Mayor Glover, expects to have another good contribution to send to the India famine fund, at the end of this week.

Mr. Armstrong, of London, formerly of Lyons, is spending a few days in town this week and gets along nicely on a new ball bearing, bicycle tire, invalid's carriage, which he runs by cranks, turned by hand.

Mrs. E. Caverly, has an exceptionally fine patch of early potatoes this year. They have just been in the ground 74 days, and every potato in the hill is fit for the table, as we know by actual experience.

Mr. W. C. Binham, has sold his handsome residence on the south side of Pine St., at present occupied by Mr. W. S. Case, to Mr. J. Chambers, of Watford, who will take possession in a few weeks. The price paid was \$3,000.

The Pastime Baseball Club, of London, will play the Aylmer team on the fair grounds here on Monday afternoon next, game called at 4.30. The Pastimes are one of the best teams in western Ontario, and a good game is assured.

Mrs. Albert Dougharty, handed Mayor Glover, a handsome contribution from the Jaffa Sunday school for the India Famine Fund, and also Master Murray Hunt, of St. Salem, and his school master, sent in a nice contribution.

The celebrated Glass family, musicians and vocalists of a high order of merit, will give an entertainment in the opera house this evening. They play almost every kind of instrument, and promise a first-class entertainment at popular prices, 10 and 15 cents.

Mayor Glover has received an acknowledgment with thanks from Mr. Walter B. Geikie, of Toronto, for Aylmer's handsome contribution to the India famine fund, and adds, "It will be forwarded without delay and will go a long way in helping the famine stricken millions of India. I am very proud that Canada does her share nobly, not only side by side in Africa with the troops of the mother land, fighting against unendurable tyranny, but also in the God-like work of sending substantial help to those in sore straits from famine in India."

### IMPERTINENT SIMIANS.

An Experience in the Monkey Temple at Banaras.

On the occasion of our visit to the monkey temple at Banaras we had provided ourselves with popcorn and other goodies which we expected to offer their holinesses. But the monkeys did not give us a chance to do that. They snatched the dainties from our hands, and when our supplies were exhausted they amused themselves by mimicking us.

One of our party, who had a bad cold, used his handkerchief with considerable emphasis. Scarcely had he replaced his handkerchief in his pocket when a monkey seized the protruding end, pulled it out and gave an excellent imitation of the act. Then, of course, some of us had kodaks, and after we had taken several pictures another personification of impudence picked up a little block of wood which lay upon the ground and with it took several snapshots at us.

A third ill conducted simian (a vain female, who deserted her infant for the purpose) grabbed from my shoulders a red chuddar scarf and in a few flying leaps carried it to a lofty minaret. There she put it on and evidently "fancied herself" immensely. But she was not allowed to retain her prize. In about three minutes at least 40 monkeys had bit a piece of my precious chuddar.

Then our native guide informed me that the monkeys were very fond of scarfs and that they captured a great many on the stone "ghats" near the temple while their owners were bathing in the river. Perhaps on the principle that "misery loves company" he seemed to think his item of news ought to console me; but, although the "monkeyshines" continued as long as we stopped in the temple "compound," I no longer found them quite so ludicrous.—Chautauquan.

### The Doctors Disagreed.

Some Vienna savans were lately confronted with a language difficulty. According to the Independence Belge, a young girl, unknown, was found unconscious in a street at Presburg and was conveyed to the hospital at Vienna, where she recovered consciousness and began to speak in a language which no one present could understand. The doctors came to the conclusion that the young woman was a native of an eastern country.

Consequently some professors from the oriental school were called in, and they were all agreed that the girl did not speak a correct language, but a dialect. The professor of Persian held that she spoke a Persian dialect and that he understood it. Another professor was of opinion that it was an Abyssinian dialect. A third was convinced that it was a Turkish patois.

Since the savans were not agreed the police deemed it necessary to make inquiries, with the result that the stranger was proved to be a Hungarian who had escaped from a prison and who did not understand a word of Persian, Abyssinian or Turkish.—London Globe.
