FEATURE OF FALL  
FAIR AT FOREST**Four Thousand People Attend-

Exhibits Excellent.

FOREST, Oct. 6.—Forest Fall Fair yesterday and today was favored with fine weather and proved as successful as ever. Exhibits of live stock and grain were not as numerous as usual, but were of good quality. The decrease in number is a direct result of the scarcity of farm help. The display of fancy goods, fruits and canned goods, domestic science and the like were excellent. Government judges officiating considered the exhibits among the best they had seen.

A feature of today's proceedings was a parade of 400 school children headed by the town band, to the fair grounds. Gate receipts today were over \$500, outside the membership tickets. The park and town streets were crowded with automobiles, and the total attendance at the fair this year must have been in the neighborhood of 4,000.

— A WARNING**

Beware of gum tenderness that warns of Pylorhea. Four out of five people over forty have Pylorhea—many under forty also. Loosening teeth indicate Pylorhea. Bleeding gums, too. Remember—these inflamed, bleeding gums are so many doorways for disease germs to enter the system—inflicting the joints or tonsils—or causing other ailments.

Forhan's positively prevents Pylorhea, if used in time and used consistently. As it hardens the gums the teeth become firm.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and you'll find relief immediately for special treatment.

Number.(By Staff Reporter.)  
DORCHESTER, Oct. 6.—Despite an increase in the admission charge from 25 cents to 35 cents, all attendance records of the Donnybrook Fair were broken Wednesday, when 5,000 people crowded into the fair grounds. Never in its rainiest days had the fair as many out-of-town visitors, for although the fast trains to and from London were not stopped here, thousands of people came by auto.

The day was ideal. The midway was augmented by an increased number of attractions, and the games of chance which distributed the popular kiewie rolls did a rushing business. The excellent humor of the merry-making crowds was not dampened by the less than ideal weather. The number of exhibits was the smallest in the history of the fair, but the quality was better. An interesting feature of the event was the large number of exhibits of bicycles, farm machinery, furniture, musical instruments and clothing filled much of the usually vacant spaces in the show grounds.

**Impromptu Sideshow.**  
There was a real honest-to-goodness sideshow on the midway, which is an unusual thing for a country fair. This is how it happened: One of the games now being played is a "guess the weight" contest. One of the owners, not to be discouraged, cleaned out the tent and announced a dancing show which could be viewed for 25 cents. Inside a girl, and a man impersonating a girl, danced the shimmy and other dances to the delight of many spectators, several of whom objected to leaving when the show was over.

The races held their customary position as the chief attraction. The entries were large and the speed evenly contested. Music was supplied by the 1st Hussars Band. Acrobatic stunts staged by a one-legged man were given much applause.

**Live Stock Exhibits.**  
Cattle formed the most numerous exhibit, with large entries of Holsteins, Ayrshires and Jerseys. There was a notable absence of beef cattle. The Holsteins, exhibited chiefly by E. Thorndale, who took no less than eight prizes, and James Turpin of Dorchester, took ten prizes. One herd of Ayrshires exhibited by A. Armour of Dorchester, took ten prizes. George Stuart and Fred Dickie of Ingersoll, won in the Jersey class, while W. J. Henderson of Thamesford and G. C. Shipson of Ingersoll were the winners in Grade cows.

The exhibit of horses was not large, but there were some splendid animals. A spot of horses entered by Ben West of Thorndale won in the general purpose class. Sims Bros., Thamesford; J. C. Henderson, Lakeside; L. Beacham and Peter Shannon of Ingersoll, won in the heavy and agricultural breeds. Some fine road and carriage horses were exhibited, but the names of the winners were not available.

Only two classes of hogs were entered. C. Stevenson of London Junction and J. C. Henderson won in Berkshire and Poland Chinas respectively. W. E. Waddy of St. George's, won in the Waddys. Some of Glenworth, won in sheep with some splendid Dorsets and Shropshires.

**Roots and Grains.**  
Although the vegetable classes were not large, potatoes, cabbages and other vegetables were entered. The fine art exhibit was the best in the history of the show. The work was exceptionally good and the entries large. The chief winners were Miss Laila Holmes, Miss E. Parker, Lambeth; Mrs. G. Churchill, London; and Mrs. H. Kennedy, Thamesford. The ladies' work was Mrs. G. R. Mills, London; Mrs. M. O'Keefe, Aylmer; Mrs. H. Kennedy, Thamesford; Mrs. G. Churchill, London; and Mrs. L. A. Brown, Aylmer, were the winners.**Track Events.**  
The horse racing was exceptionally interesting, as the entries were kept well in their places by J. A. Skinner of Ingersoll, the starter, and one of the judges. The other judges were Dr. Hargrave of London, and P. Loyce of Dorchester. The track was fast and good time was made. The following are the results:2:50 Pace or Trot.

