Sydney is the logical jumping  
off place for Labrador," H. C.  
Bellew told the Rotary Club and  
its guests at the Norfolk Hotel  
Sydney when talking of the Lab-  
rador gold discoveries and this  
summer's "gold rush."  
"My own business in Sydney  
at the present time" Mr. Bellew  
said a little later in his speech, "is  
to arrange for transportation from  
Sydney of the 5,000 men our com-  
pany expects to send into the  
gold field this summer and a hun-  
dred thousand tons of freight that  
we will have for shipment to Lab-  
rador."

**Lydia E. Plankham's Vegetable Com-  
pound Brought Relief When  
Other Medicines Failed**

Port Mann, B. C.—"I took Lydia E.  
Plankham's Vegetable Compound because  
I was tired and run-  
down. I had head-  
aches and no appe-  
tite and was troubled  
for two years with  
sleeplessness. I tried  
many medicines, but  
nothing did me any  
real good. While I  
was living in Wash-  
ington I was recom-  
mended by a stranger  
to take Lydia E.  
Plankham's Vegeta-  
ble Compound. I am stronger and feel  
fine since then and am able to do my  
housework. I am willing for you to  
use these facts as a testimonial."—Mrs.  
J. C. Gossavus, Port Mann, B. C.

**Fetch New Life and Strength**  
Keene, N. H.—"I was weak and run-  
down and had headaches and all sorts of  
troubles which women have. I found  
great relief when taking Lydia E. Plank-  
ham's Vegetable Compound and I also  
used Lydia E. Plankham's Sanative  
Wash. I am able to do my work and feel  
new life and strength from the Vegeta-  
ble Compound. I am doing all I can to  
advocate it."—Mrs. A. F. HAMMOND,  
72 Carpenter Street, Keene, N.H.

Sick and ailing women everywhere  
in the Dominion should try Lydia E.  
Plankham's Vegetable Compound.

**Outlook For**  
**Lumber Trade**

Canvassing the prospects for the  
lumber business the Canada Lumber  
man says:  
"So far as the coming year is con-  
cerned, manufacturers and whole-  
salers believe that business for the  
first six months at any rate will be  
unusually good, but just what will  
happen after that when the new cut  
comes on the market, no one cares to  
foretell. Everything points to the fact  
that 1923 will, on the whole, be a bet-  
ter period than 1922, providing no un-  
toward event occurs to mar the in-  
creasing demand for lumber, the  
home building campaign, construc-  
tional undertakings, the awakening  
activity in industrial enterprises and  
the numerous projects that are being  
considered and discussed on all sides.  
A Maritime correspondent of Can-  
ada Lumbermen writes: "Business in  
1923 will be good if the European  
situation clears up. Stocks are only  
about 50 per cent. of what they were  
a year ago, and the past twelve  
months was largely a clean-up period.  
There are no large stocks in the  
country, and the log cut is light. Nova  
Scotia is bringing out only about  
100,000,000 feet, and New Brunswick  
about 400,000,000 feet. Business is  
good in the United States and why  
should not lumber bring a good  
price?"

**Enginemen On**  
**Wrecked Maritime Had**  
**Miraculous Escape**

"Nothing less than miraculous,"  
was the description given by a rail-  
road man when talking on the es-  
cape of Driver Ex-Ald. Geo. W. An-  
derson and his fireman on the east-

ed into some loaded box cars on  
the siding at Culligan's early Tues-  
day morning. From further particu-  
lars to hand it is supposed that the  
brake beam equipment of a north-  
bound extra had broken somewhere  
near Belledune and had split the  
switches at Ullitan and when com-  
ing into Jacquet River had caused  
part of the train to take the siding.  
The freight crew had flagged the  
Maritime at Jacquet River and after  
getting the tracks clear the express  
proceeded east but on reaching the  
west switch at Culligan's ran into  
the siding crashing into several load-  
ed box cars with the result that the  
tender of the engine was thrown on  
top of the boiler. The impact natu-  
rally derailed the engine as well as  
the tender also the mail and express  
cars, but it was most fortunate the  
train was not travelling at much  
more than 15 miles an hour at the  
time otherwise the accident would  
undoubtedly have been attended with  
fatal results. As it was, however, the  
damage to the equipment was con-  
siderable and especially to the engine.

**Canadian Wood**  
**Helps Uncle Sam**

Only fifteen per cent. of the timber  
lands of Ontario and Quebec are  
privately owned. The remainder  
belongs to the provincial govern-  
ments. The timber from private  
lands can be shipped out of the coun-  
try unmanufactured and amounts to  
a million and a quarter cords of pulp-  
wood annually, all of which goes to  
support United States mills. It is  
claimed that not two per cent. of the  
farmers of Canada own any pulp-  
wood or are interested financially in  
sending it to Uncle Sam's industries.

**One Timber Fire**  
**For Each Industry**

In Canada are located 5,000 wood  
using industries and it is an old coin-  
cidence that the forest fires average  
one for each industry, or five thou-  
sand a year.
