COURT SAYS WIFE MUST BE OBEDIENT

Alabama Court of Appeals
Decides Case in Favor
of Husband.

Montgomery, Ala., June 30.—The age-old marriage vow containing the word "obey" was given an interpretation with "teeth" by the Alabama court of appeals when it upheld, in effect, the right of a husband to object to his wife's employment of adventitious aids to her supposedly natural beauty.

It is the imperative duty of a man's wife to obey, the court held. The wife in question had curled her hair against the expressed wish of her husband. In rendering the opinion, the court also decided it not only was the right but the duty of the husband, in a sense of proof of bad character, to fix the domicile of his children, irrespective

of the mother's wishes. The ruling was made in reversing a lower court which had issued a writ of habeas corpus to Mrs. Macon Sparkman to recover custody of her daughter. Following domestic incompatibility as a result of his wife's curled hair, it was said, Mrs. Sparkman left her

husband, taking the child. Later Sparkman recovered the daughter and placed her in his mother's home. Mr. Sparkman filed petition for a writ of habeas corpus and the lower court ordered Sparkman to produce the child. This order met reversal in the appellate tribunal.
