The negro exodus from Missouri continues. There The negro exodus from Missouri continues. There is a stream of negro-emigration to the South, and another to the North, bearing away our slaves at a another to the North, bearing away our slaves at a another to the North, bearing away our slaves at a nother to the institution, and leave us entirely higgerless. On institution, and leave us entirely higgerless. On Friday there arrived in Detroit, Michigan, bound for Friday there arrived in Detroit, Michigan, bound for Ganda, twenty-six negroes all the way from Missouri, having been carried through by the agents of the Underground Railroad. The leader in this movement is said to be a man well known for his exploits and Kansas, and his connection with certain exciting in Kansas, and his connection with certain exciting events [Day's trial?] in Missouri. The slaves are decoyed from the border counties, and even from the decoyed the agents, conducted into Kansas and Ne-interior, by agents, conducted into Kansas and Ne-braska, and conveyed thence through Iowa, Illinois and Michigan to Canada.—St. Louis News.

A Lawrence (Kansas) correspondent of the New A hawrence (Mansas) correspondent of the New York Times says that recently a slave residing near independence, Missouri, who was the head of a slave family of five, learned that his master intended selling him for transportation to a more southern send he sent word to some friends in Verneral sening and he sent word to some friends in Kansas that he would give \$500 if he could be safely transported to a place where his freedom could be secured. A small company from Central Kansas started on the precarious mission, and on arriving at the mansion of the slave-owner, found a southern planter present and about completing the purchase of the negro family for \$3,500.

The Chicago Times says that one night last week a train of cars on the Joliet Out-off Railway, ran through a prairie on fire. The flames were burning fercely under the wheels of the locometive and for a long distance on either hand the earth was blackened where the flames had swept over it.

The District Attorney of Baltimore, alluding to the violence practiced by the rowdies at the late election in that city, termed it the "playful pranks of the free men."

The hog cholera has again broken out in some parts of Kentucky. In Shelby County the disease has made great havoe. Some of the farmers have lost all their hogs.

A man in New York recently bought a clock at auction for fifty cents. About a week ago he sold the clock to another man, who, after taking it home, discovered that a looking-glass in the back of the clock was broken. He took out the glass to have it replaced by a new one, when he discovered notes of the Bank of England to the amount of ten thousand dollars. It is reported that the heirs of the estate to which the clock belonged are going to commence an action for the recovery of the money. The New York Post of Saturday says, further that the value of the notes found amounts to \$15,000, being three £1,000 Bank of England notes of the reign of Queen Anne.
The lucky finder took the notes to a New York broker, who, although entertaining no doubt as to the genuineness of the notes, was afraid to eash them until he had written to the Bank of England, which he has done, and is awaiting an answer.

THE BIGOTS REBUKED IN SOUTH CAROLINA .- A SPAcious building, known as the American hotel, in Columbia, S.C., says the Catholic Standard, having been for sometime closed and publicly offered for sale, was recently purchased by the Right Rev. Dr. Lynch, Bishop of Charleston, for the purpose of a ismale seminary and convent by the Ursline Nuns.— Any one but an ignorant Carolina "cracker," or a stupid village bigot, would have supposed that this change from a bar room to a school, particularly where really good schools are needed as they are in Carolina, would have been hailed as a public benefit. Certain pions persons, it seems, thought otherwise, and convened a public meeting for the purpose of passing the following resolutions:

Resalved, That it is antagonistic to the interests of this city that a portion of the main business street should be occupied as a school of any denomination. Resolved, That, as a fair profit has been offered on the purchase of the hotel, we respectfully remonstrate against the continuance of a school in said

building.

Resolved, That, should our remonstrance be disregarded, a committee of be appointed to suggest such other means as will in their opinion carry out the

the object of this meeting.

When the meeting was organised, however, the friends of Religious Liberty proved too strong for their intolerant opponents, and the following substitute for the above, was adopted by a handsome ma- | COLLEGE OF REGIOPOLIS,

Resolved, That, it is the sense of this meeting that to laws of the land should be respected and obeyed. Resolved, That these laws secure to individuals, corporations and courches equally the rights of pro-

Resolved, That every denomination should be allowed to manage its own affairs, subject only to the laws of State and of the United States.

Resolved, That this meeting be now dissolved. In noticing the proceedings the Charleston Mercury INTOLERANCE AT COLUMBIA. - We are pleased to

perceive that the incipient signs of the spirit of iuolerance were early quenched at Columbia. We read the communication of Bishop Lynch, with pride that, that distinguished Prelate should tender such equitable terms to those who had assailed him. The Eishor's position is entirely tenable and the resointions of the public meeting do great credit to those who controlled and directed its action. The Miscellany adds:

"No sensible man imagined for a moment that the public sentiment of any community in South Carolina could be otherwise expressed; and Columbia is no exception. She may have her Beechers and Brownlees, for aught we know to the contrary; but they must grown in secret over a liberality which they dare not openly rebuke,

KENTUCKY ELECTIONERRING .- Governor Powell of Kentucky, tells a couple of good ones on himself. When on a canvass preceding his election, he stopped at a cabin on the way side, in the eastern mountains of the State, for a bit of dinner. The good bousewife served him with a better repast than he expected, tender and juicy fresh venison being one of the courses, followed by a tempting display of pastry. Cutting into one of the pies and tasting the same, his palate was entirely propitiated, and he said his compliments to the lady by way of mak-

ing inquiry:
"Madam," said be "this is a very delicious pie, but upon my word, I don't know what the fruit is in -pray tell me if you please ?" "Why, stranger, where did you come from?" de

unaded the dame in turn. "Well, I am from the lower part of the State, but 30 such fruit as that grows there. Indeed madam, am ignorant of this fruit, and beg you will inform

"Up for Governor!" exclaimed the astonished wo-

man, "and don't know huckleberries! Well I mis-trust you ain't fitted for the office!" The Governor would have relinquished the track,

but his party wouldn't let him off, and he was electd in spite of his ignorance of huckleberries.

