

## HUNTERSTON

**T**HIS fine sanitary hotel, on the Netherwood Heights, overlooking Plainfield, New Jersey, erected at a cost of over \$300,000, is designed to meet the needs of delicate people requiring a mild climate and uniform temperature. Great numbers are so sensitive to damp and cold air that their lungs become irritated with the advent of autumn, and continue so as long as cold weather lasts. Persistent irritation of the breathing organs, sooner or later, produces lung disease, and must be prevented if we would avoid the perils of consumption. Thousands each winter try in vain to shield themselves from this danger by going South to a warmer climate, but past experience has abundantly proved this to be but a delusive and temporary palliation of the evil. It neither strengthens the lungs nor remedies their morbid sensitiveness, from which all the danger arises.

No natural air exists, in any climate of the globe, which prevents consumption among its own people, or has power to effect the cure of any form of lung disease in those who seek it.

Hunterston affords a perfect winter home, in which those having delicate lungs and great susceptibility to colds can spend the autumn, winter and spring months with more **safety** and **benefit** than in any natural climate of the known world. It is a massive brick structure, having broad piazzas, large, airy rooms, high ceilings and perfect ventilation, and is maintained at a uniform temperature day and night throughout the entire seasons. Four chambers are provided for those having any bronchial or pulmonary trouble, by which soothing, healing and antiseptic medicated airs are breathed and brought into direct contact with the internal surfaces of the nose, throat, larynx, air tubes and air cells of the lungs by **inhalation**. Soothing the sensitive air passages arrests irritation and prevents inflammation, while the antiseptics in the air destroy all germ life.

Hunterston is an ideal home and perfect sanitary residence. It is under experienced hotel management, and is open to all who desire to avail themselves of it as a home.

In appointments it is the acme of comfort and conveniences, and provision is made for amusements, games, and every kind of health-giving exercise.

It affords a splendid view of the surrounding scenery, including the Orange Mountains, which are covered with forests and traversed by magnificent macadamized roads. Its situation is high; the climate dry and invigorating, and absolutely free from all malarial tendencies. It is supplied with the **purest** of crystal water from its own Artesian well, two hundred and eighty feet in depth.

The medical experts of the establishment will see that all sanitary requirements are maintained, but have nothing to do with the guests of the Hotel except as their services may be required.

Those who desire admission to Hunterston as patients will apply for examination to Dr. Robert Hunter, 117 West 45th Street, New York, or Dr. E. W. Hunter, Venetian Building, Chicago, Ill. Hotel guests desiring rooms as a sanitary residence will apply, personally or by letter, to W. Hunter Bremner, Manager, "Hunterston," Netherwood, N. J.

The cost of treatment, in lung cases, is \$25 a month. No objectionable cases of any kind are received. Board and hotel charges are moderate, and governed by the rooms required. All the rooms are large and airy, and many of them have private baths and closets.

Hunterston is but 45 minutes from the foot of Liberty Street, New York, 90 minutes from Philadelphia, and 3 minutes from the Netherwood Station of the New Jersey Central Railway.
