His Excellency the Governor General has been pleased to appoint Joseph Amable Berthelot, Esquire, to be one of the Montreal Harbour Commissioners in the room and stead of the Honorable George Elienne Cartier, resigned.

DISCHARGED SOLDIERS.

It cannot be too generally made known that, amongst the many excellent Regulations which are now issuing from the Horse Guards, one has recently been published which permits discharged Soldiers who may re-enlist within two years of their discharge to reckon their former service towards pension. We are convinced that this will give a considerable addition to our Military strength and restore to the Army a class of men who are indispensable to its moral force—we mean the old Soldiers. They will come back more attached than ever to the Service, because they will have tasted of the hopeless struggles of a civil condition, and the heavy price which is paid in the lumber ranks of life for the liberty enjoyed. Had there been many old Soldiers with our Regiments, we should not read of the numerous desertions which take place among youths who have only just entered. The grave and steady habits of the men who have been ten years in the Service have an excellent effect in attaching Recruits to their new profession.

ENGLAND PREPARED FOR WAR.

In a leading article the Times remarks that of all nations there is none that drifts into war so easily as England. If it said outright that we were drifting into war with our great neighbour and ally, it would give needless alarm to those who thought its opinions worth a straw. A government has just been turned out by a wa. vote, an others wise popular government has been displaced, another one is put in its place for the express purpose of assuming a more manly attitude before France.

The Times is glad to see that these men at all events understand their own position, and says, "The very first thing they did on finding themselves in office was to ascertain the state of our national defences. That was the first question Lord Derby sent to the Admiralty and the War-office. Finding the answer highly gratifying, and, it must be fadded, much to the credit of the late Ministry, they took the earliest opportunity of telling the world and all whom it might concern, how well provided we were for defence and offence.

"Mr Disraeli only let out what was uppermost in his mind when he reviewed our army, militia, and navy for the benefit of his Buckinghamshire constituents. In the like spirit, and openly recognising the fact that we are nearer war now than we were a month ago—though we hope and trust still very far off—we will add that we never were so well provided with soldiers, artillery, and other equipments, with ships, guns, and sailors, since the year 1815. With 24 hours' notice we could either prevent any landing at any accessible part of our coast, or crush any force that might be landed; with a fortnight's notice we could shut off any fleet that might be assembled in the harbours of our neighbour, and it is confidently believed by some of our best authorities, steam in, and destroy everything afloat in the harbour of Cherbourg. Our new Government very wisely does not mince matters, neither shall we: the late Government tried to misce matters, and the result is they are out."

MILITARY STORES FOR NEW-BRUNSWICK.

The ship Parkfield of 493 tons, belonging to Messrs. Gilmore & Co., was chartered on the 3rd March, by the Military Store Department, for the transportation of military stores from Woolwich to this port. We presume this ship will, among other things, bring the 32 and 64 pounders, and the 8 inch guns intended for the two new batteries to be erected this season on Partridge Island. One of these batteries, with guns of 95 cwt each, will command the eastern channel; and the other, with 32 pounders and 8 inch guns, will command the western channel of this Harbour. Both batteries are to be completed as early possible the coming Summer.

NEW DEFENCES ABOUT PORTSMOUTH.

In the Army and Ordnance estimates the following items are demanded, Gosport advanced lines: Fort Gomer, £92,000; Fort Elson, £45,695; intermediate forts, £300,000. Portsmouth: Purchase of land and compensation to tenants, £3,000; Hulsea lines, £135,000; Fort Monckton, additions to auxiliary battery, £2,197.—Total £597,000.—New Brunswick.

THE MILITIA OF NEW YORK.

By the Annual Report of the Adjutant-General we learn that the military force of New York State comprises in the aggregate 16,434 officers and men, divided and subdivided into 8 Divisions, 28 Brigades and 67 Regiments. Of ordnance, arms and equipment there are,—Cannons—4 nine-pounders; 95 six-pounders and Howitzers, muskets 12,031, Rifles 2,130, Pistols 3,163, Sword and Sabres 4,238. The artillery is in good condition, but the muskets are said to be worthless. During the last year there have been expended under the direction of the Commander-in-Chief \$2,592 for Drums, Bugles and Colors \$3,600 for Tents. Twenty companies have been organized during the year, viz,—14 Infantry, 2 Rifle and 4 Artillery. The whole number of enrolled Militia in the State, according to the returns to the President of the United States is 350,000. The Report makes 268 pages, embracing a great variety of interesting information to men concerned in military affairs. Pilot
