

PHILADELPHIA TOLD TO MIND ITS BUSINESS

Street Railway Co. Refuses Requests of Many Bodies to Arbitrate Strike Differences.

Philadelphia, March 1.—The Rapid Transit Company have served notice upon the citizens of Philadelphia that they would do well to mind their own business. Every offer made by clergymen, associations of business men, civic bodies and individuals, suggesting a means of arbitrating the differences between the company and the striking employees was turned down coldly.

The company has announced that it will not deal with its former employees under any circumstances whatever, there is less hope for peace tonight than for a week past.

It is known now that the company does not believe that the union labor men affiliated with the central labor union will dare to break existing agreements with their employers, and that the company is depending on this factor to maintain its stand against arbitration.

"The company will never agree to arbitration," said Mayor Reuburn. "I do not know about a sympathetic strike, but if the thing is coming, it will have to come, and we are better prepared than we were."

Senators McNichol and Penrose and Recorder Vane are expected soon, and out of their conference may come the real solution of the problem.

The state constabulary left today. In their place will be a detachment of mounted policemen, two hundred in number, most of whom are ex-cavalrymen.

The Transit Company heard today of a plot to blow up the subway elevator, the most important link in the company's system. Detective Kilgore informed Magistrate Beaton that two tickets of the strikers confessed to him that there was a plot to dynamite the elevated structure. Magistrate Beaton held the men for further examination.

ANOTHER MOVE IN HYDRO SUIT

Mr. Beadmore To Carry His Appeal to the Court of Appeal.

Toronto, March 2.—Mr. W. D. Beadmore, through his solicitors, has served notice on the city legal department that he will carry his appeal in the electric power case to the court of appeal. Mr. Beadmore seeks to set aside the city's contract with the hydro-electric power commission and prevent the city from supplying power to the citizens. In the high court, before Chancellor Boyd, judgment was given against Mr. Beadmore, and he appealed direct to the court of appeal. The case subsequently went to the divisional court, where the decision of Chancellor Boyd was sustained. From the decision of the divisional court, the appeal of the court of appeal will be made.

AIRSHIPS RIGHTS

Germany to Prevent Them Sailing Above the Fortresses.

Berlin, March 2.—The law of the air and its control by nations in relation to aerial navigation was the subject of a lecture by Professor Dr. Koenen, a meteorologist, in the presence of the Kaiser, a number of military and naval officers and other prominent men.

It is probable that Professor Koenen's statements, which had as many features as an official report, is the forerunner of legislation. He contended that aerostation was not so developed that the time had come to impose laws on the subject, as is done regarding land and sea traffic, and to define the provisions of aerostation and the restrictions to which they should be subject.

The frontier rights of nations, private rights as affected by unregulated landings and the discharge of ballast, aerial injuries, the question of aerial areas in which it will be illegal to navigate, and measures for the protection of aerial passengers, were among the points dealt with.

A discussion, in which the Kaiser shared, followed. It is understood that one of the first points to which German legislation will be directed will be prohibiting airships from traversing over fortresses and fortified towns lest foreigners survey the fortifications.

THE MILLIONAIRE FLYER HAD NARROW ESCAPE

Boys Confess to Attempt to Wreck Train With Rockefeller Aboard.

Greenwich, Conn., March 2.—Five boys of foreign parentage, the oldest only 19 and the youngest 10, confessed yesterday, after arrest here, to a plan to wreck a fast New Haven passenger train which leaves New York shortly after noon and then plunders the bodies of the dead.

They are George Lenko, 10 years old; Stephen Yoski, 14; Edward Gydooski, 14; and Andrew Milkin, 12, and Mathew Gydooski, 19.

By his uncontradicted statement, Yoski was ringleader in the affair. All were frequenters of moving-picture shows. Although the arrest did not come out until late, plans for the wreck, according to the police, had been laid for last Saturday, and would probably have gone through with appalling possibilities if it had not been for the watchfulness of a switchman, who saw one of the boys using a stolen key to open a switch.

The train carries a special club car on which William G. Rockefeller, E. G. Benedict and a score of other wealthy men ride for the week-end to their country places in Stamford and Greenwich.

In his anxiety to close the switch, the switchman let the boys escape for the time being, but he immediately notified the railway detective force.

ROBLIN'S QUALIFICATIONS

If Charges Are True He May Lose His Seat in Legislature.

Winnipeg, March 2.—Opposition Leader Norris yesterday gave notice that he will move next Thursday a resolution calling for the appointment of a commission consisting of two judges of the superior courts of Manitoba to investigate the guaranteeing of the bonds of the C. N. R. and the which in his notice of motion, he says, were built solely for the hauling of sand. The premier, it is alleged, was partner in the Eli Sand Company which shipped from the Gunn sand-pit.

As a partner in the Eli Sand Company, it is claimed, he did business with the Government of Manitoba, under circumstances which may affect his qualification as a member of the House.

FEVER AT HIS HEELS

Several British Officers Who Entered Tainted Roosevelt Stricken.

