

ENGLISH NEWS.

LATER FROM EUROPE.

By the Packet Ship *George Washington*, Capt. H. Aldridge, we have Liverpool papers of the 24th ult.

Marshal Soult has been toasted and feasted most magnificently in Manchester and Liverpool. He has been heard to declare that the English, having been unable to take away his life in the field, seemed determined to kill him with kindness. The Marshal visited the Mersey Bridge.

The Duke of Wellington was to give Marshal Soult and some of the other Ambassadors a grand farewell dinner on the 28th ult.

The Queen had presented to each of the young ladies who bore her train, a superb diamond ring surrounded with turquoises.

The Dublin Mail says that Sir Edward Blakeney is to succeed Sir John Colborne in Canada.

The wheat crop in Great Britain, it is now generally admitted, has improved and to an extent hardly credible. Many say there will be an abundant harvest.

"The Muffs"—It is reported that the mails for Halifax, in future to be sent by Steamboats. It is said the Great Western is to bring out the next mail.—*Falmouth Paper*.

Letter from Jamaica.—The ship John W. Cater, Capt. Mead, arrived yesterday from Kingston, with dates to the 10th ult. Her arrival was looked for with some interest by the owners of estates in that island, and by the public generally, as it was feared the abolition of slavery there on the 1st of August would have been attended with serious consequences. We do not perceive, however, on looking over the papers, that these apprehensions have been realized. The paragraphs on this subject in the Jamaica Dispatch, printed at Kingston, are expressed in very general terms, such as that "Lord Sligo's negroes have struck work," "Rushy Park and the big negroes, in St. Dorothy, have struck work, and behaved in the most outrageous manner," and that the proprietors "on Mr. Townsend's property in Clarendon have determined to leave the estate," &c., all of which amounts to this, that the negroes want better wages and have "struck work."

The news from the Windward Islands is summed up by the Dispatch as follows:

"We are in receipt of files of Windward Islands papers. The accounts from Barbados are by no means favorable. Although that island is more advantageously situated than Jamaica, still cultivation has received a serious check. The newly freed blacks are flocking to Bridgetown, and the wandering and idle habits they have already manifested lead to the anticipation of evil. The labour on many estates had behaved so ill, that the Governor found it necessary to make a tour for the purpose of addressing the negroes in person. By the way, we may here remark that the conduct of the Governors of the other islands forms a striking contrast to the line of policy pursued by Sir Lionel Smith in Jamaica. In Barbados and other islands, the proclamations and addresses exhibit a degree of intelligence, shrewdness, containing as they do, sound and wholesome advice, that totally eclipse the productions emanating from our Government, that are only worthy the mediocre talent of a news and ordinary mind.

In some of the other Colonies, the rate of wages fixed on is as follows:—1st class, 8d. per day; 2d. 5d.; and 3d. with the following allowance:—the use of their houses rent free, and medical attendance; 1st class, half an acre of land, 2d and 3d classes, quarter of acre.

A most daring attack was made on Monday evening last by eight or nine heroes upon some cloaks and umbrellas which had been left in a boat at Hobbs's wharf by the ladies of the family of Capt. Owen, of Campbell.

The brave, by the most wonderful exertion of heroic valor, succeeded in subduing one man who was in the boat, and then proceeded to consummate their triumph by dipping the garments in a bucket of tar.

While we deeply regret the outrage, we must admire the bravery of the persons engaged in it. The boat having, as is supposed, judiciously heeled as the heroes entered it, they with admirable presence of mind threw stones into it in such a way as effectually to prevent any further resistance on its part.

A meeting of the citizens was held yesterday afternoon, and it was voted to request the selectmen to offer a reward of \$100 for the discovery of the persons or persons engaged in this disgraceful act—and also pay the owner of the boat Mr. Lawler, for the damage which his boat sustained.

We hope and know that every citizen who has any, the slightest regard for the reputation of the town, will use every exertion to bring the miserable dastards who committed this outrage for the punishment which they deserve.

N. A. BOUNDARY.
We understand that the following gentlemen were on Monday last appointed by the Executive Commissioners to survey the Boundary line under the Resolve of last winter: JOHN G. DEANE, of Portland, Myron P. Norton, of Canada, James Lusk, of Gorham.

