TO RELAX LOBSTER LAWS.

Vigorously Opposed by Massachusetts Fishermen --- Want No Short Lobsters.

(Boston Transcript.)

The Committee on Fisheries and Game had several matters for hearings, all intended to relax somewhat the preseot lobster protective laws. The first measure taken up was to authorize the importation into the state from Nova Scotia short lobsters from December to April. It was advocated by J. A. Young, of a Boston, wholsale lobster firm on the ground that it applied to a season when there was practically no lobster fishing being carried on here and there was difficulty in supplying the market. It was intimated also that the present law was violated in that factitious shipments were made direct from Nova Scotia to New York by Boston firms who had the consignments redirected en route to different addresses.

The opposition was vigorous, and all along the coast from Marblehead to Scituate, the claim being refuted that there was no fishing in the winter season. S. M. Johnson, a Boston wholesale dealer, opposed the bill as being a mistake in judgment. Many of the fishermen are commencing to realize that it is better to throw a short lobster overboard and in another year sell it for about thirty-five cents than to sell it now for five or ten cents.

Representative Jenney of Mattapoisett had a delegation of fishermen from the Buzzard Bay section in favor of a law reducing the legal length to nine inches. He claimed that the nine-inch law in Rhode Island, only a few miles away, made matters very unfair for them. It was practically admitted that the law was violated and the shorts rushed over into Rhode Island. Both measures were opposed by Hon. Charles M. Bryant of Quincy for the Fish and Game Protective League, in that it would be taking a step backward in a line of progress that had been going on for twenty-five years.

OUTLOOK FOR C. P. R. BOATS.

An executive official of the Canadian Pacific Railway steamship lines says of the outlook for the coming year:—"While no important change in additions will be made to the Atlantic, Pacific, or upper Canadian lake fleets, we look for a very much better year than last. This applies more particularly to our Atlantic lines, on which business was very bad last year. In the first place there will be a much larger amount of grain to handle, and the increased activity in Canadian industrial circles will mean increased imports and exports. On the Pacific business has been helped to a considerable extent by the war, and we expect these improved conditions to endure well on towards the end of the year. The company is placing itself in a position to make bir improvements to its Atlantic fleet early next year when two of the largest steamers to be used on the St. Lawrence route will be added to our fleet. The lake fleets are all well equipped to handle all the business offering, and for the coming season will be maintained without change."

CALL A HALT IN C. P. R.

Robert Goodbody & Company, in their weekly circular say: Canadian Pacific has had a big move. We have often during the past two years pointed out the great development of the Canadian Pacific territory, and we should be the last to deny that Canadian Pacific has great merit, but the way the House of Lords' (sic) decision on Canadian Pacific taxation has been trumpeted abroad is absurd—first, because it tells nothing not known before, and, second, because Canada is a free country, which can and does regulate rates, so the Canadian Pacific will have to pay its due share in the long run, either in "meal or malt." We have nothing to say against the stock, but object to hear so-called arguments shouted to the crowd as if they were important.

WALL STREET.

New York, Mar. 17.—Some of the industrials and specialties rose at the opening today but the majority of standard stocks was lower, the speculative favorites breaking sharply. Met Sec. rose 1¼, N. Y. Air Brake jumped 2¼, Peo. Gas, 1¼, and Loco. a sharp fraction. Anconda fell 2¼ Union Pacific 1¼, Sou Pac and Chesapeake and O. ¾. B. and O. St. Paul and Colorado Fuel about a point and N. Y. C., Ont. and Western. The Missouri Kas. and Tex. stocks and U. S. Steel pfd, a large fraction.

This morning a message was received at the Marine and Fisheries office from Seabright, notifying the authorities of the accident and shortly thereafter the Lady Laurier left with spare lanters which will be displayed to the best possible advantage until a new lamp can be procured and installed. WAS PIONEER MISSIONARY.

Mgr. Richot of "Red River Rebellion" Fame Died in Manitoba Yesterday.

Winnipeg, Mar. 17:—(Special)— A pioneer missionary of the Red River, died yesterday afternoon at St. Norbert, in the person of Mgr. Ritchot, for more than forty years parish priest there. Mgr. Ritchot was a prominent figure in the early days of Manitoba, and especially during the Red River rebellion, when he endeavored to keep the French half-breeds in check. He was one of the delegates of the then provisional government to go to Ottawa in 1870 with a bill of rights for presentation to the Federal authorities. In Ottawa he was arrested for complicity in the death of Thomas Scott, killed at Fort Garry, but was released when the case came to trial.

POLICE REPORTS

A small book found on Smythe street, was taken to the central police station, where it was claimed by the owner.

The police ejected an intoxicated man from the Charlotte street dining rooms, yesterday.

No sailing vessels attempted to engage in the gulf seal fishery, this year, owing to the unusual extent of the ice fields.

WILL STICK TO ST. JOHN.

Montreal, Mar. 17.—(Special.)— The statement made in a cable from London that the G. T. P. proposed to establish a new Atlantic port is contradicted at the offices here. When shown the cable this morning the officials said they would continue to use St. John or Halifax. for their business.

REPORTS. DISASTERS. ETC.

CHARLESTON, S. C., March 15—Schr Brina P. Pendleton, Port Sapin for New York, has put in here leaking.

NORFOLK, March 15—Schr John B. Manning, Newpart News, for Boston, coal was towed here this p. m., leaking in her stern. A diver will try and stop the leak.

PORTSMOUTH, N. H., March 15—When the schooner Abbie Ingalls which put in here the first of the week on her way from Portland to New York, sailed today for her destination, she was leaking 800 strokes an hour, and her captain said that if the leak increased he should stop at Boston. The Ingalls was badly used up in the ice in Boston harbor last month, but did not develop the leak until after she loaded at Portland.

The British brigantine John S. Bennett arrived at Port of Spain from Port Medway recently with 306,000 feet of lumber to Messrs J. H. Archer and Co. for many years past has there been at any one time so large an importation of lumber of all kinds—Port of Spain Gazette.

There is a rumor that the Dominion Atlantic railway will operate both the Prince George and the Prince Arthur, between Halifax and New York this summer. In that case it is said the Prince Edward will be put into commission as the running mate to the Boston on the Yarmouth-Boston route.

The Battle line steamer Himera, before reported, will load for Adriatic ports, option of general cargo.

The Battle line steamer Eretria, Captain Mulcahy, arrived at Newcastle on Tyne, yesterday from Copenhagen for Fernandino.

The tug Nereid, Capt. McKinney is again in commission after having extensive repairs made. A new boiler was put in.

The bark Wilwood has been fixed to load deals, Grindstone Island to W. C. E. at 36s 9d.

NEW YORK, March 16—The log of the British four masted bark Howeard D. Troop, Captain D. W. Corning, which arrived today from Kobe, Japan, tells of the sighting of what appeared to be the lifeless body of a snake floating on the surface of the ocean off the west coast of Africa, several degrees below the equator.

The thing, which the curious sailors emphatically declared was a sea serpent, was sixty feet in length and a big white seagull was perched upon its back. Captain Corning did not investigate further and the incident furnished the sole excitement of a tedious voyage of 139 days.

WASHINGTON, March 16.— Some idea of the severity of the winter season drawing to a close may be gathered from the fact that the Navy Department is confronted with the necessity of seeking and destroying no less than twenty-seven ocean derelicts which are lying in the great ocean lines from Santiago to Newfoundland, and endangering shipping entering and leaving Atlantic ports. The last Congress provided that one vessel should be set apart for this special service, and it is probable that the Lebanon, a 3000 ton collier will be fitted out for this work at the Portsmouth, N. H., navy yard.
