

COMPENSATION OF WORKMEN

Canadian Mining Institute Recommends that Government Place Act in the Hands of a Commission

TORONTO, Ont., March 8.—A resolution of recommendation to the Dominion government... The workmen's compensation act is placed in the hands of the commission appointed by the crown...

Consideration was also recommended of the principles of the workmen's compensation act of the state of Washington, also the New Zealand act, with the Russian schedule of payments and the Norwegian classification.

Dr. A. E. Barlow of Montreal succeeds Dr. Frank Adams as president of the institute. The new president was formerly chief geologist of the geological survey of the Federal government.

SEATTLE ELECTIONS

Review of Tuesday's Results—Single Tax Disposed of For Time Being

SEATTLE, March 8.—The election of Tuesday was anything but revolutionary in its results. Of the eight men elected to office, only three, the mayor, comptroller and one councillor, are new men.

The official count increases Mayor-elect George W. Cotterill's majority to 804, and gives the high man of the Socialist ticket, E. L. Brown, defeated candidate for corporation counsel, 27,217 votes.

The proposal to extend until January, 1913, the time during which saloons shall be permitted to occupy down town corners was defeated. There are only seven saloons left in Seattle and these must retire to less conspicuous places before the first day of 1912.

STORY OF JOURNEY TO SOUTH POLE

Captain Amundsen Tells of How He Won His Way Through Difficulties and Hardships to Goal

HOBART, Tasmania, March 9.—"On the 10th of February, 1911, we commenced to work our way toward the South. From that day to the 11th of April, we established three depots, which all contained a quantity of provisions of about 3,000 kilos, 1,600 kilos, including 1,100 kilos of seal meat, we cached in 10 degrees, 700 kilos in 81 degrees and 800 kilos in 82 degrees south latitude.

VERY STEEP GLACIERS

The next day we began to climb. The first part of it was an easy task—light slopes and well-filled mountain sides.

"The next day we began to climb. The first part of it was an easy task—light slopes and well-filled mountain sides. It did take a long time, but our willing dogs worked like slaves. Further up we met with some very steep glaciers. Here we had to harness twenty dogs to each sledge and take the four sledges in two turns.

SANITARY CONDITIONS

"The sanitary conditions were of the best all the winter, and when the sun returned on the 24th of August, it met the men sound in mind and body to set about the task that had to be solved.
