Company/Product

ESSA (Environmental and Social Systems Analysts) Ltd. is a research and development firm dedicated to the formation and implementation of creative solutions to environmental problems. An independent, 100% Canadian-owned company, ESSA was incorporated in 1979 by three systems ecologists associated with the Institute of Animal Resource Ecology at the University of British Columbia. ESSA has four office locations in Canada: Vancouver, Toronto, Ottawa, and Victoria. To serve its international clients, ESSA has established strong working relationships with consulting firms in Thailand and Switzerland. The company has completed over 500 projects in the past decade.

ESSA works in direct consultation with its clients to ensure that project development and completion creates a product that most accurately meets their needs. ESSA employs techniques such as computer simulation, expert systems, mathematical models, database design/management, and statistical analysis to projects requiring an understanding of scientific information and issues. For projects requiring audiovisual presentations, training workshops, conferences, conflict resolution and problem-solving meetings, ESSA has cultivated several years of expertise and contacts to produce clear and concise communications.

ESSA's products include:

- Software development
- Forestry pest management modelling
- Environmental effects monitoring
- Planning simulation models and user interfaces for fisheries management.

Current Geographic Marketing Activities

ESSA's projects have taken place in North and South America, Europe, Southeast Asia, and Australia. The company is currently focusing much of its marketing activities in Canada, the United States, and South East Asia.

Contact Sought

ESSA Ltd. would like to develop contacts with senior individuals in the public or private sector who are interested in marketing its expert system software packages worldwide and/or undertaking joint ventures in Malaysia, Vietnam, Thailand, or the Philippines.
