the Immense Attractions Preparing for Visitors—To Be the Greatest of all the Fairs or Expositions of 1896—Some of the Rare Pleasures that Will Be Enjoyed by Half a Million People.

There is no longer room for any doubt that the Detroit International Fair and Exposition, that is to open Aug. 26 and close Sept. 5, will be the greatest and most enjoyable exposition in the world for the year 1890. This big enterprise is a continental affair. It is for all the United States and Canada, and every State and Province in the two countries will make large exhibits. It will be held in the height of the late summer season, when the historic and beautiful city of Detroit is at its best, and when the closing hot weather will make a visit to this cool and lovely lakeside and giverside resort a special delight. The grounds of the Exposition are the finest in the world. They are located just below Fort Wayne, with its garrison of the United States regular army, upon Detroit River, at its junction with the Rouge River. Steamships and ferry-boats land passengers directly at the grounds, and railroad lines have passenger and freight depots within the inclosure. The grounds slope gently to the two rivers, giving a clear view of both, with their ENDLESS PROCESSION OF STRAMSHIPS and sail vessels—the largest commerce of any port in the world. Opposite, a mile away across the Detroit River, are the green shores of Canada, dotted with villages and country villas. From the towers of the vast main building visitors can overlook Detroit city and suburbs, several villages in Canada, several in the United States, the long course of the noble river, and catch glimpses of Lakes Erie and St. Clair.

States, the long course of the noble river, and catch glimpses of Lakes Erie and St. Clair.

The buildings are the largest and finest Exposition buildings and grounds are brilliantly lighted by electricity. The vast stables, five in number, are 280 feet square, each inclosing an open arena of 200x170 feet, in which horses, cattle, swine and sheep are exercised and shown. They are all sewered, preserving cleanliness, with water at 30 feet intervals, and electrically lighted, so that stock can be cared for and shown as well by night as by day. The enormous main building will be filled with THE RICHEST PRODUCTS OF MODERN CIVIL. ILATION, inventions, wares, goods, fabries, and everything artistic, costly and beautiful. The Stock Show will be the grandest ever seen in America. One thousand of the costliest, handsomest and best horses of all breeds, from the blooded thoroughbred and famous trotters, through all varieties of draft, farm, coach, saddle and carriage horses, and pet ponies, the smallest in the world, will be shown. The display of eattle of all breeds will be equally fine bad large, from the most gigantic to the finiest. The poultry show will be immense in number and variety. Of sheep and hogs there will be a Bird and Pigeon Show larger than has ever been seen in the West. Homing and carrier pigeons, the finest on this continent, will be shown in great numbers, with methods of rearing, handling, training and racing these

Rich, Poor, Clean, Dirty, White, Black-All need PEARLINE. No one is too poor to use it. It's the modern soap—Economical—Harmless—Effective. Reduces the labor, time and drudgery of washing and cleaning one-half; besides gives better results; takes out what soap will not; and, in doing away with most of the rubbing, saves the worst of the wear and tear-your clothes are ruined more by washing than wearing. Among your friends are those who use it—they will confirm the above.
