sailing. Halifax, N. S., Feb. 5.—The Canadian transport Milwaukee docked at 4 o'clock this afternoon, after passing a thorough medical inspection. No fever will be found on this steamer or the quarantined officers and men. She will be ready for sea on Feb. 15th, and will sail on that day.
