Announcement Extraordinary.

Our having commissioned so distinguished an etcher as Rajon to etch a plate expressly for THE STUDIO, has created considerable comment and speculation as to the nature of the subject. The inquiries for information continue to pour in from all over the country and abroad. The interest shown in this distinguished artist's etching has been so widespread, and as the subject will be of such great importance, to create a sensation in this country and abroad when published, we have decided to print 500 India Proofs, before the work is sold by subscription at \$5.00 each up to the day of publication, when the price will be increased. A magnificent work of art is promised. Copies of THE STUDIO, complete, with Rajon etching, 50 cents each. Books are now open to receive advance orders. Order now to secure one.

The March Studio will contain an etching of John Quincy Adams, from a portrait made in 1788. Price 20 cents. CATARRH CATARRHAL DEAFNESS A HAY FEVER NEW TREATMENT.

Sufferers are not generally aware that these diseases are contagions, & that they are due to the presence of living parasites in the lining membrane of the nose and Eustachian tubes. Microscopic research has proved this to be a fact, and the result is that a simple remedy has been formulated whereby these diseases are permanently cured in from one to three simple applications made at home. A descriptive pamphlet is sent free on receipt of stamp by A. H. DIXON & SON, 303 1/2 King Street West, Toronto Canada.

Rev. P. J. Ed. Page, Professor of Chemistry, Laval University, Quebec, says:—I have analysed the India Pale Ale manufactured by John Labatt, London, Ontario, and have found it a light ale, containing but little alcohol, of a delicious flavour, and of a very agreeable taste and superior quality, and compares with the best imported ales. I have also analysed the Porter XXX Stout, of the same Brewery, which is of excellent quality; its flavour is very agreeable; it is a tonic more energetic than the above ale, for it is a little richer in alcohol, and can be compared advantageously with any imported article."
