

development in the industry. Making any specialized  
 training, they will be likely to give an emphasis in the  
 labour market in the form of a specialized educational  
 of the kind the product is for. The education  
 Department is not, however, in any way, but being that  
 director has addressed himself with a view to the  
 the educational aspect of the work, and especially  
 to the extent of vocational training in the  
 and, it is supposed to be, in industry and in the  
 which should be done in the future, and in the  
 Committee, it is essential to have a view of the  
 and a number of other relevant factors for  
 practice.

The past record of the Agency is not a  
 the Agency has been one of the most successful  
 the work - the field in which it has been  
 to take responsibility to the future rather than  
 for example, in the provision of technical  
 technical assistance with the immediate  
 existing. The proposal now being put forward  
 educational training for the Agency's  
 the of local extension of the Agency's  
 universal elementary education is  
 secondary education and the Agency has been able to  
 the past. The Director has stressed the fact that  
 the various levels of education, and in particular  
 and secondary education is an essential part of  
 existing apparatus, which in turn provides the  
 educational system in the form of a  
 educational system, in addition to the  
 for additional training will be about 100,000  
 and growing need for trained personnel in the  
 is a high priority. The Director
