

### EDUCATION BOARD UNDER THE LASH

#### Board of Control Fires Broad-sides Into Machinery of Department.

But we have to finance the undertaking. We cannot raise funds merely by raising the wind. We must consider the limitations of our borrowing power or face ruin." It was with these words that Commissioner Bradshaw yesterday replied to arguments of W. W. Pearce, director of education in Toronto, relative to expenditures which the board of education needs in order to carry on the education administration of the city properly.

Mayor Church stated that the situation had reached a serious stage, but that he had never opposed the proposed increases in teachers' salaries. Controller Maguire urged the benefit of borrowing from the citizens of Toronto themselves, instead of from outside sources. Commissioner Bradshaw stated he intended doing this in connection with the Toronto Street Railway purchase.

The mayor suggested that Mr. Pearce talk up the matter with Hon. Mr. Grant, provincial minister of education, a man of knowledge and wide sympathies. This looked good to Mr. Pearce. The mayor later went so far as to suggest that the board of education should be scrapped. Indeed, he believed, the matter should be taken even to the stately halls of Osgoode in the interests of the citizens generally.

#### Outside Teachers.

Argument was next carried on with respect to outside teachers, the mayor expressing the opinion that the countryside was supplying the cream of those in Toronto. Inspector Cowley, in reply, stated that teachers were not returned merely because they belonged to Toronto. As a matter of fact, Toronto could not supply 25 per cent. of the city's needs in this matter.

Miss Constance Boulton took up the cudgels on behalf of the so-called system of fads and frills. "What we endeavor to do is to teach women in the making to roast potatoes and fry ham, steak and bacon," she said. "We don't believe in teaching our coming mothers to make pate-de-fete-gras or other dainties." Controller Cameron ventured the opinion that the scheme was 95 per cent. humbug. Discussion at various points became very trivial, but finally it was decided to give the knotty problem of school estimates for 1920 over to Messrs. W. W. Pearce, Bradshaw, G. R. Geary and Major E. P. Brown for further elucidation, and the matter will be again thrashed out by the board of control. Mr. Pearce, who had been accused of taking architect department employees into his service, pointed out that they had applied for work on

**MRS. ALICE McCLUSKEY,** prominent Lewiston woman, who says she wishes she could have gotten Tanlac twenty years ago, as it would have saved her lot of suffering. Declares she is now well and happy and that she wants everybody to know about it.

"I have been trying for twenty long years to find a medicine that would relieve my troubles, but my efforts failed me completely until I commenced taking Tanlac," was the remarkable statement made recently by Mrs. Alice McCluskey, residing at No. 68 Park street, Lewiston, Me., a well-known and most highly-respected woman of that city.

"I just feel like I would give the world to meet everyone who suffers as I did, and tell them about this medicine. If I could only have gotten Tanlac twenty years ago it would have saved me a lot of suffering and money."

"My principal trouble was indigestion, and for many years I could not eat meat or pastries, for I would always suffer afterward. I would most always have a distressed feeling after eating, and nothing seemed to agree with me. Then, to add to the rest of my suffering, I contracted rheumatism in my shoulders and hips, and the awful pains I suffered can never be told in words. This trouble finally got so bad I could hardly walk, and my arms pained me so I could scarcely raise my hands to my head. I even had to give up my housework, and was hardly able to get around at all.

"You can imagine how happy I was when, after taking only a few bottles of Tanlac, I found such a wonderful improvement in my condition. Why, it was just the medicine I needed all the time, and I continued taking it, until now I am perfectly well again. I can truthfully say that I am enjoying as good health now as I ever had in all my life. I have gained about 14 pounds in weight, and can again do all my housework without the least trouble. I don't get tired like I did, and after doing my work I can get out and walk for blocks and feel just fine when I get back home. I earnestly advise everyone who suffers as I did to take Tanlac."

Tanlac is sold in Toronto by sixteen Tamblin drug stores. A special Tanlac representative is at the Tamblin store, 117 Yonge street, where he is meeting the public daily.

### REAL ESTATE NEWS

Another Simcoe street landmark, the old residence of Lady Kirkpatrick, at No. 215, was sold this week for about \$95,000. This was originally the home of Sir William P. Howland, first lieutenant-governor of Ontario, who sold it to Sir George Kirkpatrick. It was occupied by Lady Kirkpatrick only a short time after the death of Sir George about twenty years ago. The property has a frontage of 179 feet, and a depth of 128 feet to University avenue. The purchaser, whose name is not disclosed for the present, will immediately remodel and occupy the premises. The land is assessed for \$40,000, and the building for \$35,000. Goulding & Co., 11 East Adelaide street, were the brokers.

