September STOCK MARKETS. H. C. Becher, stock broker, next Free Press building, received the following by private wire from Bartlett, Frazier & Carrington today:

New York, July 10 .- Noon .- An irregular opening was succeeded by a continuation of the selling in evidence at the close last week. While part of the pressure undoubtedly represented October 7 92 efforts of traders to depress the market, the bulk of the selling was liquidation of long stocks, chiefly U. P., Reading and a few of the industrials. attempt was made to create a little bullish enthusiasm over A. C. P., but the movement failed to attract an important following. Toward the noon hour the market strengthened somewhat, this fact being particularly noticeable in the steel stocks. However, at the moment, the market is much duller than for some time past, and the course of prices this afternoon in our opinion will depend largely upon
