# A FAIR EXCHANGE

That's the rock that honest, up-to-date merchandising rests on. No store can permanently succeed by giving one jot less than full and complete value for the money spent. Circumstances sometimes make it possible to give more than a fair exchange, but no circumstance or combination of circumstances should tempt a store to give less than a just equivalent. Preaching principles is one thing, and practising them is another. We invite you to investigate us and see for yourself how closely our practice follows our preaching.

## GUELPH LIBERALS

Tender a Banquet to Their Popular Representative Mr. Hugh Guthrie, M.P.

Guelph, March 15.-Mr. Hugh Guthrie, M.P., the youthful, but able representative of South Wellington in the Parliament of the Dominion, was tendered a banquet tonight by the Young Liberal Club of the riding, in acknowledgment of much faithful service, in recognition of his ability and his achieved success for Liberalism, and as a token of warm personal

The affair was a magnificent success. More than 200 guests crowded the many tables, and among them were Hon. J. Israel Tarte, M.P., Hon. Lleut.-Col. Gibson, M.P.P., Hon. D. C. Fraser, M.P., Lieut.-Col. Mutrie, M.P. P., Mr. Daniel McGillicuddy, Goderich, and Donald Guthrie, K.C., father of the honored guest. MR. GUTHRIE TOASTED.

The toast to Mr. Guthrie was proposed by Mr. Hugh McMillan, and honored with a flattering enthusiasm that was redoubled when the member for South Wellington rose to respond. He disclaimed the honor of the recent victory, crediting it to the labors of his political friends. In 1896 the Liberals in South Wellington had fought a campaign of wind and cash. Last November they had done the work that wins elections, in the revision of the lists, the registration of voters, and other committee-room work. With the people of Canada, nearly half of French origin, there were in the cabinet only three ministers of French blood, and the French Liberal Prime Minister had in five years done in-finitely more to draw Canada closer to the heart of the empire than the Conservatives had done before in eighteen years. He concluded with a strong appeal for the supremacy of the British principle of toleration and true citizenship.

HON. J. I. TARTE.

The toast, "The Dominion Govern-ment and Parliament," was proposed by Dr. Stirton and responded to by Hen. Mr. Tarte and Hon. D. C. Fraser, The Dominion minister of public works delivered an interesting and high-minded address, looking to unity of sentiment and races in Canada. In

a riding close by a Tory campaign of appeal to race prejudice was being conducted. The new leader of the opposition had made statements on two occasions since assuming his position that call for a refutation of their racial campaign conduct-ed in November. The speaker was very much afraid Mr. Borden was not strong enough for those who surrounded him. Mr. Tarte, speaking of Ontario's course in the last election, said hoped that want of organization had as much to do with the Liberal defeat as the appeal to racial passions. No party, declared Mr. Tarte, could succeed for any length of time unless they made up their minds that this country should have for its programme tolerance and equal rights to all. For French and English to be contending together in this country was wasting The French-Canadians were here to stay, and the two races must agree. He did not know of any other nation that was so favored, or any that was as free, save Switzerland. We had everything capable of building up a nation. The Canadian people had only to work out their destiny. He believed Ontarlo and Quebec should understand each other better, and for himself he proposed at the next election to make a full tour of the Province of Ontario. If Canada was going to be a nation it should be possible for him to be a candidate any part of the province.

Mr. Tarte's address sparkled with the wit that never fails to appeal to his audience, and was many times vociferously applauded. In concluding, he said he expected to see the Liberal Government of Ontario succeed in the coming election. He had never heard a finer effort than Mr. Ross' speech at the recent banquet to Mr. Sifton in Toronto. The people of Quebec felt kindly towards Mr. Ross, because he represented in Ontario the principles of justice and equal liberties to all. Hon. D. C. Fraser followed with a

speech that was a clever satire on the cry against French-Canadians. He kept his audience in almost a continuous roar of laughter.

Hon. Lieut.-Col. Gibson responded to the toast, "The Legslature," spoke very briefly, chiefly in eulogy of the guest of the evening and his father. Of the political outlook in Ontario, he said, evidences were every day increasing that the government was in touch with the sentiment of the people of Ontario in respect to the development of New Ontario.

## NOVEL LAW POINT

Brought Out in the Trial of an Old Offense Under New Criminal Code.

