THE HURON SIGNAL, FRIDAY, JULY 12, 1896.

A FATAL FIGHT AT DULUTH

SHARP SKIRMISH BETWEEN POLICE AND STRIKERS.

The latter the aggressors—Several of the combatants shot dead and a large number wounded. DULUTH, July 6.—This afternoon about 4 o'clock the police were at Seventeenth

THE FASHIONS.

A variety of Jottings that will interest the Fair Sex.

Simple designs are liked for making lace costumes, the blouse being gathered and a broad sash of ribbon or soft silk encircling the waist if it is around one, or placed under the bodice at that point with long loops and ends reaching to the foot of the skirt. The waist is usually covered with lace, sometimes plainly, but often shirred back and front; the sleeves are full. The designs in the Chantilly lace flourishes for these dresses differ very little from those of last season, being principally floral with decided pattern at the hem edge, while in some the pattern is quite close to the foot, and separates above in stripes.

Pretty belted waists with full sleeves, and shirred or tucked fronts and backs, are useful to wear with various styles, any hour of the day. They are made to meet varied materials, India silks, pongee and fine muslins. Those of pongee have the tucks of the yoke and sleeves slightly feathered, stretched with brass to make the back tuck a high lining, and have the fronts loose, lined only by a belt which comes from the under-arm seams. White velvet and the silk-striped flannels are pretty made up with blouse fronts and fitted, tucked backs, worn with a ribbon belt knotted in front over the full blouse. Very dainty waists are made of figured silk, quaint small-patterned broadens of old rose or blue with lace fills or red of blue India silk with white or black figure for stripes.

One-piece dresses for boys of two or three years are made of gingham or plain chambray, tucked down the back to the end of the placket-hole, with three small tucks in front from each shoulder down below the waist, and the front space filled in by a shirt boom of puffed white collar and muslin. The turned-in collar and the cuffs are of piped silk. If the white blouse is not liked, the space between the tucks is of the gingham gathered at the neck and at the waist-line.

Gay plaid and striped gingham are worn by little boys as well as girls, but the plaid should be rather small. Brack and plaid with white, or red with blue-green with yellow bars, are worn by boys as well as the gray, blue, and brown plaids formerly chosen for them.

Another style of dress for boys from two to five years old consists of a knit shirt sewed to a sash waist that fastens behind. Over it is worn a sailor blouse, with large sailor collar and cuffs. Paper, serge, etc., may be made up in this way.

Dresses of bordered materials are made up in various styles. In some cases the bordered goods form the entire under skirt, which is laid in accordance with the plan of the border falling on the outer edge of the dress. A drapery of plain goods then finishes the skirt, and the border appears again in the bodice as a belt, or as a trimming or revers beside the bodice. In all cases where bordered goods are used as drapery, the selvage is turned up neatly on the wrong side in a blind hem or row of cat stitches, and in no case left to show, as it was last season.

THE OUTLET MOTH.

During the early part of the summer a vicious campaign should be entered upon. All carpets, clothes, cloth-covered furniture, rugs and rugs should be thoroughly shaken and aired, and if possible, exposed to the sunlight as long as practicable. If the house is badly infested or if any particular article is suspected to be infested, a free use of benzene spray will be advisable. All floor cracks and dark closets should be sprayed with this substance. Too much pains cannot be taken to destroy every moth, every egg and every newly-hatched larva, for immunity for the rest of the year depends largely—almost entirely—upon the thoroughness with which the work of extermination is carried on at the time. The benzene spray will kill the insect in every stage, and it is one of the few substances which DESTROY THE EGG.

I would, however, repeat the caution as to its inflammability. No light should be brought into a room in which it has been used until it is thoroughly aired, and until the odor is almost dissipated.

