THE HIGH SCHOOL
Drawing Course.

Authorized by the Minister of Education.

No. 5 "Industrial Design"
 IS NOW READY.

This subject, Industrial Design, is now or the
 first time placed in the High School Drawing
 Course; and this authorized book is the one upon
 which the examinations will be based. It is the most
 elaborate and beautiful book of the course, and if
 published separately would sell at double the price
 of the other numbers. It will, however, be offered
 to the student at the same price as the others, 20cts.
 The course is now complete:—

- No. 1—Freehand.
- No. 2—Practical Geometry.
- No. 3—Linear Perspective.
- No. 4—Object Drawing.
- No. 5—Industrial Design.

These books are all uniform in size and style, and
 constitute a complete uniform series. The same plan
 is followed through them all—the Text, the Prob-
 lems, and opposite the Problems, in each case, the
 Exercises based upon them. The illustration is
 upon the same page with its own matter, and with
 the exercise, in every case, is a space for the student's
 work. Each copy, therefore, is a complete Text-
 book on its subject, and a Drawing Book as well, the
 paper on which the books are printed being first-
 class drawing paper. The student using these books,
 therefore, is not obliged to purchase and take care of
 a drawing book also. Moreover, Nos. 1, 4 and 5 are
 the only books on their subjects authorized by the
 Department. Therefore, if the student buys the full
 series, he will have a uniform, and not a mixed
 series covering the whole subjects of the examina-
 tions, and edited by Mr. Arthur J. Reading, one of
 the best authorities in these subjects in this country
 and recently Master in the School of Art.

The approaching Examinations will be
 based on these authorized books.
