The City Leases

Tuesday night the city council held their regular monthly meeting in the council chamber, and had a very stormy session, prolonged some time past midnight. The most

mportant subject under consideration was the expiration of the city leases on Queen street, and the renewal of the same. The date of expiration is about July 1st. There are four of these lots below Queen street, on which some of the most valuable business property in the city is situate. The lessees are: The Wiley estate, George Gilman, Joseph Colter's estate, and John Edgecombe's estate ; and in buildings the follow ing business places are contained : Wesley Vanwart's law office, J. J. Weddall's dry goods, Tennant, Davies & Co's dry goods, Misses Young, W. H. Golden, J. M. Wiley, on the east side of King street there are two other lots on which valuable business houses are built. The rentals for the lower lots are \$100 each, and the city council wants to make a considerable increase Those above York street have been paying appointing a county president and vice- \$40 each. After a good deal of discussion alderman McPherson moved, seconded by alderman Walker, that a committee of one alderman from each ward be appointed to confer with the lessees of these lots, ascertain the value of the properties and recom mend an increase in the rentals upon renewal. Ald's McPherson, Walker, Everett, MORTGAGE SALE Moore and Block were appointed as such committee. The old leases were for the period of twenty-one years, and contained a covenant on the part of the city to renew In any wise concern. Notice is hereby given that by virtue of a power of sale contained in a certain Indenture of Mort-rage bearing duct file twenty-eighth day of April, in the year of our Lord one thousand eight hundred and ninety-one, and made between the said Timothy Daley, of the one part, and the undersigned, William H. Murray, of the City of Saint John, in the City and County of John, and Province aforesaid, Millowner, of the other part, and registered in York County Records in Book O 4, nages 503, 504, 565 and 505, unde-number 40416; There will, for the purpose of satisfying the moneys secured by the said In-denture of Mortgreg, default having been made in the payment thereof, contrary to the provi sions of the said Indenture, be so'd at Public Auction in front of the County Court House, in the City of Fredericton, on Saturday, the Fifteenth day of July next, at the hour of twelve o'clock moon, the lauds and premises described in the said Indenture of Mortgage as follows: the taxes at a reasonable rental, or to pay for improvements, the amount to be fixed by arbitration. It is probable that if the city attempts to raise the rentals to an uneasonable figure, the lessees will insist upon giving up the properties. The total value of the properties on the lower leases is somewhere in the vicinity of \$40,000.

Resolution of Regret.

On the eve of the departure of Rev. Mr. lobles, late pastor of the Gibson and Marysville Baptist churches, occasion was taken by a prominent member of the Gibson church to move a resolution of regret that the church was to lose the labors of Mr. Nobles. It met with an unanimous esponse. Reference was made to the nancial prosperity of the church, of the arge ingathering and of the kindly relations that had existed between pastor and eople. A sum of money was also presented the retiring pastor as a token of esteem and appreciation. It is not only a source of rearet for the congregation to whom Mr. Nobles ministered but his loss is felt by all minations in the parish, as he was ever ready to help any object for the general good. He has removed to Bear River, Nova Scotia, and bears with him the best wishes of all in this city and elsewhere who have made his acquaintance.

CHANGED HIS MIND .- Dr. J. R. Fritz, of Digby, N. S., who came to Fredericton for the practice of his profession, and had taken Steadman to ten years imprisonment in the an office in the Wiley building, has been compelled to change his mind. He has found that by the provisions of the dental act passed last year, it will be necessary for him to give three months previous notice of his intention to practice dentistry in New Brunswick and to reside in New Brunswick three months before commencing to practice.

THE NEW SCHOONER.- John Gibson's new schooner is shored up and new ways have been placed under her, so that should a freshet come she can be readily launched. It was decided to keep her on the ways rather than launch her now that the water is so low. Although reports have been circulated that she has been more or less strained by the efforts made to launch her, there is no foundation in them. Work is going on and she will be advanced as far as possible, all the deck finishing being done here.

ANOTHER ACCIDENT .- Half a dozen soldiers of the C. R. I., went out sailing in the regimental sail boat yesterday afternoon accompanied by a little boy of Jas. Burns, and when opposite the city hall, the boat capsized, throwing them all into the water. The little boy's uncle, one of the red coats, managed to keep him up, and to swim with one hand, until the whole party was rescued by the tug Eva Johnston; which was coming up the river. But it was a close call and very nearly resulted in a double drown-

FUN AT THE QUEEN .- A certain red coat is very assiduous in paying his attention to one of the kitchen-maids of the Queen hotel, making a visit to her regularly every afternoon. Yesterday the boys around the Queen tied about a dozen tin pans together and tumbled them down the back stairs close to where our hero was indulging in his post prandial spark. He got frightened and started for the gate, when a deluge of hot and cold water saluted his cranium and shoulders, drenching him to the skin and considerably accelerating his exit. "He never came back any more," at least up to the time of going to press.

A Close Shave.

Chas. King and Thomas Sykes, two barbers of the city, had a narrow escape from drowning last Tuesday morning. They ded a catamaran at the upper end of 1, and drifted out into the middle of the river, where the heavy wind and high waves caused their craft to separate and they were plunged into the deep water. They were seen from the shore, and a row boat put to their rescue, followed by the tug Ernest. When taken from the water streams, and now the reports are far more they were nearly exhausted, and the inciencouraging. On the Aroostook, matters dent has probably taught them to have are about as follows :-more caution in boating in the future.
