

Raising Money For Kids

Scott Smith receiving new bike from Lipton.

Smith on his bike in front of the Foreign Ministry.

Canadian Scott Smith — who was born with severely club-feet which were corrected after almost two years of surgery — has been cycling around the world to raise money for the Save the Children Fund.

He left Canada in August 1985 and after 17,000 km, had his bike stolen in Bangkok. Upon reaching Singapore, one of his sponsor's, Lipton donated a new one. Here Scott receives the bike from Philip Chapman of Lipton (F.E.) Pte. Ltd.

The money Scott raises is being used in the fight to eradicate polio.

From Singapore, Scott heads for Australia.

Canadian Pianist on tour

Pianist Jean-Paul Sevilla, Professor of Music at the University of Ottawa, enthralled his audience at the Jakarta Hilton in March with a program of Beethoven, Chopin, Schumann and an outstanding selection of shorter Ravel compositions.

Mr. Sevilla, who for the past year has been visiting professor at the Musashino Academia Musical in Tokyo, visited Manila and Jakarta while on a tour sponsored by the Jakarta Hilton, Philippine Airlines and the Canadian Embassies in the two cities.

Of Spanish descent and trained in France, Mr. Sevilla has resided in Canada since 1970. His musical career has won him numerous awards and involved frequent concert tours in Europe, North and South America.

"... Sevilla seemed to have everything — from technique to temperament — that would go into the making of a musical interpreter of the first rank, one who seizes and holds the mind and emotion of the listener."

"The New York Times"
