No Masquerade Whisky Now!

No "masquerade king" ever equals a real king—nor does a nameless whisky served from a "refilled" bottle ever equal its original contents.

If it did it would have an honest

label of its own. No lesser whisky can ever masquerade as White Horse in the new non-fill-again bottle. The simple magic of this device makes substitution impossible.

The bartender who serves you White Horse in the new bottle, gives you a gilt-edge certificate of its character—and his.

He is a good man to patronize.

Always ask for White Horse, the whisky of the King, in the non-fill-again bottle.

noon on "Some Phases of Contemporary literature." The speaker was escorted to the auditorium by Rev. Dean

A Real Flesh Builder For Thin People

A New Discovery

This men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. The food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world, over. Your nutritive organs, your functions of assimilation, are sadly out of ger and need reconstruction.

tions of assimilation, are sady out of tear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut ou everything but the meals you are cating now and cat with the wery one of these a single Sargol tablet, in two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagment blood with millions of fresh new wed blood corpuscies gives the blood the carrying power to deliver every ounce of at making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. This propie gain all the way from 10 to 25 hounds a month while taking Sargol table sign a scientific combination of six of the chemistry. They come 40 tablets to a backage, are pleasant, harmless and incompanies. All druggists in Toronto and vicinity sell them subject to an absolute furnation of weight increase or money had.

Harris, Rev. Thos. F. Burbee of New man Hall and a large number of the local clergy. Mrs. Ambrose Small, resident of St. Joseph's Alumnae, in-

Mr. Chesterton dwelt on the decadent period which existed in the early 90's. Darwinism had completely done away with the origin of man according to Mr. Chesterton's idea and there was an apparent victory of free thought over Christianity. A species of despair had settled upon many who felt that neither politics nor religion was any longer worth while.

A large audience enjoyed the schelarity and pleasantly delivered address. Representing the college alumnae a vote of thanks was tendered by Miss M. L. Hart.

HAD NO EXPERIENCE WITH BRITISH AEROPLANES

Lieut. Sharpe, Who Was Killed, Had Gone to Shoreham for Practice.

Canadian Associated Press Cable. LONDON, Feb. 5 .- Lieut. Sharpe of the Canadian contingent who was killed yesterday in a flying accident at Shoreham, came from Welland, Ont.,

LONDON. Ont. Feb. 4.—In his 101st year. Themas Collins, retired farmer, and noncer of B dd by Townshin, Glod we had the right medicine, and in the course of a month or so every sore had be obtained at the Bell plane rooms. Yonge street, of Kent. England, learned in play the organ at the age of 55, and entertained friends and relatives with selections thereon at the celebration of his 100th birthday anniversary, a few weeks ago. The children survive him.

Pills. It was not long before we found we had the right medicine, and in the course of a month or so every sore at the Bell plane rooms. Yonge street.

ORGAN RECITAL TODAY.

Music of the allies will compose the program of the organ recital of Healley Willan, F.R.C.O., this afternoon at the celebration of his 100th birthday anniversary, a few weeks ago.

Ten children survive him.

LIES IN GROWING FLAX

. G. Crawford of Belfast Says Industry Would Prove Paying Proposition.

As the result of the German invasion of Belgium and the ruthless laying to waste of that country, 83 per cent. of the flax resources of the world have been cut off. "Few people in Canada realize the significance of this fact," said J. G. Crawford, secretary of the York Street Flax Spinning Mils of Belfast, Ireland, last night. Mr. Crawford came to Canada some weeks ago on his own initiative to see what could be done to increase the output of flax fibre in this country, and to interest capital here in the improvement of the methods used to produce raw material for use in Britain and France.

ment of the methods used to produce raw material for use in Britain and France.

"Flax fibre for spinning figures largely in the manufacture of army supplies, being used for weaving all grades of canvas, used in tents, stretchers for Red Cross work, aeroplane construction and also for thread used in stitching shoes, and all kinds of saddlery. Some idea of the extent of the industry may be judged by the fact that in the Beifast Spinning Mils, with which I am associated, there are 4500 employes.

