The Smallpox.

Toronto, May 8.—Dr. Bryce, secretary of the Provincial Board of Health, believes that the smallpox outlook for Ontario is more favorable at present than it has been for some time past. A suspected case of the disease has been reported from Nissouri township, Middlesex county. A severe outbreak is not feared in that district, however.

Another family has been stricken down in Waterloo township, and a new center is announced as existing at an abscure place about 50 miles west of Eaganville, in Nipissing.

There is no smallpox in Glengarry, as stated some days ago.

The smallpox from which the Sweaborg families were suffering, and for which they were quarantined, must have been of an exceedingly mild form, for Corey, the man who had the worst attack, has been working around his garden this week, and is apparently well. None of those attacked bear any scars.

CANCER TWO YEARS.

A Remarkable Case Cured Completely by the New Constitutional Remedy.

Not long ago we had the pleasure of receiving the following letter: "When I began your treatment there was a hard lump in my breast, which had been growing for two years, and it was so bad at last that it drew the nipple in. I consulted two doctors, and they both pronounced it cancer, and advised me to have my breast cut off. Your remedy was recommended to me by a friend, and I am very thankful to say that it not only saved my life, but did away with the necessity of having to undergo the painful opera-

tion, which I so much dreaded."
We do not publish the names of those who give us testimonials for the gratification of the curious, but any sufferer from cancer or tumor, may have the name and address of the lady who wrote the above, by sending two stamps to Stott & Jury, Bowmanville,
