MUSIC AND DRAMA

"The Squaw Man," which will make its bow at the Grand tonight, has been one of the big successes of the past season. So great was the demand for seats at the Russell Theater in Ottawa, that the entire house was sold out in five hours. The play is described as a western romance, and it gets its title from the status which public opinion on the Indian reservations or among the civilized tribes gives to a white man who marries an Indian woman. The Indian woman herself may be white. save for a taint of aboriginal blood, which gives her "a head-right." She may be cultured, the product in her early womanbood of an eastern university, and all the rest of it, but her husband is "a squaw man" just the same, and not infrequently his white neighbors and full-blooded fellow-citizens are prone to look down on him a bit.

Drew. He is a farrier, warm-hearted and LONDON honest. While he does not be done to be a farrier warm-hearted and LONDON brilliant, he is gifted with that wit and acumen which help Irishmen to high places in the world. The story itself is worth anyone's attention, but Mr. Doone has an shed the play with the sweetest touches of nature, and dresed all with the truest bits of Irish scenery. Mr. Doone and his helper make music on the anvil, while beating red-hot iron into horseshoes, and the clatter and singing and laucing are so true to life that one forgets himself and believes that Mr. Doone has taken him into his own little shop. Then the race is made exciting by the fact that the news le carried to the stage by carrier pigeons. Mr. Doone will play a return engagement at the Grand tomorrow, matinee and even

POULTRY FANCIERS AT BIG BANQUET

One Hundred Guests at Very Pleasant Affair-London as a Poultry Center.

The London Poultry and Pet Stock Association last night held a most successful banquet in the Albion Block About 100 guests were present, and all spent a very pleasant time. Among these were a number of men known all over America, through their connection with the poultry business, including Prof. W. R. Graham, manager of the poultry department of the Guelph experimental farm: W. R. Cadman, secretary of the St. Thomas Poultry Association, and John S. Martin and Newton Cosh, of Port Dover.

Mr. Wm. McNeill, president of the association, presided, and he carried out a neat toast list of speeches. After the toast to the King had been nonored, President McNeil gave a brief and interesting outline of the history of the association, which had been in existence for 25 years. London, he said, had taken more prizes at the world's f. ir than any other city in America, and it is also the headquarters of some of the most capable judges and breeders of poultry in the business today. Guelph possibly takes second place, but it certainly must admit the superior fame

of London. Secretary Oke read a number of regrets from people unable to be present, including Hon. Nelson Monteith, minister of agriculture, and Mr. Mark Butterfield, of Windsor.
