WANTED.

CHICAGO, Jan. 30 .- Assertions that hereafetr European buyers would give preference to Argentine wheat as againset cargoes from the United States and Canada took much of the snap out of an attempt to advance the market here. Closing prices were barely steady, at a gain of 1-8 to 1-40 net. Corn showed a loss of 1-4 to 3-8c, oats finished unchanged to 1-8c off, and provisions varied from 7 1-2c decline to a rise of 2 1-2c.

off, and provisions varied from 7 1-2c decline to a rise of 2 1-2c.

One of the leading houses on shange made public what were stated to be authoritative advices from a German importer that wheat shipmenets from North America had been placed under a heavy handicap because Argentine shippers have agreed to modified contracts that settled a controvery about weight standards. In this connection traders took note of the fact that the Argentine crop is large and excellent, and that never before at this period of the season had so small a percentage been sold.

Drought in India.

Drought reports from India, which put strength into wheat prices during the first part of the day, seemed to lose effect when the Argentine bugbear led to extensive realizing sales. War news, reports of improved flour demand and prediction of cold weather appeared equally powerless to keep prices from slipping back.

Favorable weather and increasing receipts pulled down corn. Bearish news from Argentine and the late setback in wheat counted also in depresing prices.

Buying orders from the south-west

ing prices.

Buying orders from the south-west made oats comparatively steady. Local spectiators were the best sellers.

Fackers unloading weakened provisions. The department of agriculture report was not as satisfactory as the longs had believed would be the case.

European Markets.
The Liverpool market closed unchanged to 4d higher on wheat, and 4d to 4d lower on corn. Berlin closed 42c higher on wheat, Buda Pest 4c higher.

LIVERPOOL, Jan. 30.—The drought in India and the unfavorable political news caused some covering at the opening and prices were unchanged to 4d higher and following the opening March further advanced with a fair demand. The advance, however, was checked by the expectations of larger Argentine shipments this week and free Plate offerings for early shipment and during the morning the market ruled dull.

Corn opened unchanged in sympathy with America. Later there was a decline on private reports received here of beneficial rains in Argentine and the pressure of near-at-hand American parcels.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Jan. 30.—Business in wheat over the cable was quiet again today, there being less disposition on the part of foreign buyers to operate owing to the increased offerings from Argentine and the more favorable crop advices from India. The local market for American corn was weaker and 1c lower with sales of car lots of old crop No. 3 mixed at 62c and No. 3 yellow at 61c. Oats are quiet and unchanged. There was an increased demand from European sources for spring wheat flour and sales of a few round lots were made. Local trade is good. Millfeed quiet. A steady trade is passing in butter and the feeling in cheese is firmer under a better demand. Eggs unsettled, except for new laid, which are firmer and 1c to 2c higher. Demand for provisions fairly good.

ARE SOARING AGAIN

Neill, Beatty & Co. had the following at the close:

Possibly the report that Bulgaria has taken a decided stand against any further negotiations with Turkey until Adrianople is surrendered had some influence on the buying side of the market. Northwest news was conflicting Present firmness might easily be followed by more bullish feeling if any decided change of weather for the winter wheat belt occurred.
