AN EVIDENCE OF ENTERPRISE.

Canada's Leading Grocery House Establishes a Branch in This City During the Week-Their Representatives on Hand.

Following the custom of last year the big wholesale firm of Gowans, Kent & Co., Toronto, have opened a branch establishment in this city during the week, in order to give their many customers in the west and north who will be attending the exhibition, an opportunity of inspecting their various lines of goods. It is hardly necessary to mention that Gowans, Kent & Co. are the leading wholesale grocery firm of the Dominion—that is universally known. They have sent two leading representatives to London in the persons of Messrs. Wm. Gray and T. C. Fleming, and under their able and artistic management the commodious store at 394 Richmond street has been beautified by a magnificent and costly display, comprising everything useful and ornamental in the trade. There are toilet, dinner, and tea sets in endless variety; French and German china and dinnerware of exquisite quality and pattern; parlor lamps that would embellish the Queen's drawing room; in short, a grand display of every conceivable article handled by this progressive and enterprising business establishment.

Gowans, Kent & Co. are the sole agents in Canada for the celebrated Pittsburgh lamps, which have become so popular; for the elite Linnaeus china, which is among the finest makes in the world; and for the famous crank tubular lanterns.

Messrs. Gray and Fleming are here not to sell to the public, but only to the trade. They will be on hand to meet their customers and northern patrons, show them their samples and talk business. The enterprise of the firm in making temporary headquarters in this city at great expense for the convenience of customers will doubtless be appreciated by the latter.