A five-story building will be erected at 249-251 Spadina avenue by Photo Engravers, Limited. The site has been purchased from William Leibel and Abe M. Schiffer.

The Canadian Metal Window & Steel Products, Limited, has leased the premises at 160 Water street, owned by the McFarlane Ladder Works, Limited.

It is understood the Toronto Club is considering the question of selling their premises, on the southeast corner of Wellington and York streets, and going into flats. Some members consider the club's present location a long way from the business centre, although they have been established there 30 years. The Toronto Club is the oldest in the city, having been organized in 1835.

Their own abolition. The work they were now doing was of a much more responsible nature than any they had undertaken before.

### BRADSHAW ISSUES A STERN WARNING

#### Shows by Balance Sheets How Near Toronto is to Financial Waterline.

Commissioner Bradshaw's report to the board of control, presented yesterday, makes interesting reading. He issues the following warning: "In my opinion, it is both dangerous and unwise to obligate the city to capital expenditures this year to a greater extent than is covered by the foregoing. Without taking into consideration the above five and one-half millions of new debt, the city is now within nine millions of the amount which it may legally borrow. Within a comparatively short time we must raise, so as to have on hand by September, 1921, the several millions which will be required to acquire the Toronto Railway Company property, plans for which should be laid now, and nothing should be done to prevent the necessary capital for this undertaking being raised on the most advantageous terms possible."

**Added Burden Intolerable.**  
"The added burden upon the taxpayer for debt charges, if an unjustifiably heavy addition to the debt is made, will be so severe as to bring about conditions which will be almost intolerable, and, as you know, there is a limit as to the amount of capital which any public body, no matter how strong it may be, can raise."

The report points out that by virtue of various heavy undertakings such as the taking over of street railway, Hydro radials, \$8,568,561, and others the city has committed itself to an immediate expenditure of more than \$30,000,000.

**LIQUOR CONVICTION UPHELD.**  
Mr. Justice Maestri has upheld the conviction of Benjamin Szarmanski, who was sentenced by Magistrate Jelfs of Hamilton to six months in jail for a third infringement of the O.T.A. Accused on Saturday, February 14, had 72 bottles of beer in his house and when the officers called on Monday they found but 19 full and 53 empty bottles. The magistrate held that accused had the goods for sale.

**LARGE DAMAGES CLAIM**  
The Canadian Flexible Skate Company has entered action against the Monarch Brass Mfg. Co., Limited, claiming \$42,900 damages alleged to be occasioned them thru failure of defendants to supply raw material worth \$2900 to be used in the manufacture of skates.

**VIKING BLOCKS DON RIVER**  
Action has been entered by the Toronto Harbor Commissioners against the Matthews Steamship Company, Limited, requiring defendants to remove their steamship, Viking, at present blocking the channel of the Don. Alternatively an order is asked for the removal of the obstruction by a person appointed by the court.

**APPEAL ADJOURNED.**  
James Toward was remanded by Judge Coatsworth till Monday in his appeal against the police magistrate's sentence of seven days' imprisonment for being in charge of an auto while alleged to be under the influence of liquor.

**GUILTY OF THEFT**  
Judge Coatsworth yesterday sentenced Beatrice Donohue to jail for three months on a charge of theft. She is alleged to have exchanged her old fur coat for a new seal coat valued at \$425.

**ASSAULT ON YOUNG GIRL**  
Herbert King was sent to jail by Judge Coatsworth for two months yesterday for an offence against a young girl.

**FINED FOR AUTO ACCIDENT**  
A fine of \$75 was imposed on George Gibbard by Judge Coatsworth yesterday for doing grievous bodily harm to William Thompson, who was struck by his auto.

**SIX MONTHS FOR THEFT**  
Pleading guilty to a charge of theft of a diamond ring and other articles from Eva Perry, Judge Coatsworth yesterday sentenced Mary Hellowell to six months in jail.

### NO COAL FOR SCHOOL

#### Cannot Use Runnymede School for Community Centre, Owing to Lack of Fuel.

That the policy of the board of education in refusing schools for the use of community centres, because of the lack of fuel, is wrong, was the opinion of Trustee Mrs. W. E. Groves, at the meeting of the property committee yesterday in the administration building. The matter of the appointment of the Runnymede School for a community centre, when the matter came up on the motion of Mrs. Groves, that the Ratepayers' Association of Ward Seven might have the Runnymede School on Friday evening refused, and that the room should be heated. When the matter of heating the Runnymede School was put to a vote and Trustee Bell was asked if he voted against it, he said: "I must. There is no coal." The motion was lost.

