Cheers and Handshakes for the Recently-Acquitted Miners' Official.

Denver, Col., Aug. 5 .- The cerebration tendered William Haywood, who recently was acquitted of connection with the murder of ex-Governor Steunenberg of Idaho, on his return here from Boise last night, was considerably curtailed by the lateness o

Plans for a great gathering of per sons at the station, to be followed by an open-air meeting, was abandoned and, instead, a committee of 100 labor unionists was on hand to welcome him A crowd of several thousand persons despite the lateness of the hour, was also on hand. When Haywood stepped from the train, supporting his invalid wife, a great cheer went up from the crowd. A rush for the gates was made, and the police were obliged to use force before the gates could be opened. A space less than three feet wide was opened. As Haywood walked up this file hundreds of hands were stretched towards him, but his solicitude for his wife caused him to resist the desire to grasp the many hands extended. Continued cheering greeted him, and his face was all smiles. When Haywood saw his wife seated in a carriage, he stood on the rear seat of the open carriage, and waved his hand to the cheers. The crowd joined with him, and for several minutes the roar of cheers continud. Half a hundred men are: Mrs. Andrew Laurie, of Forest, started to unhitch the horses and at- Ont.; Mrs. R. E. Mrs. Whetter was born in Ringsash, England, coming to this city in 1850. There was at that time no railroad system running through the then village of London, and Mr. and Mrs. Whetier made the journey from Hamilton to London by stage.

Mr. Robertson, the secretary, further asks me if I as one of those interested in the young girl could obtain the necessary money for her tourney, and saying she would be

physically fit to travel to England.

London (where she has lived for some time, earning her living, till her health gave way) has no place as yet for consumptives and the problem is what to do with the poor girl when her time is up at the sanatorium, Aug. 23. The only solution is to try and obtain sufficient money to send her to her mother, who is most anxious to have her. Upwards of \$80 will be needed to cover all expenses, and put a small amount in her pocket for emergencies I shall most gladly receive and acknowledge contributions for this purpose, and would urge the citizens who will help to send the money quickly occasion comthat the girl may be sent to England plete without the latter part of August to Insure a this pure calm passage, for she is very weak and charged water, frail. DEATH OF MRS. WHETTER STRANGE POWERS OF NORSE BOY

of a Man Missing Many Days.

London, Aug. 6. - Reports received in London of the remarkable achievements of John Floettum, the boy clairvoyant of Christiania, have aroused great interest in the case. Floettum has just discovered the body of a man who disappeared a fortnight ago, leaving no trace of his whereabouts. A photograph of the missing man was shown to the boy. He examined it very closely and then seated himself at a table. Covering his eyes, he drew a diagram of the course the man had taken into the woods. At a point indicated the man's handkerchief was

found. The day afterward the boy himself was taken over the course, followed by quite plainly where the body lay. He asked that a boat be rowed to a point in the eriver and said, "Here he is." The body was found at the bottom of the river, at the exact place intimated. Floettum's powers were discovered three months ago. He is now the most talked-of person in Norway.

THE LAST TO HANG.

Flemington, N. J., Aug. 6 .- Georga E. Schuyler, convicted of the murder of Manning Riley, has been sentenced to be hanged on Aug. 30. He will probably be the last person to hang in the state, as under a new law condemned persons hereafter are to be electrocuted