1 "With the almost complete elimination of the supply of raw material, which we have relied upon in the past, we have been forced to look elsewhere for fibre to fill the demand, and therefore I have made this trip to Canada and investigated the situation thruout the country from coast to coast. At present no flax fibre is being cultivated in western Canada, as the farmers use what little is grown for seed purposes, but in Ontario, and particularly in Huron, Lambton and Essex Counties, the opportunities for producing flax fibre for spinning are most promising."

Mr. Crawford stated that only 140 tons of flax fibre were raised in Ontario during 1914 and but nine mills dressed flax for spinning. "I tell you, Ontario doesn't realize the great opportunity that lies to ber hand." he said earnestly. "There are twenty-five mills in western Ontario which produced nothing last year. They have their equipment standing idle and a high grade of fibre could be produced if modern methods were used and these mills put into operation. If these methods are employed and the western Ontario farmers will turn their attention to developing this industry, my experience tells me that without added expense the quality of output could be raised to a standard that would rival that of the producers in Europe who have been ruined by the war. With proper attention a forty per cent increase in price over what is being palid now for the Ontario raw material could be obtained abroad."

A HOBBERLIN CLEAN-UP.

A HOBSERLIN CLEAN-UP. The Big Tailoring House Puts on Great Proposition for Men Sat-

From the wholesale floors of the House of Hobberlin, Limited, 151
Yonge street. Canada's big tailors, there comes this week some five hundred ends of English. Scotch and Irish tweeds and other fine fabrics to be placed on sale in the retail store of the house Saturday and Monday at \$10.95 for a made-to-your-measure suit or overcoat.

for a made-to-your make a clean-up of the overcoat.

The idea is to make a clean-up of the season's goods in order that room may be made for the heavy shipments of spring and summer lines now arriving each week from Britain's big mills.

The assortment is large and of many of the most popular lines of the year—goods of medium weight and sold usually at \$18, \$20 and \$25.

Every garment will be made to the customer's own measure, and is backed by the firm's guarantee of complete satisfaction.

satisfaction.

The sale is limited to two days, Saturday and Monday.

Due to Bad Blood

Can Only Be Cured Through the Rich Blood Dr. Williams' Pink

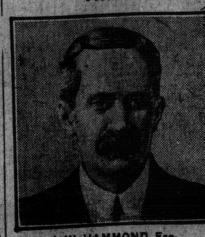

You cannot cure eczema or remove disfiguring pimples by the use of ointments, washes or salves applied outwardly. The trouble is due to impure blood and can only be cured through the blood. That is the reason why Dr. Williams' Pink Phils cure eczema and other forms of skin diseases. They act directly on the blood—make it rich, red and pure, and thus enable the system to expel the impurities that have broken out through the skin, disfiguring the face and other portions of the body and causing great humiliatien to the sufferer. Mrs. M. McArthur, Byrne, Sask. says: "I can most

other forms of skin diseases. They act directly on the blood—make it rich, red and pure, and thus enable the system to expel the impurities that have broken out through the skin, disfiguring the face and other portions of the body and causing great humiliation to the sufferer. Mrs. M. McArthur, Byrne, Sask. says: "I can most strongly recommend Dr. Williams' strongly restored my little boy after doctors and other medicines failed. His head and face was covered with eczematous sores, which itched so badly that we frequently had to tie his hands to prevent him from scratching himself. We tried salves and outless will be the solo dancing of little Miss Norah Williams, who will make her first public appearance. Mrs. H. M. Blight has generously given her services as accompaniet, and several popular amateurs will be heard. All seats are reserved and can be obtained at the Bell piano rooms. Yonge street.

ORGAN RECITAL TODAY.