The proper packing away of furs and winter clothing through the summer is a serious matter. A great deal of unnecessary expenditure in the way of cedar chests and cedar wardrobes and various compounds in the way of powders has been urged by writers on these pests, but experience fully proves that after a thorough treatment in May or June, garments may be safely put away for the rest of the season with no other protection than wrapping them closely in stiff paper, to preclude infiltration through seams between female. My assistant, Mr. L. O. Howard, tells me of an excellent plan which he has adopted. He buys for a small sum from his tailor a number of paste board boxes in which they deliver suits, and his wife carefully folds and PASSES AWAY ALL CLOTHES,

wrapping a strip of wrapping paper around the edge of the cover so as to leave no crack. These boxes will last for a lifetime with careful use. Others use for the same purpose ordinary paper boxes, or linen pillow-cases, which answer well. The success of these means depends entirely on the thoroughness of the preliminary work. Camphor, tobacco, naphthalene and other strong odors are only partial repellents and without the precautions urged are of little avail. Cloth-covered furniture which is in constant use will not be harmed, and the same may be said of cloth-lined trunks. Where such furniture is stored away as kept unused in a dark room, where the trunks are left in a dark place, it is well to spray through the summer, at least two sprays with benzene, say once in June and once about August 1, will be advisable. Another plan which will act as a protection in such cases is to sponge the cloth linings and covers on both sides where possible, with dilute alcohol, made just strong enough not to leave a white mark on a black leather. Good Housekeeping.

Sudden Death at Winnipeg. WINSHEP, July 7.—Albert Scott, nephew of Col. Scott, the Collector of Customs, died suddenly last night from heart disease.

THE DOMINION IN BRIEF.

WHAT IS GOING ON OF INTEREST TO CANUOKS.

The happenings of a week epitomized into a column of Newy Paragraphs for interested Readers. Mitchell adopted an electric lighting by law. The yield of hay in Hastings is very heavy.

Sulphur springs have been struck at St. Thomas. A small green bug infests the wheat fields of Kent. Belmont mountain and Montmorenci falls are offered for sale.

J. A. Cobell, of Montreal, has been fined for delivering letters. At Regina, on Tuesday, Dr. Bourin married Miss Cameron. There is to be a great Orange demonstration in Brandon on the 12th.

The Baptists of Manitoba intend shortly erecting a college. The Hamilton Gas Co. has offered to supply the city with electric light. A warrant has been issued for the arrest of Mr. Shannon, deputy-postmaster of Kingston.

Wm. Anderson, aged 50, of London, Ont., was killed by a train in Detroit on Wednesday night. The next meeting of the Grand Lodge of the Knights of Pythias will be held at Smith's Falls. A few days ago a young gentleman in Kingston married his stepmother's eldest sister.

A steamer sailing from London is taking out valuable Shropshire sheep and other stock for Ontario. An Indian has been sentenced at Regina to the lash for attempting to assault a white girl. Mr. J. N. Greenhalgh has left Montreal for Winnipeg to assist in the extradition proceedings against Burke.

The Winnipeg City Council is considering the question of the city's possibilities as a manufacturing center. Mr. W. R. Wright, of the Militia Department, has been superannuated after 46 years spent in the public service. Mrs. W. C. Jones, editor of the Star-Telegram, published at Paris, died suddenly on Saturday.

Four passengers of the steamer Sarnia who refused to be vaccinated have undergone quarantine detention at Gosse Lake. The annual regatta of the Canadian Association of Amateur Oarsmen will be held at Hamilton Beach on August 20th. Hon. Geo. E. Foster, Minister of Finance, was united in matrimony to Mrs. Addie C. Chisholm, at Chicago, on Tuesday.

The number of franked letters sent from the Government department for the year ended June 30 was two hundred thousand. Mr. Charles E. Fox, Reeve of Gosfield South, has been chosen Conservative candidate for the Local House in South Essex. The residence and grounds of the late senator Parnell, of Niagara, were sold to Mr. J. G. Dickson, of the same town, for \$7,100.

The Government has decided to reduce the rate of interest allowed on deposits in the Government Savings Banks from 4 to 3 1/2 per cent. after October 1. It is stated that 40 miles of the Winnipeg and South-Eastern railway will be built this year. Archbishop Tache has granted the company terminal facilities.

