II. Believing the success of our Mission cause depends on the abundant outpouring of the Spirit, realized in answer to prayer, we resolve to pray and labor for larger measures of the Spirit of God to rest upon our missionaries and Societies.

Moved by Bro. Barker, seconded by Bro. S. Jolliffe.

III. That the cordial thanks of the Society be given to the contributors and collectors of the Missionary Fund for this year, for their liberality and interest, as manifested in the contribution of \$7553 77, towards the Society's funds. But we regret to add there is still a large debt on the Society, amounting to upwards of One Thousand dollars ; and respectfully invite our friends and supporters to increased liberality in this important department, suggesting the need of the Society's income being raised to \$10,000 per year, to meet all the demands of an aggressive Church.
