

that induced them to enter into competition with the long-established remedies of the motherland. And we are glad to know—indeed we believe that all Canadians will be glad to learn—that, short as is the time the Dr. Williams' Company has been in that field, their success has been rapid and ever increasing. As an instance of this success, the 'Chemist and Druggist,' the leading drug journal of the world—and probably the most conservative—in a recent issue states that the success of Dr. Williams' Pink Pills in Great Britain has been unprecedented and phenomenal. While, no doubt, it is the advertising that has brought this remedy into such rapid prominence in England, it is the merit of the preparation that keeps it there, and makes it popular with the people. There are few newspaper readers in Canada who have not read of the cures that, to say the least, border on the marvellous, brought about by the use of Dr. Williams' Pink Pills, and already we see by the English papers, that the same results are being achieved there. Is it any wonder then, that Pink Pills are popular wherever introduced? We have done business with this firm for a number of years. We have found them honorable and reliable, and worthy of credence in all that they claim for their remedy.

We cannot close this article better than by giving, in a condensed form, the particulars of a striking cure in Nottingham, England, by the use of Dr. Williams' Pink Pills. The cure is vouched for by the Nottingham Daily Express, the leading journal of the Midland Counties.

"The picturesque suburb of Old Basford, some three miles from the market-place of Nottingham, has just been the scene of an occurrence which has excited considerable attention among the local residents, and of which rumors have reached Nottingham itself. The circumstances affect Mr. Arthur Watson, of Old Basford, formerly an employee in the bleach yard at Messrs. H. Ashwell and Co.'s hosiery factory, in New Basford, and afterwards employed at the Bestwood Coal and Iron Co.'s factory, near Nottingham. In consequence of the gossip, which has been in circulation, with regard to this case, a local reporter called upon Mr. Watson, at his bright little house, situated at No. 19 Mount Pleasant, Whitmoor road, Old Basford, and made inquiries as to the curious circumstances alleged. The visitor was met by Mrs. Watson, but Mr. Watson himself immediately afterwards entered the room, looking very little like the victim of sudden paralysis. He told the story of his life's health, as follows: In boyhood he was prostrated by a severe attack of rheumatic fever, which, after his slow recovery, left behind it a permanent weakness and uncertainty of action in the heart, and he had always been debilitated and more or less feeble. On giving up his work at Messrs. Ashwell's bleach factory, he sought change of employment, and undertook the work of attending to furnaces at kilns at the Bestwood Coal and Iron Co.'s Works, being at the time an out-patient at the General Hospital, Nottingham, where he was treated for weakness of the heart. The circumstances of his work at the furnaces were somewhat peculiar. Exposed on one side to the extreme heat of the furnace, he was attacked on the other by the chilling winds which proved so distressing to many people last October, and one day in that month, he was suddenly prostrated by a stroke which had all the appearance of permanent paralysis, and was pronounced such by the doctors who attended him. The course of the stroke appears to have been down the entire right side. His leg was entirely powerless, and he was unable to stand. He could not lift his right arm from his side, or from any position in which he was placed. His face was horribly distorted, and the organs of speech completely paralyzed, so that he was able neither to stand or speak. His condition is described, by those acquainted with him, as being most piti-

able. He lay in this condition for more than three months, suffering intermittently considerable pain, but more afflicted by his utter helplessness, than by sufferings of any other kind. His wishes were indicated by signs and feeble mummings. The distortion of his face was rendered more apparent by the ghastly pallor of his features, and he lay in bed, anticipating nothing better than that death should eventually relieve him of his helplessness.

The Rev. Walter Cooper, Wesleyan Methodist minister, whose flock have their spiritual habitation in a substantial building in High street, Old Basford, took a pastor's interest in the case of this unfortunate man, and is acquainted with the circumstances from almost first to last. A week or two ago, Mr. Watson began to astonish all his neighbours by the sudden improvement in his appearance and capacity. He is able to walk about, and his right arm, which was formerly perfectly incapable of motion, is now moved almost as readily as the other, though the fingers have not yet recovered their usual delicate touch. Perhaps the most striking circumstance, however, is the great improvement in the personal aspect of the man. The deformity of features caused by the paralysis is entirely removed. His speech is restored, and the right leg, the displacement of which kept him to his bed or chair, has now recovered its functions so completely that he is about to take some out-door work in Basford and Nottingham.