The 10th Royal Grenadiers of Toronto have challenged the Massachusetts rifle team to shoot a match, eight or ten men a side, either in Canada, Massachusetts, or by telegraph. Dr. Playter, editor of the Ottawa Health Journal, has urged upon Mr. John Carling that the control of the local health boards should be assumed by the Dominion Government.

It has been decided to re-establish in Southern Manitoba this season the Mounted Police patrol, which last season did valuable service in preventing horse-stealing and similar depredations. The Ministers in Ottawa, who have been interviewed in regard to Sir Charles Tupper's Imperial Federation scheme, insist that Sir Charles is only giving his personal views and is not voting the sentiments of the Dominion Cabinet.

The Dominion Department of Justice has received a demand from President Harrison for the extradition of Burke, held in Winnipeg for alleged complicity in the Cronin murder, but no action will be taken until Judge Bain gives his decision. Messrs. Attwater & Mackie has entered an appeal for \$11,000 in the Montreal Superior Court against the trustee of the Temple work, who has failed to pay the late J. H. Webster, who lost his life by falling down the elevator shaft of that building on June 21.

The case of Commee v. Canadian Pacific railway, which opened at Colongue on May 11, was concluded Friday. A verdict for \$8,000 was given for the plaintiff in the tie bar of the case, and judgment was reserved on the North Shore contract. WINSHEP, July 5.—Ex-Premier John Frepaty, who has been a leading public man of Manitoba and its most prominent political figure for many years, died very suddenly at his residence about nine o'clock tonight, his untimely death being caused by fatty degeneration of the heart. Mr. Norquay took ill last night, but his indisposition was supposed to be of a trifling nature. This morning upon rising he dressed himself and started to walk to his office. Feeling slightly ill however he was compelled to return and was persuaded again to retire. In the afternoon his condition became worse and Dr. Blanchard was called in to attend him. This evening the doctor considered him a critical case and sent for other medical men to hold a consultation. These gentlemen had only reached the ex-Premier's residence a short while when he breathed his last. Only the doctors and four sons of the deceased were present at the death bed. Mrs. Norquay and the daughters being visiting friends at Strathclair, about a hundred miles from here. Deceased was 47 years old and was a native of the country, was at the head of the Manitoba Government for about fourteen years, his ministry being defeated only a year or so ago. A post mortem may be held to-morrow.

Drop Prospects. ST. PAUL, July 5.—According to reports received by the Northern Pacific and the St. Paul, Minneapolis and Manitoba railways, the wheat crop in Minnesota, South Dakota, the North Dakota, although not as encouraging as early indications led farmers to hope, is being considerably improved by good rains within the last three or four days. It will hardly be an average crop, but is by no means a failure in any district.

Notes of Fashion.

The new-old wedding ring, which is the-by-e, figured at some of the May marriages, is a double, so as to open in two and yet not separate—an emblem of the married state. Within this ring a suitable motto is engraved, and on the inside of the loop are the initials and date. The "Gimmel," when closed, presents the appearance of an ordinary hoop of gold.

Many of the ornaments of today still quaintness rather than absolute necessity; others are fac-similes of objects in nature, and others are plain geometric forms depending for their attractiveness in the harmonious blending and association of colored gem and enamel. Pearls remain popular. A novelty in this line is known as the "Shakespeare," because on each handle is engraved a brief quotation from the immortal poet.

A lace scarf pin, produced in gold and silver and attracting considerable attention, has for its design a simple line. These rods are made to assume a variety of postures or long bars. Cuff links, which for several seasons have been almost entirely confined to use by men, are, it is claimed, coming into fashion again for ladies' wear.

Cuff links are out in new designs, an illustration of which is noted in the padlock and key links, the crop and horse shoe links, the canoe and paddle links and gold and platinum horn and crop links. A Confectioner's Confidence. I can plainly state that I can find nothing better than Hagyard's Yellow Oils. I have rheumatism occasionally and Yellow Oil does me great good. You can use my name if you wish. Yours truly, H. Dickinson, Confectioner, St. Thomas, Ont.

