This store news is as good as a personal letter to the housekeepers of Toronto and vicinity. The merest suggestion must answer where so many bargains are represented, but the crowds come whether or no, and in many cases goods are closed out before noon. Those who can't get to the store can shop by mail and get exactly what they send for, providing orders for these things are received Friday morning. We print the news a day ahead so as to give everybody a fair chance, but where quantities are limited late shoppers are apt to be disappointed. Let the breakfast dishes wait if you want first choice of these bargains to-morrow:

LET THE CONSUMERS' ORGANIZE

The World is more than surprised at as was given by Mr. Justice Ferguson against the Consumers' Gas Company of this city. It is the greatest victory achieved for many a day in the way of freeing municipalities from the dicand yet the special committee appointed to consider it, or rather some membnortance of this decision. Men like McMurrich and Ald. Scott stood to argue the case of the monopolists as against the thousands of consumers this city who feel and know that in this city who feel and know that they are paying from thirty to fifty per cent. more than they ought to pay for their gas, and who know that they went further than the directors of the

Do Ald. Scott and McMurrich know should do? Do they realize afically by this same company for years to come if advantage is not now taken of the decision of the court.

To-day, as the case stands, the court has declared that they have been robbed, and tat the company are good for the money, and in the face of this judgment Ald. Scott and Ald. AN AUDACIOUS EREACH OF TRUST.

In order that the public may rightly appreciate the breach of trust of which Aid. McMurrich and Scott were yesterday convicted out of their own mouths, it will be well to repeat some of the findings of Mr. Justice Ferguson in the case against the Consumers' Gas.

12. This court doth further declare that it was ultra vires of the defendant company to write off sums of money

from profits for depreciation in plant, and doth order and adjudge the same accordingly.

13, This court doth further declare that the plaintiffs are entitled to an account from the defendant company of their dealings with the moneys received by them for premiums from sale of stock and in their business from all sources whatever, and their disposition thereof, from the 23rd day of April, A.D. 1887, down to the date hereof.

disposition thereof. From the 2srd day of April, A.D. 1887, down to the date hereof.

The accounting referred to in paragraph 13 is to extend over a period of eight years. The misappropriation eight years. The misappropriation against the company has been a nuisance to Rosedale residents the past few days. One of the young men, William McCracken, convicted of vagrancy, was yesterday fined \$1 and costs or 30 days. eight years. The misappropriation proven against the company has been going on every year since 1887. What the individual gas consumer is legally entitled to recover against the company is a certain percentage of every bill paid by him since that year. This percentage varies from a small amount the first year up to 30 or 40 per cent. for 1895. In the aggregate it is an idea of the significance of this verice is guaranteed to be the best material and properly adjusted to prevent the waste of gas. we will refer to a single item waste of gas.

in a single year. According to the last annual report of the company, adopted on Oct. 28 last, \$50,000 was written off for alleged depreciation of plant. creased the price by ten cents per thousand feet. This is a single item of a single year. When it is considered misappropriated and that the thing has been going on for eight years, it will be quite apparent that the company is indebted to consumers to the extent of several hundreds of thousands of dollars. Furthermore, the company has wilfully disregarded the Act, and the directors have made the selection, and the company could be company has wilfully disregarded the company could be company has been going on for eight years, it was a subject of the court places in the hands of the court places in the hands of the city a lever by means of which it can itself acquire the franchise and handle it at as big a profit as now is derived from the Street Railway Company.

their positions as representatives of the people do allow the city auditor to examine their books and to report on the disposal of their funds, the city auditor, Mr. Hughes, has invariably and annually reported that a misappropriation had taken place. And backing up this argument The World has for years contended that some action should be taken by the city, but to no purpose. At last a private citizen, in his capacity as a consumer of gas, brought the company into court, and has vindicated the contention of the auditor, namely, that large sums of money which ought to have been gas had been misappropriated for the benefit of the company and their shareholders.

There is only one thing now to do, and that is for the consumers of gas in this city, and we believe there are ever is,000, to organize and compet the company to do them justice. Not only to reduce the price of gas in the furture, but to compel a restitution of what has been wrongfully taken from them in the past. No act of the City Council can deprive them of their positions as representatives of the people. Let them do it at once, do the people. Let them do it at once, do the people. Let them do it at once, do the people. If he best the substitutes of the people had how further he solve the better. If Ald McMurrich, in his private capacity, found himself the winner in a law suit, would he forego his right to collect his verdict? We think not. However, that would be his own concern, whether he collected his verdict? We think not. However, that would be his own concern, whether he collected his verdict? Putting forth the advantages their company have to looker, the would be his own concern, whether he collected his verdict? London, Nov. 13.—The trial of Jabez Spencer Balfour, accused of frauds in connection with the Liberator Building and Loan Society and other such organizations, was resumed this morning with the opening for the defence, Balfour's lawyer making an ingenious attempt to mitigate the effect of his client's absconding to South America. On behalf of Balfour, he made an apology for the defendant's having left the country. It was a very foolish move, but he only did so upon the advice of prominent city financiers. Balfour, he said, was now a broken and ruined man, deserving of sympathy rather than condemnation.