Music of the Riverdale Settlement will be held on Saturday evening, Feb. 13, at Columbus Hall. Miss Hope Morgan, who has arranged the program, will sing. Miss Grace Smith has kindly offered to play, and the well-known basso. Ruthven Mc-Donald, has given his services. It will be the first opportunity of the general public to hear Miss Marguerite Fieury, who has recently returned from Paris after studying there several public to hear Miss Marguerite Fieury, who has continued to hear Miss Marguerite Fieury, who has creatly returned from Paris after studying there several public to hear Miss Marguerite Fieury, who has creatly returned from Paris after studying there several public to hear Miss Marguerite Fieury, who has creatly returned from Paris after studying there several public to hear Miss Marguerite Fieury, who has creatly returned from Paris after studying there several public to hear Miss Marguerite Fieury, who has a current will be the following the well-known

'Fruit-a-tives' Keeps Young and Old in Splendid

J. W. HAMMOND, Eaq.

SCOTLAND. Ont. Aus. 25, 1913.—
"Fruit-a-tives" are the only pili manufactured, to my way of thinking. They work completely, no griping whatever, and one is plenty for any ordinary person at a dose. My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money until we happened on "Fruit-a-tives." I cannot say too much in their favor.

We have used them in the family for about two years and we would not use anything else as long as we can get "Fruit-a-tives."

Their action is mild, and no distress at all. I have recommended them to many other people, and our whole family uses them.

Those who have been cured by "Fruit-a-tives" are proud and happy to tell a sick or alling friend about these wonderful tablets made from fruit juices.

50c a box 6 for \$2.50, trial size 25c. At all dealers or sent on receipt, of price by Fruit-a-tives Limited, Ottawa.

EIGHT BY ELECTIONS PENDING IN BRITAIN

Neil Primrose, New Foreign Office Secretary, Once Anti-Army Man.

Canadian Associated Press Cable.

LONDON, Feb. 5.—The appointment of Cecil Harmsworth to the home of the

Seeing is believing with the great majority of people. The ordinary man is like the citizen of Missouri and says with a knowing wink: "You've got to show me." That's a good rule, too, for one to travel by, and, if observed, will at teast prevent the buying of a gilded brick.

But there are offers that stand the test of the man from Missouri and of such are Hickey's, 97 Yonge street. "You've Not Seen It' is Hickey's word and he invites the public to look at his latest bargain—the newest young men's model suits, in various up-to-date styles, and all at the very moderate price of \$12.50. Watch Hickey's windows, anyway.

AUSTRO-GERMAN TROOPS ON SERVIAN FRONTIER

Possibility of Roumania's Entrance Into War Leads to Precautions Being Taken.

Strain Cable to The Terente Werld.

PARIS. Feb. 5.—Austro-German troops along the Servian frontier have been dispersed along an immense front because of the menace presented by the possibility of Roumania's entrance into the war, and plans for a new offensive against Servia have been abandoned in consequence, declares. The Petit Panisien, which does not give the source of its information, but declares it authentic. In the meantime, the Servians are completely rearming and relitting their army and have received large reinforcements of reserves and supplies of munitions.

RIVERDALE SETTLEMENT CON-

Clothing Caught Fire While Attempting to Start Stove With Kerosene.

Special to The Toronto World. ST. THOMAS, Feb. 5.—Miss Eliza ST. THOMAS, Feb. 5.—Miss Eliza
Pettitt of Fingal was found burned
to death in her home by Peter Gainsbeck on his arrival home from St.
Thomas, where he had been spending
tike day. The woman attempted to
light a fire with kerosene in the sitting-room, when her clothing caught
fire, and being crippled with rheumatism, she was unable to extinguish the
flames or get assistance.

Daniel A. Lamont, 56, a resident of
Sparta for nearly forty years, died at
the home of his son-in-law at Delaware today.

Altho hundreds of mep have been
shoveling snow on the Pere Marquette
Railway and the London traction line
for the past two days, traffic is not
yet opened.