They will take immediate measures to execute the Resolve.

They are notified to attend at Bangor and prepare to proceed to the duty assigned them. The persons selected are well acquainted with the whole boundary question. They are all practical surveyors. Mr. Deane is probably more familiar with the subject than any other man in the State, having made the great report in 1828, which has been the text book of all subsequent reports. Mr.

Norton and Gen. Irish have both been Land Agents of the State.

The appointment is made in obedience to a resolution of the last Legislature, which required the Governor, to proceed to run the line on his own authority, if the President did not do it before the 1st of September. That time has arrived, and the President has done nothing about it, though authorized by Congress at the session before the last. Gov. Kent has therefore promptly complied with the resolution of the Legislature, and the Commissioners will forthwith proceed to their duty as soon as the necessary preparation can be made.

1000 STANDS OF ARMS—1000 stands of arms with the other necessary equipments arrived in this city on Saturday by the schooner Wave from Portland, for the purpose of arming forthwith the Lincoln Frontier Regiment. We venture to say that a more effective regiment of troops for active service cannot be found in the Union. The arms are from the State Arsenal at Portland.—*Bangor Whig*.

The federalists are mighty still about the Boundary. The official paper (*The Democrat*) does not answer our enquiry, whether the Commissioners are to be put on the Disputed or the Undisputed portion of the line. What a precious piece of humbuggery! We hit the right nail on the head, and deleted Gov. Kent's plan of getting up a hurrah by running an undisputed line. What a grovelling class-trap administration, this State is saddled with!

Thank God, its days are about numbered.—*Frontier Journal*.

The *New York Herald*, in speaking of the North Eastern Boundary question, remarks that it is a most extraordinary thing, and we fully agree with him says the Montreal Courier, that man elected by the people to places of trust and power, should so far forget the duties which they owe to that people, as to commit acts in open violation of their oath, the laws of the General Government, and in defiance of every rule of common sense. Of such a nature, however, is the conduct of Mr. Kent, the Governor of Maine, in his recent crazy undertaking to run the North Eastern Boundary Line.

Cold Water for Children.—Coming as we know it does, from a physician of standing in this city, we have no hesitation in publishing this unexcused communication:

During the prevalence of this hot weather there is nothing so grateful to infants as cold water; these little creatures suffer equally with adults from thirst, especially at night; yet strange to say the mother either neglects or fears to offer cold water. In my practice, in several instances I have been called to see children labouring under fever, from the effects of thirst and upon giving cold water had the pleasure of seeing the child recover in a very short time, a free preparation following the use of this natural remedy.—Real thirst cannot be allayed by any thing as well as by water; when a child is feverish at night, it will in a majority of cases be cured by freely sponging its face and limbs with tepid water, and allowing it to drink cold water.

Patients who have sickly children (if any age) try this plan; if it does no good it will produce none; but I am certain it will at least much suffering by a very simple and grateful remedy.—*N. Y. Com. Adv. Aug. 21*.
Mr. LEVER.—We regret to announce the sudden death of Mr. Lever, the publisher of the American edition of the English Magazine and Reviews. He was a man of liberal views, of active enterprise, and opportunities of observation well employed. Mr. Lever was one of the original proprietors of the London Magazine, and we believe of the *Sphinx* newspaper, and the *Original Magazine*. During his residence in this country he has been employed in the publication of the English Magazine, and had reduced his business with the aid of steam presses and steam navigation, to a well ordered system, that the public have received these periodicals with a month of their original appearance in Great Britain. Mr. Lever died suddenly on Tuesday evening, at Hampton, near Malborough, in this State. He will be kindly remembered by numerous friends.—*N. Y. Courier*.

THE CANADAS.

Montreal, August 20.

Our Races commenced to-day, attended by the Governor General, His Excellency's gorgeous suite, and consequently all and divers persons in authority and out of authority.—an immense assembly—one foule rafale. The contests were for the trial stakes; the Terf-Club purse; and the garrison plate.

This being appointed as the day on which His Excellency's splendid Cup, valued at one hundred sovereigns, should be run for, was of course the most attractive and fashionable day. The road from Griffin-Town to the Race-Course at St. Pierre, was one continuous line of vehicles of every description, from His Excellency's equipage down to the humble chariot.

