# OF ALL MONARCHS

### About the Characteristics of Carlos.

London, Feb. 4 .- A recent article in the Daily Mail, descriptive of King

Carlos, says: King Carlos, of Portugal, is the happiest, most easy-going and pleasureloving ruler in Europe. The only cloud upon his horizon has been a parliament which persisted in trying to make laws and run the country. Life was not worth living, decided the jolly monarch, with such a pest always on hand, so he sent the lawmakers home and proclaimed that he would run the country alone for three years.

The private life of Portugal's monarch is rather interesting because it "Well, Mr. St. Quintin, drawled he, than the daily round of a sovereign. is more like that of a private gentleman at last when he had taken a careful As he rises at 5 in the morning, he consurvey of the man who was now trives to get all his work done before presented to him in the character of mid-day, then five days of the six he a rival, "and what have you to say?" gives over the afternoon and evening The young man found it difficult to his amusement—sport. Arriving at a small town, he found a crowd waiting, but no one recognized him. In fact, the chief point of interest at that moment was an old eggs upset by those who jostled her waiting to see him. One cannot even do one's daily labor, with this crowd Captain Darnall's face had lost its watching for a fat, lazy fellow, who does no work and spends his time in eating.

King Carlos of Portugal has earned the reputation of being the hungriest of monarchs. His three chief meals are colossal, and he cannot exist without a snack every two hours. Being very fat, King Carlos is for-