Toronto, March 15 .- In the sessions this morning, Mr. Du Vernet, on behalf of R. G. Lewers, charged with fraudulent use of the mails by sending out circulars threatening suit to collect accounts for articles sent to agents to sell for him, the said articles being held to be worthless, brought up a novel point of constitutional law. The clause of the criminal code dealing with the case was altered last session, the new provision coming into force on Jan. I. The statute as worded says the new clause shall be "substituted" for the old, whereas the customary way is to "repeal and re-enact," making provision that offenses that would have held good under the old shall be tried under the new clause. Chinese Affairs in the German Parlia ment-Li Hung Chang's Condition Causes Concern.

London, March 18.-The Tien Tsin correspondent of the Standard says: The railway dispute here is another of the attempts of the Russian Admiral Alexieff to create trouble, and unless he is removed there will be constant friction, which will eventually lead to hostilities. He loses no opportunity to thwart the English. Commenting editorially upon its Tien Tsin advices, the Standard reminds Russia that the British fleet is as potent as ever, and Japan is burning to second the efforts of any one ready to oppose the annexation of Manchuria, adding: "It is a painful task thus to be compelled even to hint at contingencies so vast and disturbing, but the perils of the moment are most likely to be overcome if it is thoroughly realized that we do not shrink from such action as would be best calculated to maintain our rights."

Russia Gets a Set-Back in the Manchurian Matter.

London, March 16 .- Dr. Morrison, wiring to the Times from Pekin, says: Chinese officials say they have been informed from St. Petersburg that Russia abandons her claim to exclusive rights in Mongolia and Turkestan and consents to modify the stringency of her control of the civil administration of Manchuria, agreeing that the convention shall be published as soon as it is signed in St. Petersburg a fortnight hence.

New York, March 18.-Mrs. Carrie obus, aged 38, living on West Eighteenth street, met death in a shocking manner last night, she being killed by her dog, a fox terrier of unusual intelligence. Mrs. Elizabeth Broadhead, Mrs. Cobus' mother, says her daughter went into the kitchen a few minutes after 7 o'clock. A few moments later Mrs. Broadhead heard the dog barking excitedly. The mother ran out and found her daughter lying on the floor. She knew it was an epileptic attack, and screamed for

# Throat Consumption EPPS'S

The Beginning of the Deadly Malady Which Eventually Reaches the Lungs-How to Overcome This Insidious Disease While It Is Amenable to Medical Treatment.

Inflammation of the throat and bronchial tubes, cough, weakness of voice, continual hawking and spitting, pain and difficulty in expectoration, loss of flesh, sleeplessness and general weak-ness of the system, are indications of throat consumption, which is in most cases the starting point of what leads to consumption of the lungs, and death. It is the old story of catching cold after cold, one upon the other, until the system is weakened and depressed, and the germs of consumption find an easy entrance. General as well as local treatment is absolutely imperative for diseases of this nature, which attack the constitution, and aim at the vital organs of the body.

To clear the throat, ease and loosen the cough, and make expectoration easy, Dr. Chase's Syrup of Linseed and Turpentine is of incalculable value. It positively checks disease, and affords relief from the distressing symptoms which fasten themselves on the victim of our national malady.

Then it is that Dr. Chase's Nerve Food should be regularly and persist-ently taken to restore vitality to the system, and prevent emaciation, loss of appetite, fever and the terrible nightsweats which sap the life from the weakening body. You can fight off consumption by this combined treatment, and thousands of persons today are living witnesses of the wonder efficiency of this treatment.

But the best way by far is to prevent the necessity of a deadly combat with consumption. Call a quick halt to the cough and cold by the prompt use of Dr. Chase's Syrup of Linseed and Tur-pentine. It is beyond all odds the most thorough and far-reaching remedy ever prescribed for diseases of the throat and lungs.

Also remember as a positive fact that neither consumption, pneumonia nor any other constitutional disease can find its way to a system that is kept in full vigor and vitality by such a preparation as Dr. Chase's Nerve Food. By enriching the blood and rekindling wasted nerves it sends new life to every part of the body. It is the great-est preventive of disease that man has ever known, and is worthy of a trial. 50 cents a box, all dealers, or Edmanson, Bates & Co., Toronto.
