The Banking Scheme!

Meeting of the Ratepayers!

THE SCHEME CONDEMNED!

A meeting was held in the Council Chamber on Thursday night, for the purpose of taking into consideration the Banking resolutions now before Parliament. Most of the members of the County Council were present, and the former were invited to occupy seats round the Council Board.
On motion of Mr. John McCrea, seconded by Mr. Charles Davidson, the Mayor was called to the chair, and Mr. Roberts was appointed Secretary.
The Mayor explained that he had been compelled to have a meeting, and called the meeting on a question, and the measure it was proposed to discuss was one of the most important meeting could be called for. He would receive any resolution which might be put before the chair. His Worship furthermore read a letter from Dr. Clarke, in which that gentleman expressed his regret at being compelled to have a meeting, but he cordially sympathized with the object of the meeting, and thought it very judicious to have invited the County Council to attend. The proposed scheme, he believed, would place more power in the hands of the Government than they or any other ministry should wield.
Mr. C. Davidson in proposing the first resolution said that no one who was acquainted with banking could fail to see that if the new scheme were carried the consequences would be most disastrous. The present circulation of the Banks together with the surplus silver in the country has been found none too much to move the produce. The present system is, that for every dollar of paid up capital issued by the Banks they have the power of issuing two dollars, and a certain amount on the basis of their deposits, so that generally the banks can get a accommodation enough. But if this system were swept away the circulation would be reduced one half, and what will then be the result? It is monstrous to attempt to thrust such a scheme on the new one of the Province of Ontario. The Lower Province is the circulating medium is not so much required, because there are more manufactures there and business is done by means of checks and in other ways. The people of Ontario are equally interested in the prevention of the new system, which is a very great absurdity for suppose, for the sake of circulation, that a Bank wanted to establish a circulation of \$1,000,000, it would have to pay \$1,000,000 in gold to the R. S. General before it got its notes, then keep \$300,000 in gold, and seven per cent against deposits, so that 27 per cent would be lying dead, and the full amount having to be paid in gold. The security would be no better than it is now, for the Government would be obliged to offer 1 1/2 per cent. The delusion is not security, and should any law be passed the public would be in no better position than they were when the Royal Canadian Bank was established. The rural municipalities as well as the townspeople should meet and protest against the proposed one. Bank Directors should not get down and inspectors should not make their visits at stated periods, but be allowed to drop in and examine the accounts at any time they chose. He was afraid that action on the matter had been almost too long delayed. The rural municipalities as well as the townspeople should meet and protest against the proposed one.
