1/ A view was expressed that, since toxins are covered by the Biological and Toxin Weapons Convention, they should not be covered by the Chemical Weapons Convention. Another view was expressed that since toxins are toxic chemicals, they would automatically be covered by the Chemical Weapons Convention. In addition, a view was expressed that relevant toxins should also be considered for inclusion in Schedule 2 part B. Another view was expressed that saxitoxin and ricin should only be considered examples of toxins that could be included in Schedule 1.

2/ The view was expressed that other members than DF and QL should be put on Schedule 2 part A, where however they are already covered by the first item.

3/ The precise delimitation of this group requires further discussion.

4/ A view was expressed that this group belongs to Schedule 2 part A, where it is already covered by the first item.

5/ A view was expressed that this chemical should be included in Schedule 2 part A.
