quartz, with nuggets of solid gold stick-ing out all over. The larger piece, about the pounds in weight, contained alightly over four ounces of gold, and the smaller piece, about three pounds in weight, was relatively as rich. The samples will probably assay in the neighborhood of \$40,000 to the ton. Mining men, who viewed the ore, were enthusiastic over its extraordinary cichness, rivaling as it did that taken from the famous Croesus mine in Munro Township. It is not known as yet how much there is of that kind of ore, but it would not take very much of it to entirely make up the dividend of five per cent, which is being paid to sheethelders at the end of this to shareholders at the end of this

That there is no likelihood of an immediate break between the mine managers and miners in Northern Onside of the market has been drained dry of resources by some of the older sesses and many new ones, and until new money is forthcoming the outsider will have the slimmest kind of a chance to get a profitable tuan. Some improvement in Wall street will assist a little marking up of local prices, but this is all.

managers and miners in Northern Ontario may be gleaned from news received last night over the long distance telephone from Cobait by Hamilton B. Wills, of the Royal Bank building. The miners' union presented their demands to the various managers yesterday morning and asked for a conference before May 31, this scale of wages to govern all this scale of wages to govern all miners in Cobalt, Porcupine, Kirkland Lake, Boston Creek and Gowganda.
According to Mr. Wills' information,
the mine managers will continue to refuse to hold conference with the miners upon the ground that to do this