Give Them A Chance. That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which cannot get out, the force of your lungs cannot do their work. And what they try to do, they cannot do. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is take Rosche's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. Sincerely yours, Mr. Edward Campbell, of the 17th con-

Mr. Edward Campbell, of the 17th con-

Phosphate, or Nerve Food, a Phosphate Element based upon Scientific Facts, Formulated by Professor Austin, M. D. of Boston, Mass., cures Pulmonary Consumption, Sick Headache, Nerve Attacks, Vertigo and Neuritis, and all wasting diseases of the human system. Phosphate is not a Medicine, but a Nutrient, because it contains no Vegetable or Mineral Poisons, Opium, Narcotics, and no Stimulants, but simply the Phosphate and Gartric Elements found in our daily food. A single bottle will cure you. All Druggists sell it. \$1.00 per bottle. Lowens & Co., sole agents for the Dominion, 55 Front Street East, Toronto.

Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its foundations. The most successful treatment known, and it is most frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nervine. It is safe to say that nothing yet discovered has afforded equal satisfaction to the suffering. A trial can be made at a small cost, as sample bottles of Nerve Food can be had at drug stores for 10 cents, large bottles 25 cents.

There lives in London-borough a gentleman named John Chapple who is past 84, and who never had a head or tooth ache. He farms about 4 acres of land, does the most of the work himself, and thinks nothing of walking 5 or 6 miles.

Not a Book A cat. Mr Goode, druggist, is not a book agent, but has the agency in Goderich for Johnston's Tonic Bitters, which he can heartily recommend for any complaint to which a tonic medicine is applicable. This valuable medicine has been with most astonishingly good results in cases of general debility, weakness, irregularities peculiar to females, extreme paleness, impoverishment of the blood, stomach and liver troubles, loss of appetite, and for that general work out feeling that nearly every one is troubled with at some part of the year. Don't forget the name Johnston's Tonic Bitters 50c. and \$1 per bottle at Goode's drug store, Albion block, Goderich, sole agent.

A Profitable Life. Few men have accomplished the same amount of work and good in this world as the celebrated Dr. Chase. Over 500,000 of his works have been sold in America and he has helped every person troubled with Liver Complaint, Dyspepsia, Headache, Kidney or Urinary Troubles, to buy a bottle of Dr. Chase Liver Cure, it will cure you. Medicine and Receipts Book \$1. Sold by all druggists.

THE WIDE, WIDE WORLD.

WHAT IS GOING ON IN OTHER LANDS AND PLACES.

Brief but interesting Newy Nuggets Specially Prepared for the Edification of our Readers. The report that John Ruskin is seriously ill is denied. The Government of Tripoli have issued a decree abolishing the slave trade.

The Bulgarian Government have concluded a loan of \$5,000,000 with a New York bank. The French Senate Committee has approved the bill for the relief of the Panama Canal Company. The marriage of the Princess Louise to the Earl of Fife will take place on the 27th inst.

Admiral Kranz, French Minister of Marine, has demanded an extra-naval credit of 60,000,000 francs. The owners of the Johnston dam are held responsible for the loss of life by the flood by the coroner a jury. It is stated that between twenty and thirty members of Canada-Gaelt, Camp 20, are in Chicago.

Wilkie Collins, the great English novelist, has had a severe attack of paralysis and now lies in an unconscious state. There has been a large raise in the prices of wheat and rye in Vienna and Budapest. It is regarded as significant that the Russian and French War Ministers are holding daily conferences at Vichy.

Of 735 cattle and 833 sheep carried by the Carthaginian crossing to Liverpool it is expected that 200 will be lost. The venue in the case of Mrs. Maybrick, accused of having murdered her husband, has been changed from Liverpool to London. Semi-official Paris papers deny the statement that discussion exists in the Cabinet over the prosecution of Gen. Boulanger.

