THE QUESTION OF DISCIPLINE. The programme of the Froebel Society this week dealt with a very practical subject for parents and teachers, that of "Discipline." Discussing the place of discipline in the life of the race and the child, quotations were made from Professor O'Shea, of Wisconsin University; Dr. Reigart and Dr. Nathan Oppenheim, and attention was called to a recent article by Charlotte Perkins Gilman. A broad classification of the different temperaments of people was considered, and the general elements were suggested, which would be necessary to bring each into har-

## ERIE TO RUN MARQUETTE

Russell Harding To Be at Head of the New System.

A Cincinnati dispatch says: President Zimmerman, of the C., H. and D., returned to this city from New York Monday, and pronounced the rumors of hitches in the sale to be without foundation. "The Erie is to operate the Pere Marquette," he said. "Although there has been no official announcement, such is my understanding. We are not worried by this injunction suit to prevent the delivery of securities to Pierpont Morgan in compliance with the terms of sale. The suit contains no provision to restrain us anyway. The Great Central is a bigger system than the Erie, and I am not surprised that the offices are to remain here

Orders given conductors on the Chicago, Cincinnati and Louisville Railroad to get all their cars from the Pere Marquette system by Oct. would seem to conform the belief in railroad circles here that the transfer will take place on that date, or soon thereafter. It is understood that the C., C. and L. goes to the Erie. A Detroit dispatch says: Harding will be vice-president, and general manager of the new Erie

system. The former executive head of the Great Central system is retained by the new owners to direct the railroad property that will give Michigan line to the seaboard independent of the Vanderbilt lines, the Lake Shore, and Michigan Southern and the Michigan Central. Within the past fifteen months, Mr. Harding has been a rapid-moving star in the railroad firmament.