Gondokoro, Soudan, on the Upper Nile, March 2.—The Roosevelt party may be congratulated upon their escape from the African fever that has followed in the wake of the expedition. Col. Roosevelt and his immediate associates sailed for Khartoum on Monday, all apparently in good health. Dr. Rodier, the French medical missionary, who lunched with Mr. Roosevelt Monday, suddenly died of fever at noon yesterday. At a camp adjoining that occupied by Americans, a case of English fever was serious, following a trip to Kampala, the capital of Uganda and one of the places at which the Smithsonian-African scientific expedition stopped.

The district commissioner of Gondokoro, the British officials, of which were active in entertaining their American guests, has been stricken down with the fever.

REDMOND SATISFIED

Says Ministry Should Have Adopted Present Policy Earlier.

New York, March 2.—The World's London cable quotes John Redmond as saying Monday night: "If the ministers had made last Monday the speech they made today all the troubles of the past week would have been obviated. The Government has now adopted the policy which it should have adopted at the outset, and the refusal to adopt it then was incredibly bad tactics."

CLOSETED WITH MONK

Ottawa, March 1.—A deputation of French Conservatives, from Quebec were in the city today. It included Sir Alex. Lacoste, J. U. Emard, Rodolphe E. Forget, E. Chase Casgrain and a number of others. The deputation was closeted with Mr. Monk, the Quebec leader, all morning. Arrangements for the Dominion convention and the naval policy are understood to have been under discussion.

ALLDS HITS BACK

Now Attempting to Prove That Senator Conger Was Corrupt.

Albany, N. Y., March 2.—Efforts of Senator Allds' attorneys to turn the investigation of the bribery charges against their client into an investigation of the conduct of Senator Ben Conger, his accuser, brought objections yesterday from several senators, and when the senate took a recess at 1 o'clock the question of their right to do this was still unsettled. This question was the admissibility of testimony bearing on Conger's relations with the bridge companies concerned in the pool by which it is alleged that immense profits were gained through collusion.

Eugene A. Landon, former manager of the Croton Bridge Company, which the Congers controlled, had testified that the Croton Bridge Company was a signer of the Cleveland agreement, which contained the rules of this pool, but was allowed to go no further. Senator Grady insisted that the defence had a right to pursue this line of testimony as far as it liked to prove its assertion that the motive behind Conger's charges was based on Allds' efforts to defeat legislation hostile to the bridge companies.

Allds gained an important technical victory when Chairman Davis let in the testimony of Speaker Wadsworth and Majority Leader Merritt of the assembly, showing Allds' part in killing a bill favored by the bridge companies last year.

LIBERAL MINISTER ELECTED

London, March 2.—Mr. Joseph Pease, Liberal, has been elected in the Rotham division of Yorkshire unopposed. The testimony of Speaker Wadsworth and Majority Leader Merritt of the assembly, showing Allds' part in killing a bill favored by the bridge companies last year.

EDWARD ON PEACE MORRIS--HURD

Says Happiness and Progress of All Nations Depend on It.

London, March 2.—At a reception yesterday to the Archbishops of York and Canterbury and the members of the convocation of each diocese, King Edward made some noteworthy comments on peace. Replying to an address of the convocations of Canterbury, his majesty said:

"Your recognition of my efforts to maintain the peace of the world gives me pleasure. Upon peace the health, happiness and material progress of all nations depend. It is my constant prayer that our country may be spared the perils and miseries of war, which in this modern age must involve the ruin of millions."

Replying to the address of the convocation of York, the King reiterated his thankfulness for the expressed desire for peace. He continued:

"I join with you in my thanks to God for the maintenance of good faith and unity between the great powers and that concord in Christendom is unbroken and that rarely in history has the idea of war been more repulsive or the desire for peace more widely cherished, throughout my empire."

The convocations of York and Canterbury consisting of the bishops and clergy, govern the Church of England.

The convocations consist of two houses. The upper chamber is formed of the archbishops and bishops. The second house is made up of the deans of cathedrals, the archdeacons with proctors elected from every bishop's chapter and two more elected by the clergy of every diocese in the province of Canterbury, and by every archdeaconry in the province of York.

With the advent of every new parliament there is a fresh election.

CHILDREN'S CHEST TROUBLES

NURSE CARRINGTON SAYS HER LONG EXPERIENCE PROVES THE SAFEST REMEDY IS TO RUB ON NERVILINE!

Every mother knows how difficult it is to get a young child to take a cough medicine. The child is usually given in large doses, and the result is to completely upset the stomach and make the child sick.

Speaking of the prompt cure for chest troubles and children's colds, Nurse Carrington says: "In all my experience in nursing I haven't met any preparation so dependable as Nerviline. It is the ideal remedy. Every drop you rub on is absorbed quickly, sinks through the pores to the congested muscles, eases, relieves, and cures quickly. Especially for chest colds, pain in the side, stiff neck, earache, toothache, I have found Nerviline invaluable. In treating the minor ills of children Nerviline has no equal. I think Nerviline should be in every home."

A million bottles of Nerviline used every year—this is itself a burden of proof that it is the ideal liniment for children's troubles. The Nerviline is sold everywhere, and the result is to completely upset the stomach and make the child sick.