Questioned as to the cause of this remarkable improvement in a case universally regarded as incurable by the medical profession, Mrs. Watson, wife of the patient, unhesitatingly attributed her husband's miraculous recovery to the use of a medicine called Dr. Williams' Pink Pills for Pale People, and brought into considerable prominence by the publication of some remarkable cures effected by their means in Canada and elsewhere. "Since I have taken Dr. Williams' Pink Pills," said Mr. Watson, "I have unquestionably been better, not only than I was before the stroke of paralysis seized me, but than I have been at any time since my boyhood," a statement confirmed by Mrs. Watson, who said the appearance of her husband now was proof of the enormous improvement in his health. "The pills," she said, "seem not only to have cured the paralysis of the face and leg, but to have effected a most remarkable change in his general health."

Mr. Watson was always remarkably pallid, and of a sickly appearance, but the ruddy glow of the patient's face confirmed Mrs. Watson's words. "I assure you," said she, "we can speak in the highest possible terms of Dr. Williams' Pink Pills. Nothing, either at the General Hospital, or from the doctors, who have attended my husband at different times, has done anything like the good which the few boxes of Dr. Williams' Pills he has taken have effected, and, under Providence, we feel he owes his life, and his restoration to work and usefulness to this wonderful medicine."

Mr. Charles Leayesly, Insurance agent, at Cowley street, Old Basford, has among other neighbours, been deeply moved by the sufferings of Mr. Watson, and profoundly impressed by his miraculous restoration to health. The case has, in fact, been a topic of conversation in the entire neighbourhood.

Attention is drawn to the circumstance that every fact in the above remarkable history, is vouched for by independent evidence, which it would be morally impossible to doubt. It is shown by conclusively attested evidence, that Dr. Williams' Pink Pills for Pale People, are not a patent medicine in the ordinary sense, but a scientific preparation, from a formula long used in regular practice. They are shown to positively and unfailingly cure all diseases arising from impoverished blood, such as pale and sallow complexion, general muscular weakness, loss of appetite, depression of spirits, anaemia, green sickness, palpi-

The importance of purifying the blood can not be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and Hood's Sarsaparilla is worthy your confidence. It is peculiar in that it strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. Give it a trial.

Hood's Sarsaparilla is sold by all druggists. Prepared by C. L. Hood & Co., Lowell, Mass.

100 Doses One Dollar

tation of the heart, shortness of breath, pain in the back, nervous headache, dizziness, loss of memory, early decay, all forms of female weakness, hysteria, paralysis, locomotor ataxy, rheumatism, sciatica, all diseases depending on vitiated humours in the blood, causing scrofula, rickets, hip-joint diseases, chronic erysipelas, catarrh, consumption of the bowels and lungs, and also invigorates the blood and system when broken down by overwork, worry, diseases. These pills are not a purgative medicine. They contain nothing that could injure the most delicate system. They act directly on the blood, supplying to the blood its life-giving qualities, by assisting it to absorb oxygen, that great supporter of all organic life. In this way the blood becoming "built up," and being supplied with its lacking constituents, becomes rich and red, nourishing the various organs, stimulates them to activity in the performance of their functions, and thus to eliminate diseases from the system.

These pills are manufactured by the Dr. Williams' Medicine Company, of 46 Holborn Viaduct, London, England, (and of Brockville, Ont., and Schenectady, N. Y.) and are sold only in boxes bearing the firm's trade mark and wrappers, at 2s. 9d. a box, or six boxes for 13s. 9d. Pamphlets free by post on application. Bear in mind that Dr. Williams' Pink Pills for Pale People are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form, is trying to defraud you, and should be avoided.

Dr. Williams' Pink Pills may be had of all chemists, or direct by post from the Dr. Williams' Medicine Co., from the above address. The price at which these pills are sold, make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

C. C. Richards and Co.

Gents, I sprained my leg so badly that I had to be driven home in a carriage. I immediately applied Minard's Liniment freely, and in 48 hours could use my leg again as well as ever.