It is understood that the cause of the suspension of work is the controversy over the United Mine Workers of America check-off system. There are 1,200 men idle.

KIPPEL, Oct. 6.—Miss Etta Jarrold, S. S. No. 14, gave her pupils a pleasant afternoon yesterday, and incidentally taught them a large amount of information not generally taught in schools. She first enlisted the sympathies of two young ladies of the section, Misses Eliza Thompson and Gracie Iverson, who drove their cars and carried two large loads of happy children to visit number of points of interest. The first place was the "Big Hole" in the Hay Swamp on lot 10, concession 5, where all eyes opened wide with wonder as they saw the large openings about 40 yards across and 50 feet deep. After gazing awhile, the venturesome ones found their way down the sides. In the spring this hole is often full of water, but soon all that flows in finds its way out of the bottom. Logs also that enter it disappear downwards into the earth. Many think an underground river runs below. After a short stay here, the party proceeded to Exeter, where they visited the flax mill, the creamery, the Thrift Memorial Anglican Church, with its fine chime of bells. Climbing the tower and looking over the town was a new and delightful experience to all.

The next point was the Times printing office, where the wonders of the linotype pleased everyone. The next and principal objective was the Exeter Canning Factory, with its intricate and expensive machinery, which fills the cans, caps them, and carries them along to the dumping point, all done automatically. The big cooking cauldrons, each capable of holding 80 dozens of cans at a time, in which they are steamed for 75 minutes, were always full and excited no little wonder.

Then there were the husking machines, the silk machines, etc., as well as the two large silos, each capable of holding 500 tons, to look and wonder at. This enfilade is sold to the farmers at \$2 a ton during the winter and finds ready sale. The next point visited was the combined public and high school of the village. From Exeter the pilgrims turned to the east to see the famous soldiers' monument on the school grounds in S. S. No. 1, Esbome. This is a beautiful memorial, consisting of a fine white marble statue of a Canadian soldier, carved in Italy. This statue stands upon a granite base, on which are carved the names of the soldiers from this section.

After viewing the monument the party motored to their homes tired but intensely pleased with their twenty-mile trip of sight-seeing. During the past part of their trip they were accompanied by Miss Jarrold's former teacher, W. H. Johnson, who is now at Exeter and teaches in No. 2, Hay. He is acquainted with all these points of interest and acted in the capacity of a guide.

**NORFOLK COUNTY  
FAIR BREAKS ALL  
PAST RECORDS**Nearly 15,000 People Present  
On Second Day At  
Simcoe.[Special to The Advertiser.]  
SIMCOE, Oct. 6.—The Norfolk County Fair broke all records for attendance here today, when about 15,000 people paid admission to the grounds, raising a town with Toronto, London and Ottawa. Prize money for entries totaled \$4,000, and in addition \$2,750 was set aside for trotting events. Most of the visitors today came by auto, and many traveled a great distance to take in the fair. One Tuesday there were 5,000 people present.

A satisfactory feature was the presence of William McQuibban of Lockport, one of the most capable horse experts in the county, who officiated at the judging in this branch, and gave his formation, which reflected great credit on the pupils competing.

The presence of large crowds today thoroughly demonstrated the value of the new half-mile track and large grounds. This accounted for everything going off without a hitch in the proceedings excepting for High Note, a cooking and baking classes, along with horse entered in the 2:33 stake, which horse entered in the 2:33 stake, which second, when it stumbled at the wire, went lame and was drawn from the race. Sid H., owned by J. McIntosh of London, romped away with first money in the 2:14 pace, taking first in three straight heats.

IS DANGEROUS**Gas and wind in the stomach accom-  
panied by that full, bloated feeling  
after eating are almost certain evidence  
of the presence of excessive hydro-  
chloric acid in the stomach, creating  
so-called "acid indigestion."Acid stomach is dangerous because  
too much acid irritates the delicate lin-  
ing of the stomach, often leading to  
gastritis accompanied by serious  
stomach ulcers. Food ferments and  
sours, creating the distressing gas  
which distends the stomach and ham-  
pers the normal functions of the vital  
internal organs, often affecting the  
heart.It is the worst of folly to neglect such  
a serious condition or to treat with  
ordinary digestive aids which have no  
neutralizing effect on the stomach acid.  
Instead get from any druggist a few  
ounces of Bismuth Magnesia and take  
a teaspoonful in a quarter glass of  
water right after each meal. This will  
drive the gas, wind and bloated feel-  
ing out of the body, sweeten the stomach,  
neutralize the excess acid and prevent  
its formation, and there is no sourness  
or pain. Bismuth Magnesia (in pow-  
der or tablet form—never liquid or  
milk)—is harmless to the stomach, in-  
expensive to take and the best form  
of magnesia for stomach purposes. It  
is used by thousands of people who  
enjoy their meals with no more fear of  
indigestion.—Adv.**REVILED R. C. M. P.,
