TORONTO.

GRAIN AND PRODUCE.

The past week opened with a fairly active demand in grain generally. Wheat held steady but showed no disposition to advance as the week wore on. Oats have remained weak although they have not declined from the figures of the previous week. Barley remained in an unsettled state, with quite a noticeable scarcity of the higher grades. Flour has continued weak, and has declined considerably during the week. Wednesday's quotations were as follows: Wheat, No. 1 fall 98c, No. 2 fall 93c; No. 3, 90c; No. 1, spring sold \$1.02; No. 2, \$1.01. Oats sold in car lots at 40c and on the street at 42c. Barley sold, No. 1, 78c; No. 2, 74c; No. 3 extra, 65c; No. 3, 57c to 58c. Flour sold, Superior Extra at \$4.50. Butter was reasonably firm and sold, choice dairy 19c to 21c; pound lots of medium, 17c to 18c. Eggs were scarce and sold at 25c. Bacon was rather scarce and sold at 13c to 13½c for long clear, and 12c to 12½c for Cumberland. Hams sold in small lots at 14½c to 15c.

STOCKS.

With the opening of last week the wild rumors of bank irregularities had somewhat subsided, and the refusal of bankers generally to advance on stocks had become an accepted state of affairs with brokers generally. Still a great amount of uncertainty was felt, and many looked forward to circumstances developing that would re-awake excitement. The feeling towards the middle of the week was one of greater confidence, although it was evident that the tightness of money had a depressing effect. The market on Wednesday opened moderately firm, and remained so during the day. Quotations were, Montreal 206 and 205, sales at 206; Ontario 118½ and 117½, sales at 118 and 118½; Toronto 174½ and 173½, sales at 174½; Merchants 126 and 124; Commerce 133½ and 133, sales 133½; Imperial 139 and 137½, sales 137; Federal 157 and 156, sales at 155; Dominion 200 and 200½, sales at 200 and 200½; Standard 114 and 113½; Hamilton 113; British America offered at 130.

WINNIPEG MONEY MARKET.

There has been no change in the state of the money market of this city during the week and the scarcity of funds is still felt. It was thought that by this time the excitement in bank stocks in the East would have been so thoroughly subsided that an easier feeling would have been general here. Such is not the case, however, and the feeling of uncertainty which prevails east has quite an effect upon matters in the North-west. There are no new local causes to which the stringency can be attributed, and perfect confidence prevails in commercial circles. Although banks are not prepared as a rule to make advances in any special business, but confine themselves to regular accounts. Real estate mortgage loans are not being made so freely as a few weeks ago, but money is not difficult to obtain on first class investments. Loans of that class have been made during the week at nine to ten per cent. First class commercial paper is still good at eight to ten per cent., and ordinary

at ten to twelve. The banks, however, are very careful in their selection.

The defence endeavored to show, that the plaintiff ought to have applied to Gen. Johnson for his deed, and that one would be furnished on application there. After hearing counsel, the Court withdrew the case from the jury, and a verdict was entered for the plaintiff for \$250.25.