On another occasion he stopped for supper at a abin, not so well provided as the former. The poor roman had neither sugar, ton nor coffe, and spread before him a dish of clabber, uttering a profusion of pologies and regrets that her house was so ill-pro-

"Why, madam," said he with perfect truth, "I prefer this to tea or coffee, or oven strawberries and ream; and often take it in preference on hot evenings like this, when at home. It requires no apolo-Sy, for I couldn't be better suited,"
"Now, stranger," responded the doubting lady,

are you lying just because you are a candidate or I've hearn tell them candidates is the lyingest ritters on yearth ?"

The Governor could only vindicate his truth by olding a second dish of clabber.

RAILBOAD ACCIDENT.—Cincinnati, Nov. 18th, 1859.

A terrible accident occured on the Indiana, Central Railroad near Cambridge City. A rail had been taken from the bridge for repairs, and before it could be replaced a train of eighteen cars, filled with hogs, came along at high speed, and before it could be stopped the engine and thirteen cars plunged through the bridge into the river. A. J. Smith, of Indianopolis, conducter ;-Green a brakeman, and a drover named Newby were killed. Several firemen were injured. The engineer jumped from the train and escaped. It is said that over 500 hogs were killed. The engine cars, and bridge are piled up in one horrible wreck.

A man was recently hanged in North Carolina, for a murder which he was incited to commit through a superstitious belief in witchcraft, believing that the old lady he killed had the power to conjure his wife and child to death, and while in a state of intoxica-tion he committed the deed under the erroneous notion of self-defence.

P. K.

To PERRY DAVIS & Son :-- Dear Sirs-I feel happy to add one more testimonial of the value of your Pain Killer to the thousands sent you from nearly all parts of the world. On the 8th of this month I fell from a second story doorway to the pavements, striking on my feet, and bruising them severely; also straining the ligaments of the ankles. When carried home my feet were black and swollen, and the pain so intense as to cause fainting. I immediately applied your Pain Killer, and continued to do so at intervals of about ten minutes. The second day the appearance was a greenish yellow, with little or no pain, and to-day I can walk with ease to my store. Yours Respectfully, I. SUGGITT, High st. Providence, May 12th, 1857.

The stain on linen from the use of the Pain Killer s easily removed by washing it in alcohol.

Lymans, Savage, & Co., Carter, Kerry, & Co. Lamplough & Campbell, Agents, Montreal.

CUT THIS OUT AND SAVE IT.

THE subscribers has in course of construction a number of FAMILY SEWING MACHINES, the same as Wheeler & Wilson's patent, which he intends to sell cheaper than any that have been sold heretofore in Canada. All who intend to supply themselves with a good cheap Machine, will find it to their advantage to defer their purchases for a few weeks until these Machines are completed. In price and quality they will have no parallel, as the subscriber intends to be governed by quick sates and light profits.

WAIT FOR THE BARGAINS.

E. J. NAGLE, Sewing Machine Manufacturer, 265 Notre Dame Street.

Oct. 20, 1859.

ACADEMY

# KINGSTON, C. W.

THE duties of this School will be Resumed on THURSDAY, 18th instant, at Nine o'clock A.M. For particulars, apply to the Principal, at the W. DORAN, Principal.

#### Scrofula, or King's Evil, is a constitutional disease, a corruption of the

blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, tilth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is terned tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scretulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, Sr. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PESTULES, BLOTCHES, PLAINS and BOILS, TUMORS, TETTER and Salt RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, Syphilatic and Mercurial Dis-EASES, DROPSY, DYSPUPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITEAon Impune Brood. The popular belief in " impurity of the blood" is founded in truth. for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

## Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of

their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organ-ism, correcting its diseased action, and restoring is healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae. containing certificates of their cures and directions for their use in the following complaints: Costiceness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indigestion, Paneira and Arrived Inaction of the Bearts, Flatatency, Lors of Appe-tite, Journalies, and other kindred complaints, existing from a low state of the body or obstruction

## Ayer's Cherry Pectoral.

THE RAPID CERO OF

Coughs, Colds, Influenza, Floarseness, Croup. Dronebitis, Incipient Constange tion, and for the relief of Consumptive Patients in advanced stages of the discase.

So wide is the field of its usefulness and so numerous are the cases of its cares, that almost every section of country alounds in persons public known, who have been restored from alarming when desperate diseases of the lumps by its asc. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no larger hesitate what antidote to complay for the distressing and dangerous affections of the polymonery organs that are incident to our climate. While many inferior recaries thrust upon the amounty have failed and been chearded, this has gailed friends by every trial, conferred benefits on the afflicted they can rever ferret, and pro-liced cures tee conferons and too remarkable to forgotten.

PREPARED BY

DR. J. C. AVER & CO. LOWELL, MASS.

Lyman, Savage, & Co., at Wholesale and Retail; and by all the Druggists in Montreal, and throughout Upper and Lower Canada.