His Excellency, with the young Viscount Lambton, and attended by the same suite as on Monday, reached the Course shortly after one o'clock.

The first race appointed for the day was for the GOVERNOR GENERAL'S CUP.

Given by His Excellency the Earl of Durham of 100 sovereigns; 10 dollars entrance; to be run for by horses, bona fide the property of Her Majesty's subjects residing in the Canadas, and to have been in their possession a month previous to the races. Horses handicapped by the stewards. Ten horses to start or no race. Gentlemen riders. The winner to be sold for 100 sovereigns, if claimed two hours after the race.

Only twelve of the horses were placed.—On starting Flying-Children took the lead, closely followed by Rival and Midas. Indeed, throughout the race Children and Rival were neck and neck. Having reached the distance point the latter were clearly and easily passed by Midas, whose rider from

the beginning had evidently restrained his horse. The race was won by him by half a length. Rival came in second, and Children third. The whole of this race was one of great interest, and, until passing the distance post, all horses in sight have been covered with a sheet.

The second race was for

THE FAVORITE PURSE.
This was also a well-contested race. At starting Henrietta took the lead till nearly half round the course, when she was overtaken by Black Prince; but after a neck and neck race of a few lengths, the Prince again fell behind. The contest was now between Sir Charles and Henrietta, but it was evident from the commencement that Mr. Baird's horse was far superior, and the ease with which he ultimately won the race fully proved the blood he possessed. In justice to the rider of Henrietta, we must say, he did all a good jockey could to save the credit of his horse, and reached the goal second, Black Prince third, the Queen next, and the Nun last.

The second heat was much the same. Black Prince at first took the lead, but was quickly passed by Henrietta and Sir Charles, and the latter again won with ease by three or four lengths; the Nun coming in second, Henrietta third, and the Black Prince last.

THE LADIES' PURSE.
This was the last race for the day. Silk Stockings won the first heat, after which His Excellency the Governor General and suite quitted the course and returned to town, taking with him the most of the fashionable.

The second heat ended as the first day, by Silk Stockings winning the race.

Montreal, August 23.
Mr. EDWARD ELLICE, M. P. accompanied by Mrs. ELLICE, and Miss BALFOUR left this city yesterday, for a tour in the United States, which will occupy about a month, in the course of which they will visit New York, Boston, &c. and return by the Falls of Niagara.

Quebec August 24.
A great many reports have been current in town for some days past about instructions received from England, relating to political offenders. We believe they are merely conjectures, and that the system adopted by the local government will be adhered to. Sutherland, now in confinement here, it is said, will be discharged in consequence of some defect in the proceedings against him, and Theller will be sent to England. We observe that the system of discharge on security for good behavior, and on condition of voluntary exile, has been acted upon in Upper Canada, after the receipt of the latest despatches from England.

The Brigade of Guards quartered in this city, were reviewed on Adams' Plains this forenoon by His Excellency Sir GEORGE CAMPBELL, Lt. Governor of Nova Scotia accompanied by His Excellency Sir CHAS. A. FITZROY, Lt. Governor of Prince Edward Island. His Excellency the Governor General was prevented from being present. A great many strangers from the United States attended.

NAVY.—H. M. S. *Inconstant*, with Admiral Sir Charles Page on board, sailed this morning for Bermuda. After leaving the Admiral at that place, she will return to Quebec.

H. M. S. *Patrol* accompanied the *Inconstant* down the river.

It is said that H. M. steam ship *Midas*, with her crew, the Lieutenant Governor of Nova Scotia and Prince Edward Island will sail to-morrow.

In a reply made by the Earl of Durham to an address presented to him at William Henry on the 15th of August, His Excellency uses the following words:—
"I have not undertaken the fulfilment of these duties to which you refer, without a full knowledge of the difficulties which would beset me in every quarter. I am prepared to encounter them all without flinching—nor will I voluntarily relinquish the task I have imposed on myself, until I have had an opportunity of proposing to Her Majesty's Ministers and the Imperial Parliament such permanent arrangements, as will provide for the maintenance of public tranquility, and for the due protection of the just rights and interests of all classes of Her Majesty's subjects in the North American Colonies."

