CHICAGO, Aug. 12.—Notwithstanding the efforts of the English, French and Dutch to cause a renewal of exports from the United States, the trade here remained sceptical today, either that the financial or military either that the financial or military prerequisites were near at hand. Prices for wheat recovered only in part from a break of 2½c. Despite comparative firmness at the close, the market showed a net decline of %c to 7.8c. It was a choppy, unsettled trade in wheat thruout the session, with the most pronounced weakness at the outset. A Chicago export house was a persistent seller of the September option, presumably on orders from the Atlantic seaboard. Longs in general sold on every swell, and shorts tried to buy back on every break. Wheat stocks in the United States and Canada increased 60,188,000 bushels, while time a year ago.

Provisions rallied sharply from a decided setback due to lower prices for hogs.
