Wholesale Grocers' Guild Gives Vent to Bone of Contention With Packers—Claim They Sold Tomatoes at Loss of 35 Cents per Case Last Year.

Canned goods and their labels was the subject of a two-hour discussion at the Dominion Grocers' Guild meeting in the King Edward Hotel yesterday afternoon. The hotels seem to be a constant source of trouble. The labels denote quality. It was almost unanimously felt that if some of the brands of labels were dropped delay in shipments would be overcome to a great extent and troubles in general eliminat-

The Dominion camers came in for criticism of pleasable and displeasing nature. It appears that contracts made between the wholesalers and the canners have not been binding when the canner has been unable to meet his part of the agreement, whether ow-ing to weather conditions or otherwise. The wholesales books orders for these goods, away before they have begun to oud in the early spring, and no matter what Providence may do, he has to deliver the goods. The result is that the wholesaler is often left in the lurch and has to pay much higher prices for his canned goods than the price at which he sells them. Last year, or instance, the wholesalers sold toma toes at \$1.15. Later, when Providence failed to bless the earth with her usual that pertains to the grocery business. abundant crop, they had to busy themselves and get the fruit from whatever Exchange," a motion was passed resource they could. They are not a cure for anything but dyspepsia and kindred complaints. But they have brought relief to more sufferers from digestive diseases than all the patient medicines and doctor's prescriptions put together.

The stomach does the heaviest work of any of the bodily organs, yet it's the one we treat with the least regard. We eat any time. The patient stomach stands such treatment as long as it can and then it rebels. You get notice of the rebellion in the shape of the gases and pains caused by undigested, fermenting food.

INJURED FOOT CURED.

"I speak for Zam-Buk because it cured me of a terribly bad foot," says Mrs. Alice Berryman of 190 John St. North, Hamilton. She adds: "The injury was caused by a wagon wheel, and the sore was on my right foot. It became very inflamed and swollen and so painful that I fainted away. In spite of treatment, the wound got no better and the foot became more and more swollen until it was several times its usual size. the foot became more and more swollen until it was several times its usual size. The flesh was terribly bruised and blackened and it was quite impossible for me to walk. My husband's mother at last brought me a box of Zam-Buk. This was applied to the foot and it was surprising how soon I found relief from the prising how soon I found relief from the severe pain. A further supply of Zam-Buk was obtained and I persevered in using this balm alone. In a couple of days the swelling had gone down considerably, the discoloration was less distinct and the pain was banished. In four days I could go about as usual: the bruised and injured foot had been thoroughly cured by the timely use of Zam-Buk."

Mrs. Frank St. Denis of 305 Thompson St., Winnipeg, speaks for Zam-Buk because it cured her of a poisoned finger, which had caused her days of agony. Hear her experience. She says:

"One morning, while washing, I felt a slight pain in the end of my finger. This gradually got more acute until by the evening of the next day the end of the finger had become swollen and hard and so blue I became alarmed.

"The pain from it was almost too much to bear. It made me turn quite sick! Poultices of first one kind and then another were applied, but seemed to give me no relief. My daughter-in-law, who had had some previous experience with Zam-Buk obtained a box for me. I anointed the sore place liberally with this balm, and in a few hours, the throbbing aching pains were subdued."

Further applications of Zam-Buk gave me more ease, so that I could get a little sleep. In a few days the nail came off, but after that Zam-Buk seemed to reduce the inflammation quickly I continued its use until in the end it had brought about a complete cure.
