CEYLON Rich and Fragrant One Trial Proves All

hold of the Intercolonial Railway. Sir Lead Packages - - 25, 30, 40, 50 and 60c

William's bold scheme of piracy is presented to our readers this morning in the shape of a highly-colored interview with him, wherein he says he will die happy if 1.6 The only objection that can be raised can see a fast Atlantic service established against protection in Canada is that we by the great Canadian Pacific Ballway at haven't enough of it. It is a truism to an expense of \$20,000,000; but that service state that you can't have too much of a he says cannot be realized without the In- good thing. It is true of protection, that ercolonial first falling into the hands of the more vigorously you apply it the more the Canadian Pacific. In order that our beneficial will it prove. We wish to refer readers may appreciate all Sir Wifflam has briefly to one particular industry which o say, we give his interview in full in an- protection of a mild type has fostered in other column. Alongside of it we also give Canada, but which might be extended very a portion of an editorial from The St. John much more largely if the protective princiin, dealing with the steamship lines that ple were heroically applied. We learn from call at St. John, and their relations to the statistics published by the proposed new intercolonial Railway. The article in The | Cycle and Motor Company that five of the Sun is in reply to an article in The World leading Canadian companies turned out the other day insisting on the maintenance | 38,500 bicycles in 1808. Seventeen hundred of the independence of the Intercolonial men were employed to produce these ma-at all hazards, even if St. John, as a winter chines. During the same year we import-

port, had to suffer somewhat thereby. We ed from the United States 27,000 wheels, ilso pointed out in the same article that if which is an increase of 3000 over the imthe Grand Trunk made a better arrange- portation of 1897. Thanks to the educative influence of the ment with the Intercolonial than the Canadian Pacific could do, it was because in this National Policy Canada can make as good particular instance the Grand Trunk was an extension or complement to the Inter-colonial, while the C.P.R. was a rival. The United States. As far as mechanical p St. John Sun, of course, makes too much fection goes, Canadians would not suffer out of what The World said as to the relation of the two rallways to the Interco-lonial. We never pretended for a moment that the Grand Trunk was any better that the Grand Trunk was any better friend to the national railway than the wheels sell at about the same figure as C.P.R., that both loved it as the devil loved holy water, but that, notwithstanding the lili-will of the Grand Trunk to the Intercolonial, it would, by reason of its own necessities, be glad to make a certain working arrangement with it, and that this arrangement was better for Canada than a similar one with the Canadian Paclific. We take it that we would be doing The St. John Sun no injustice by saying that it was noutling in ten words in behalf of the C.P.R.

American wheels do in the United States. Canada has nothing to lose, but every thing to lose, but every t C.P.R., that both loved it as the devil loved American wheels do in the United States putting in ten words in behalf of the C.P.R. grabbing the Intercolonial for one it was saying on behalf of St. John as a winter port. But, to Sir William:

Anyone who will read this interview with Sir William Van Horne, and read the article in The St. John Sun, will see that the real object in view, now openly avowed, is to suppress the Intercolonial as a road regulative of the Canadian Pacific and of the Grand Trunk as far as Montreal, and which, if extended to the west, as it can be gradually extended, regulative of the three times as large as our exports to that country. There is no necessity of running to Washington to propose methods for the equalization of the trade between the two countries. We have the remedy in our own hands. The people of the United States have shown us how to do the trick. The secret is the Afternoon.

The second afternoon session of the conference of the I.O.F. High Court of Central Ontario was held. About 200 delegates were present. After several minor business matters were discussed, the following officers were elected for the coming was held. About 200 was held. About 200 was held. About 200 will be several business matters were discussed, the following officers were elected for the coming was held. About 200 was held. About 200 was held. About 200 was held. Tuesday and Wednesday.

