

Northey Triplex Power Pump

FOR BOILER FEEDING AND GENERAL PRESSURE PURPOSES

In the Northey Triplex Power Pump we offer a machine put together with the skill brought by years of experience in pump building, and with full provision made for the varied demands likely to be made upon a pump of this character. A feature of value is that the three cranks are placed 120 degrees apart, thus giving a practically constant flow of water—minimizing strain on pump and economizing power. The pump can be readily repacked and taken up, and all details are carefully worked out. It can be conveniently operated by electricity, by water power, or by belt from engine. Different styles and sizes made to suit all duties.

WE ARE MANUFACTURERS OF OVER FIVE HUNDRED DIFFERENT STYLES AND VARIETIES OF STEAM AND POWER PUMPS FOR STATIONARY AND MARINE PURPOSES. WE INVITE ENQUIRIES FROM ENGINEERS, MINE SUPERINTENDENTS AND OTHERS FOR THEIR REQUIREMENTS IN OUR LINE. CATALOGUES AND SPECIFICATIONS FURNISHED UPON REQUEST.

We are also manufacturers of the Northey Gas and Gasoline Engine which has proved to be the handiest and most convenient power for small or intermittent power users in the market. Suitable for machine shops, pumping and electric light plants, etc. Write for illustrated descriptive booklet.