The marriage of Princess Sophia, sister of Emperor William, and the Duke of Sparta, Crown Prince of Greece, will take place on October 1st. James Foote, a member of the Salvation Army, for obstructing the streets at Battle Creek, Mich., has been sent to goal for 60 days. It is reported that Parliament will be asked to grant Princess Louise and Prince Albert Victor \$120,000 a year each after their marriage.

Edward Walters was rowing with Mr. and Mrs. Whisen on Park lake, Buffalo, when the boat capsized and Walters was drowned. The Lifford court has dismissed the appeal of Mr. Chas. B. Conybere, M.P., from the sentence imposed upon him for offence under the Crimes Act. Gen. Boulanger attended a garden party given by the Prince of Wales at Marlborough house on Thursday, at which the Queen and the Shah were present.

The third heat for the Diamond skulls was rowed at Henley, the American champion, Penta, being beaten easily by Nicholls, who won the skulls last year. The daughter of Count Casale Campes, the wife of Count Bolina, an Italian nobleman, has been deserted by her husband in New York, and is in abject poverty. At the Canadian Convention in New York a resolution was adopted by which the French-Canadian pledged themselves to become American citizens, and proclaimed their devotion to their adopted country.

In the election on Friday in the West Division of Erie, Mr. Birrell, Gladstonian, was elected by nearly eight hundred votes over Mr. Wemyss, Radical-Unionist. At the World's Sunday School Convention in London Mr. Pool said that in India out of 50,000,000 children there are only 217,105 in Sunday day schools.

The Massachusetts rifle team have had great success so far in England, defeating the Honourable Artillery Company, the Berkshire Volunteers, and the London Rifle Brigade. Mr. M. C. Lanesman, deputy of the Seine, who appears to be a French edition of Lord Charles Beresford, believes the French navy, if not already gone to the dogs, is hastening in that direction. A Washington dispatch says the Solicitor of the Treasury is favor of allowing Canadian cars to enter the United States for the free of duty, provided there be guarantee that they will return empty.

An engagement has taken place between a force of Egyptian troops, under the command of Gen. Wedekind, and a body of Derwishes, in which the latter were defeated with a loss of 200 men. The London Daily News says that an understanding has been arrived at between the American and English Governments which will avert any collision in Behring sea during the seal-fishing season. At the World's Sunday School Convention in London, it was decided to send a memorial to the European Sovereigns, asking them to exert their influence in favour of a proper observance of Sunday.

The Chicago Railway Act states that during the past six months eight railroads in the United States, representing 2,600 miles of track and an investment of \$125,570,000, have gone into the hands of receivers. Sir Charles Tupper's Imperial Federation speech continues to attract attention, and Lord Rosebery has summoned a meeting of the Executive Council of the League to consider the proposal for an Imperial Convention. It is reported that the French Procurator-General refuses to prosecute Gen. Boulanger, and has resigned, and that M. de Freycinet, the Minister of War, declines to hold a court-martial upon him, and that a Cabinet crisis is imminent. At the session of the United States Senate Commission on Inter-State Commerce held in Boston on Saturday the witnesses were unanimous in desiring no interference with the Canadian lines, as their competition with American lines had a most beneficial effect. The Manitoba crop reports, which are published in another column, indicates that the recent rains have done much to improve the prospects. Wheat will be undoubtedly short, but in quality it will be No. 1. The root crops will be much below the average, and hay will be very scarce. In England and Ireland the crop outlook is very bright, an all-round average of from ten to thirty per cent. increase on the average yield of the last twenty years is looked for. In Scotland the crops may be up to the average, but much depends on the weather for the next fortnight.

An organization to be known as the Irish-American Republican Association has been perfected in Chicago. The idea is to establish an Irish-American Republic in Lower California, and ultimately, with the assistance of the Irish and French Canadian, to ally the Dominion into a powerful Franco-Irish Republic.