which, if extended to the west, as it can be gradually extended, regulative of these great private corporations clear across the continent. For instance, if the Intercolonial were extended from Montreal to Ottawa, to Parry Sound, to Toronto, Niagara Falls and the Detroit River, Sir William Van Horne and Mr. Hays might well have a sudden attack of paisy. For the moment this event takes place they will have to change their tune in the matter of rates, in their attitude towards the public, in their tractivative of these in Canada should not import a single wheel from the United States. Last year we imported 27,000. The manufacture of these in Canada would necessitate the employment of 1200 men. These men and their families, together with the store-keepers and others necessary to supply their wants, would establish a town of several thousand people. The application of a statesmanilke policy to this one industry would give Canada a new town like Oshawa or Bowmanville. But the bicycle industry is not the only one which might treatment of municipalities, and in their gen-treatment of municipalities, and in their gen-be benefited by heroic treatment. Our A bylaw was passed providing for annual treatment of municipalities, and in their general public conduct. The World has maintained for some years past now that the only practical and cheap solution of the railway question for this country is the maintenance of the independence of the Intercolonial and its gradual extension west, and the railway magnates, seeing this, are getting ready to prevent any such event or catastrophe coming their way.

We have no doubt that under the specious plea of a fast Atlantic service the C.P.R. organs and its friends in Parliament and barkers all over the country, will begin to cry down the Intercolonial and magnify the cost of it to the country, the trouble it is

cost of it to the country, the trouble it is to the politicians, and in a score of other ways to belittle and discredit it. The more G. L. Wilson of Toronto Elected H. they do this the greater the reason for maintaining, as we have said before, the ndependence of the Intercolonial. In the eantime, read Sir William's fairy tale! Why doesn't he build his own Interco

lonial Railway if he wants one? THE POLICY FOR CANADA. Protection has worked wonders for Can The Liberal press testifies daily to

Roor, helpless, hopeless, sick, suffering, miscause she doesn't know any better. Sick because she doesn't really know why. Sick because the organs that make her a woman are not properly performing their Sick because the organs that make her a woman are not properly performing their functions and so are sending nerve messages with aches and pains and distress all over her quivering body.

Nine-tenths of women's sickness comes from disorder of these special organs. The symptoms are various—the cause the same. Headache, backache, nervousness, wakefulness, neuralgia and fifty other troubles of women may nearly always be traced directly to fewiring waters.

Headache, backache, nervousness, wakefulness, neuralgia and fifty other troubles of women may nearly always be traced directly to feminine weakness or disease. When the most important organism of a woman's body is disordered her whole physical and mental system is upset. The only way to find comfort is to cure the real cause of the misery. Local doctors in general practice are frequently so hurried and rushed that they treat the symptom and not the disease. They give a woman medicine for headache when the headache is due to hex action of the uterine nerves. They may give her good medicine but for the wrong disease. Thousands of women, after years of discouragement, have written to Dr. R. V. Pierce, of Buffalo, N. Y., and now thank him for their renewed health and happiness. For over thirty years Dr. Pierce has been chief consulting physician at the Invalids' Hotel and Surgical Institute. It was over thirty years ago that he began to use his 'Pavorite Prescription' in his practice.

It is a medicine devised to cure one certain kind of diseases—female diseases. It brings ease and comfort and sleep. It restores perfect health. It fills out cheekhollows, brightens the eyes, puts vim and snap into the whole body. It is sold by most dealers in medicine. Don't take anything else. Nothing else is "the same"—nothing else is "as good." Get what you ask-for. Patronize honest dealers.

ask-for. Patronize honest dealers.

The Temple Building is the scene of another convention. This time it is the fourth annual meeting of the High Court of Central Ontario of the Lo.F. The session commenced Tuesday morning, with all the High Court officers present, and about 230 delegates. H.C.R. Sanders of Stayner oponed the session, after which the Credential, Distribution, Finance, Constitution and Laws, Appeals and Petitions, Stare of Order, Press and New Business Committees were appointed. The reports of the various officers were then read.

The High Chief Ranger, in his annual budget, gave a review of the progress of the order for the year ending June 30. During that time 1721 applications for membership had been secured. Of this number, 1330 were received during the first six months and the remainder the latter half of the Read of the series of the content of the
