ST. VITUS DANCE IN YOUNG CHILDREN

A Striking Example of its Cure By the Tonic Treatment.

St. Vitus dance is the commonest form of nervous trouble that afflicts young children, because of the great demand made on the body by growth and development, and there is an added strain caused by study. It is when these demands become so great that they imperish the blood, and the nerves fail to receive their full supply of nourishment, that the nervous debility which leads to St. Vitus dance begins.

The remarkable success of Dr. Williams' Pink Pills in curing St. Vitus dance should lead parents to give this great blood-building medicine to their children at the first signs of the approach of the disease. Pallor, listlessness, inattention, restlessness irritability are all symptoms which early show that the blood and nerves are failing to meet the demand upon them. Here is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Mrs. J. W. Towns, Oshawa, Ont., says:—"At the age of eleven my daughter was attacked with St. Vitus dance, and despite all we did for her the trouble grew rapidly worse. Soon she was scarcely able to walk, her body and limbs jerked and trembled so, and she was quite unable to feed herself. When she would lie down she would be unable to rise without assistance. As nothing was helping her I wrote a friend whose daughter had been similarly affected, and she advised the use of Dr. Williams' Pink Pills, which had cured her child. I at once got a supply of the Pills, and even the use of the first box seemed to show an improvement. By the time five boxes were used she was completely cured and has had no return of the trouble since." Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
