HISTORY IN **CORNER STONE**

All Saints' Church Stone Opened After Many Years.

Few of Those Connected With It Are Living To-doy.

New Corner Stone Will be Laid Probably Next Week.

An interesting event took place yes-terday at All Saints' Ohurch when, in course of enlargement, the original

terday at All Saints Church when, in the course of enlargement, the original corner-stone was removed. Its contents, after 37 years, make quite an interesting study, as they show the progress of the times in many ways.

The corner-stone as laid in 1872, contained a bottle in which were two coins, a fifty-cent piece and a quarter, dated 1870, and one copy each of the Times, Spectator, Daily Mail and Globe. The document which was also put in the corner-stone showed that the stone had been laid on May 16, 1872, by Mrs. Mills, wife of Hon. Samuel Mills, the founder of the church. Rev. Alexander Neil Bethune was Bishop of Toronto; the Very Rev. J. Gamble Geddes, M. A., rector of the parish; Rev. Allan Napier Macnab, M. A., curate; Col. Villiers and C. T. Jones, church wardens; William Leith, architect, and Messrs. Hancock and Butcher, contractors and builders. The papers which were concealed in the stone were of the date of the day before. They were all of about the same size, being the large blanket sheets. At the time the church was started one of the principal topics discussed in the newspapers was the Alabama claim. The advertisements of the railways, with pictures of trains, were very much different from those of the very much t

much different from chose of sent day.

The reason for increasing the size of church is that the number of comicants has increased alone to nearly, and the seating capacity is only. When the alterations have been maleted the church will accommodate 440. When the alterations have been completed the church will accommodate about 700, which will be about 60 per cent. more. The work of tearing down the back of the church is well under way. The transept will be seven feet wider and six feet deeper than the old one and proportionately higher. The chancel will be enlarged considerably. The sand that is being taken out is good building stuff, and is being used for mortar for not only the church but other places as well.

for mortar for not only the church but other places as well.

The pipes of the organ are in the hands of the Mathews Organ Company, of Toronto, and are being retoned so that the church when completed will be like new. Three of the organ stops are also being changed.

The services are being held in the Sunday school while the church is being altered, and are well attended. The first marriage at which Archdeacon Forneret officiated in the Sunday school took place on Wednesday, when Chas. Thompson was united in marriage to Miss Edith Miller.

Pat Roran's Pigeons Knew There Was Something Wrong.

Pat Ronan, the friend of the pigeons, moved from his store on the Market, square this morning to 12 York street, which is but a block distant, but up to noon his feathered friends had not discovered his whereabouts. The pigeons this morning were ready for their meal, and seemed to know that something was wrong. When the City Hall clock struck 12 the pigeons were again on the job.

When seen this morning Mr. Ronan said he expected they would find his whereabouts by to-mornow, and when asked his reasons for believing it he replied, "They know my whistle, and as soon as a couple of them come up this way I will whistle and it will not be long before the whole flock will folow." Mr. Ronan is spending his spare time in front of his new store watching for the first appearance of his feathered friends. When asked if he did not think the pigeons would get used to the new store much quicker if they were fed in front of the old store, then half way up and then in front of the new store, he replied that he did not think so, and seemed quite confident that they would soon find him.

SCANDALOUS METHODS OF HYDRO-ELECTRIC PEOPLE.

Wentworth Farmers Declare That They Are Serving Illegal Documents In Effort to Frighten the Land Owners.

Two Owners Who Consulted Hamilton Lawyers Refused the Offer of \$60 and Received \$850.

A sensation is developing in connec tion with the Hydro-Electric Commis sion's methods of obtaining easements from farmers in this locality.

The plain, blunt statement is made by Wentworth farmers, on high legal authority, that fraud is being practised. They also declare that illegal documents are being served upon farmers for the purpose of frightening them into accepting terms which are little better than the confiscation of their land.

A few weeks ago agents of the com nission went through Glanford town mission went through Glanford township endeavoring to get easements. They asserted their right, the farmers declare, to take the easements whether the owners wanted to give them or not, and told the farmers that they had no say in the price—they must accept \$60 for a 30 year easement. That is at the rate of \$2 a year per pole, with no account taken of the great danger from the high voltage line, and the Commission's men to have the right to go on the land, at any time, through standing crops, without even having to ask permission.

Believing that they could do nothing else, some of the farmers signed. Some did not. Two well-known men of the township came to this city and took the advice of one firm of lawyers. Others

came in and consulted other lawyers. Having been posted they returned home and when the agents called again, told them they would not sign and positively would not allow them on their lands. What followed in the particular cases which came under the Times' notice should be an object lesson to all land owners. The price offered, \$60, was increased to \$200. Still the owners refused. Then they were served with arbitration notices—illegal notices their solicitor afterwards assured them, for the act makes no such provision. So the \$200 was firmly refused. On the next visit it was \$600, and still refused. Finally \$850 was offered and accepted. The owners even at that figure consider themselves badly treated. They valued what they were giving up at \$1,500, but accepted \$850 rather than have any further trouble.

In the meantime Mr. Lewis went to Toronto, and, in the interest of Messrs. Wesley Smith and Samuel Issac Hannon, interviewed Hon. J. J. A committee on finance was appointed, and will make an early start to raise the necessary funds to carry on a vigorous campaign.

Another committee was appointed to secure central uptown committee rooms. No decision was come to as to what form the coming campaign will take—whether the association will go in for the submission of a plebiseite or will follow the course pursued last year, and endeavor to elect a temperance Council. This point will be discussed later on.

As to what the reduction should be nothing was said last night. Among the members there has been some discussion, however, the opinion seeming to prevail that reduction should be from 85 to 50.