That the use of the schools for lecture purposes, when a fee is asked, is refused, was announced as a policy of the board. The matter of the appointment of Mr. D. R. Franklin as chief draughtsman in connection with the building department of the board, at a salary of \$4500 per annum, was sent back to the board without recommendation in order to find out the policy of the board on the question.

### SCORE'S GREAT SPRING INAUGURATION SALE.

Another one of those events of very great interest opens its doors to the men of Toronto this morning. All day Wednesday Score's staff were busy remarking, reticketing the great stock of woollens, preparatory to the commencement of the great spring inauguration sale, which promises to be one of the best offerings in high-class custom tailoring in many a moon. As values go in the woollens world today, with the prospect of mill prices soaring still higher, it is of very special import that men should take full cognizance of the fact, saving that such a sale will mean to them, and then to take fullest advantage of it. The name Score's is any man's warranty for the quality of cloth and a guarantee for high-class workmanship. Let Scores make your clothes for Easter week.

### DISPUTE OVER LAND.

Andrew Richard Murray sued James Francis Murray for \$4,310 in notes given for agricultural machinery, who counter claimed for \$20,000 damages in respect of A. R. Murray's failure to carry out an alleged agreement for sale of land. The case has been settled whereby plaintiff will convey the land to defendant, who pays plaintiff \$28,000.

### LEAVES LOST FROM STANDARD LEDGER

#### W. S. Dinnick Ordered to Produce Private Papers on Kendal Hill.

E. E. Lawson, secretary of the Standard Reliance, again appeared for examination before Official Referee Cameron yesterday morning, and after a wordy battle between Mr. Kilmer and Mr. Starr, retired to seek the advice of counsel before answering further questions.

W. S. Dinnick again took the stand and when asked how much he got out of the \$114,000 the Investors' Land Co. got from the Dovercourt Land Co. witness replied he did not know what property was referred to. Mr. Kilmer warned the witness that he had over a week's notice and did not come near the liquidator's office to assist him, to which Dinnick replied that he was available to the liquidator, and had attended at his office three or four times. He was ordered to produce any of his private papers which might throw light on the transaction known as Kendal Hill property.

Witness said he received \$9000 out of the \$56,000 deal on the College Heights property.

In March 1913, Dinnick admitted he held fifty per cent. of the stock in the Investors' Land Co., which was purchased for \$9000 by Lawson, Baughert and himself. They put in \$3000 each and drew out \$27,000 between them, after which he had \$9800 in his credit in the syndicate. Dinnick said he had not known for the Dovercourt Land Co. no deal was to be put thru unless he thought the investment was all right.

Mr. Kilmer pointed out that certain leaves were missing from the Standard Reliance Company's ledger, also Dinnick's own account and the ledger account of the Investors' Land. Dinnick declared he knew nothing of the missing leaves, and that he had no knowledge of a mortgage first sold to the Standard Reliance, then taken back and sold to the Dovercourt Company for \$1987.

Mad. Million Dollars.  
Fifty-five thousand dollars was paid to Langmuirs for the Dunvegan property, of which witness paid in all \$10,000. It was sold to the Investors' Land Co. for \$125,000, plus a mortgage of \$20,000. He asserted he had made a million dollars for the Dovercourt Land Co.

In 1907 the Standard took over Investors' Company's business and Dinnick got \$26,000. The Standard made a profit of \$11,000 besides ten per cent. on the money involved. All day in the afternoon Dinnick said that in 1908 the Dovercourt purchased the Kenwood Land stock for \$40,000 from the Standard. For the Cooper property on Nairn avenue \$15,000 was paid, made up of a \$10,000 mortgage and a cheque by Pete on the Standard, which was an overdraft, and how this was wiped out he did not know.

The agreements for the sale of Hampstead Gardens, on Dufferin street, were sold by the Kenwood Land Co. to the Standard Reliance in June, 1908, for \$79,000, said Mr. Dinnick, who got \$21,000 out of the sale, a profit of \$11,000.

"What was the fate of these agreements?" They were foreclosed, said that the money paid Kenwood Land Co. was a total loss. "They have the land."

Regarding the Old Orchard Land, witness said \$22,400 had been paid into the joint stock company, of which he subscribed \$4000. Waddington and Ward were the other shareholders. Witness admitted it was failure to carry out an agreement of the transaction. He could not explain why Waddington got only \$12,491, although the latter had twice as many shares as he.

### ORTHOPEDIC GIVES CONCERT.