"Two or three officers who were at St. Charles and St. John, at the time of the murder of Lieut. Weir and Quartrapp, have arrived from Upper Canada to give evidence against the murderers."

"I believe the following are the names of the prisoners that are to take their trials for the murder of Lieut. Weir and Chartrapp."

"Francis Jalbert, Jean Bte. L'Hussier and Francois Mignault—Lieut. Weir.
"Francis Nicolas, Amable Donais, Gid. Bon Proulx and Joseph Proulx—Chartrapp."

FURIOUS DRIVING AND LOSS OF LIFE.
On Saturday last a party of our townsmen, with their wives and families, crossed the river and proceeded some distance up the country, in three waggon, on a pleasure excursion, and on returning homeward they hit upon the rash and dangerous experiment of urging forward the horses at their full speed in order to gain a small sum of money which was offered to the driver who should first reach the Ferry landing, by which means the foremost waggon upset, and the next in succession, coming in collision with it, the inmates of both were thrown with great violence to the ground. Several of the persons male and female, were more or less bruised, and we regret to say, that Mr. John Mc. Lauchlan was so much injured from the effects of the fall, that he survived but a few hours after the accident occurred. Mr. M.L. was a respectable inhabitant of this town, and his sudden and lamentable death, has left a widow and three children, an aged father and mother, and a numerous circle of relatives to lament their loss.—*Royal Gazette*.

Fredericton September 5.
His Excellency the Lieutenant Governor, Sir, and Lieut. Col. Hayne, arrived here last evening in the Steamer *Fredericton* from St. John, having been absent from Head Quarters nearly a fortnight, on a tour through the Northern and Southern Counties of the Province. His Excellency appears to be in good health, after the fatigues incident to a long and circuitous journey over land.

An Act to prevent divers misdemeanors in idle and disorderly persons.

WHEREAS the unlawful cutting or taking away of corn and grain growing, robbing of orchards, gardens and other plantations, digging up, taking away or injuring fruit trees, breaking of pales or other fences, cutting or spoiling of woods or underwoods standing or growing, and such like offences, are now more commonly committed than in former times, and the said offences are great causes of the maintaining of idleness, and the persons who commit the same are for the most part unable to make satisfaction, for remedy whereof,

1. Be it enacted, That all and every person and persons, who, from and after the passing of this Act, shall cut and unlawfully take away any corn or grain of any kind whatsoever, growing, or shall rob any orchards, gardens or other plantations of the fruit, vegetables, or other thing therein growing, or in the night shall enter into any garden or other enclosure, with intent to rob the same, or break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

2. And be it further enacted, That all and every person and persons, who shall break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

3. And be it further enacted, That all and every person and persons, who shall break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

4. And be it further enacted, That all and every person and persons, who shall break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

5. And be it further enacted, That all and every person and persons, who shall break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

6. And be it further enacted, That all and every person and persons, who shall break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

7. And be it further enacted, That all and every person and persons, who shall break or cut any hedge, pales, rails, or fence, or shall wantonly throw down the same, or cut up, destroy, or take away any logs, rails, or other materials prepared for erecting any fence, and their procurer and procurers, receiver and receivers, knowing the same, being thereof lawfully convicted by the testimony of one sufficient witness upon oath before any one of Her Majesty's Justices of the Peace in and for the County, where the offence shall be committed, or the offender apprehended, shall forfeit and pay such sum not exceeding five pounds, and within such time as such Justice shall order and appoint, together with costs of prosecution, one moiety thereof to the party complaining and prosecuting the same to affect, and the other moiety to the Overseers of the poor, where the conviction shall be had.

The London Gazette of July 20 contains the naval and military promotions conferred on occasion of Her Majesty's coronation, and in the list we are happy to observe the name

of our respected Lieutenant Governor, whose address in future will be "Major-General Sir John Harvey, K. C. B. K. C. H. &c. &c. &c."

It is stated positively that Sir Edward Blakeney, Commander of the Forces in Ireland, is to succeed Sir John Colborne in Canada.

