C.--METAMORPHIC ROCKS.....	PAGE 141
ROCK STRUCTURES	141-149
Igneous Structures	141
Dikes—Sheet or Sill—Laccolite—Lava Flow—Columnar Structure—Amygdaloidal Texture—Volcanic Neck— Boss—Batholite.	
Structures in Aqueous Rocks	143-147
Stratification—Anticline and Syncline—Current Bedding —Faults—Normal Fault—Reverse Fault—Dip and Strike—Joints.	
AGE OF ROCKS	150-152
Unconformity—Use made of Fossils—Geological Scale.	
AGE DIVISIONS	152-164
Pre-Cambrian	152-155
Keweenawan — Huronian — Laurentian — Keewatin — Economic Importance of Pre-Cambrian.	
Cambrian and Post-Cambrian Time.....	156
Table showing Age Divisions	157
Systems and Formations	159
Geological Map	161
Life	162
Silurian and Devonian.....	163

PART IV

ECONOMIC NOTES:—

CLASSIFICATION OF ECONOMIC MINERALS AND ROCKS—

1. Metals and their Ores.....	167
Ore Deposits	171
Vein Stones	173
Value of Deposits	174
Terms used in Mining	175
2. Abrasive Materials.....	179
3. Refractory "	180
4. Paint "	183
5. Decorative "	183
6. Chemical Manufacture.....	184
7. Mineral Fertilizers.....	184
8. Fuels and Illuminating Materials.....	187
9. Bricks, Pottery and Glass.....	189
10. Stone and Cement.....	190
11. Waters.....	191
12. Miscellaneous Economic Minerals.....	193