The Queen graced the Ascot Heath course by her presence at the July Races, attended by a host of the nobility and fashionables beyond all precedent; indeed the gorgeous descriptions of these splendid exhibitions would be pallid and repulsive if it were not for the occasional outburst of those fine traits of feeling and nature for which her Majesty is remarkable. The short but comprehensive speech she made after her mother to the library of London—her determined respect to the Countess of Sutherland at the civic feast—her attention to the feeble approach of Lord Rolle at the coronation, and a thousand fleeting graces that fill the public eye—all conspire to encircle the youthful monarch with the purest affections of her people. At Ascot her Majesty in some measure relieved from court formality entered fully into the pleasures of the scene, and evinced great powers of discrimination as well as a disposition to improve every little incident of the day to the happiness of all around her.

A LAUNCH is one of those interesting spectacles that is sure to attract "high and low, rich and poor, young and old," and when the position is favorable for a view, and the weather fine, it always presents a scene sufficiently interesting and happy to make up for some of the saddest moments of life.—Such a scene was exhibited here on Thursday last at the launch of a fine bark built by our enterprising townsman Mr. JOHN A. BAY, for himself. Every thing was prepared with admirable regularity and precision, and at the required moment the vessel moved on the water as if conducted by the most perfect machinery, and received the salute of "God Save the Queen" from the people, the strains of music from a band on board. The bark has the reputation of being swifdly as well as elegantly constructed and weighs 253 tons by the old and 225 tons by the new mode of measurement.

Somebody in Saint Stephen is charged by the *Frontier Journal* with attempting to bribe an elector of Calais in favour of the federalists—that is in favour of this or that a Brian party. We think he might have been better employed than in thus affording an opportunity for Mr. Washburn to magnify the simple matter into a national interference. What does not read the American papers could imagine that the isolated act would be announced in the world on the following glaring note:—**BRITISH PROVINCIAL INTERFERENCE!** But this characteristic of our newspapers may be traced to all their political positions, and lots of it found at every stage of the Boundary-time question. Geo. Jonathan once held of the most spectacular humour, and it is to his advantage he will harp and cap and talk and rant and repeat it till he and all around him believe it.

In the "second Series" of the redoubtable SAM SLICK there is an article on Elections, which, added to the most irresistible humour, possesses more true politics, sagacity, solid information, and correct views on the subject it discourses than we should expect to find condensed into such limits. The wit is redundant and only equalled by the sage aphorisms which spring out of the subject, rendering the humour more racy and the satire more pungent. Sam is an enemy to organic changes, and combats imprudent innovations with great success. We have not room for this rich article, but must give the last sentence:

No, quire, said the Clockmaker, you have laws regulating old clock doctors, but none a regulating of clock politicians; now a clock doctor is bad enough, and dangerous enough, gracious knows, but a clock politician is a devil outlanded,—that is a fact.

An audacious outrage was committed at Esport on Monday last, which we take notice merely to keep it in its right place. National feeling and "sympathizing" had nothing to do with it. Self interest, the most powerful incentive and moving power with uncle Ben was at the bottom of it. The Skipjack has been watching the movements of the "critters" and took a degrading schooner on its own hook. Capt. Owen, Capt. Moses and others held meetings at Campo Bello, Indian Island and Grand Manan to petition Government against all Yankee aggression of our Fisheries—it is even said that these meetings were held under the protection of Col. Hatch and the brave 4th Battalion, C. C. Militia, but we only mention this to show how prone the Americans are to give importance to every little passing event—hence we must discard the report of Major Halibut having delivered himself of a cuckoo harangue on each of these occasions. The outrage alluded to was "a kind of retaliation" for the step put to Yankee aggression; but the expression of the sentiments of "the Gentlemen" of Esport does then much credit and disarms us of any serious complaint. See our extract from the Esport Sentinel in another column.

The skeleton of a Man covered in Crawford Cove jaw and skull bones of a man, the only one of the kind in this country, is given of this quadrilateral that the length of the covered is 3 ft. 3 inches, eyes 26 inches; weight 220 pounds; thigh bone 23 inches, and a chest. Human remains of the Mesodot instance of the many discoveries of the fossil evidence that it is the forest the monster.

For two or three years of talk has been kept a expedition fitted out. Repeated appointments the squadron have been either been resigned or Wilkes was chosen. On board the U. S. Albatross and is attended by a schooner. The square week.

It will be seen elsewhere appointed surveyor line. They will proceed with and continue under Government, or I vidual authority.
