THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, NOVEMBER 18, 1921

Hon. Dr. W. F. Roberts Making Plea for Health of Child

Fredericton, Nov. 17.—(Special)—The New Brunswick School Trustees' convention this afternoon heard three addresses upon various topics connected with education at the present time, and afterward took the first step toward permanent organization by appointing a committee of fifteen, one from each county, which will report later upon the selection of officers and a permanent executive of six. A constitution and by-laws will be framed later.

Those who spoke this afternoon were Hon. Dr. W. F. Roberts, minister of health, upon "The Scholar and His School-house;" Dr. B. C. Foster, of Fredericton, president of the New Brunswick Teachers' Association, on "The Function of the Teachers' Association in County," which will report later upon the selection of officers and a permanent executive of six. A constitution and by-laws will be framed later.

and Better Vision of Educational Progress." Hon. Dr. W. F. Roberts, taking as his subject, "The Scholar and His School-house," delivered a very interesting address. He said that education and health were the chief corner-stones of the nation and in the school-house an inseparable. The school-house, apart from the church, should be the best institution in the community. If the regulations of the school manual were lived up to there would be no necessity of delivery of addresses such as that which he was giving.

Health Education
The fact that health education was not being carried out was filling the Hon. Dr. Roberts with some of the conditions which showed that health education was not being carried out. Dealing with the requirements of the modern school-room, the speaker outlined the appliances which might be expected. He had been surprised to find in the school manual that scales and measuring rods should be in every school house. He did not know where to find them. They should exist nevertheless. They were connected with the important matter of under-nutrition of children. Hon. Mr. Roberts also referred to the condition of out-houses which frequently exists in connection with schools. His department had asked for a report on all railway out-houses in the province. The report had been surprising and improved conditions would follow. The same should be done with the schools. In that connection he urged that there be more frequent visits of trustees to the rural and other schools. Concluding his address, Hon. Dr. Roberts pointed out the responsibility of the school trustee for the coming generation.

County representatives were elected as follows:
Kings—P. F. Blanchett, Rothesay.
Queens—J. L. Allingham, Hartland.
Sunbury—Osman Sewell.
York—Dr. Robertson.
Carleton—J. Stirling King.
Victoria—William Cuffey, Wapke.
Albert—A. B. Leander.
St. John—S. Bradshaw.
Madawaska—Mr. Belanger.
Kent—Mr. Jallat.
Westmorland—Leo O'Hern.
Restigouche—F. M. Anderson, Campbellton.
Gloucester—Mr. Robichaud.
Charlotte—John P. Calder.
Northumberland—Dr. Nicholson.

The regular meeting of the Teamsters and Chauffeurs' Union, No. 661, was held last evening in their hall, 54 Paradise Row. The president, A. Kirkpatrick, was in the chair. Routine business was transacted. The meeting was attended by a large number of the members of the union.

HEAR ABOUT OUR OWN PROVINCE

Mrs. John A. McAvity gave the final lecture in the Ladies' Association of the Natural History Society's fall course yesterday afternoon in the Natural History rooms and greatly delighted a large audience with a most interesting talk on "Here and There in New Brunswick."

She showed in stereopticon views many of the beauty spots of the province and related much of the interesting history of New Brunswick, while also telling many little known facts concerning the natural features of the country. She was heartily thanked for a most enjoyable and memorable address.

Mrs. W. H. Shaw, the president of the association, before calling upon Mrs. McAvity, spoke in feeling terms of the great loss which the society had sustained in the death of its president, R. B. Emerson.

At the close of the lecture a presentation was made to William McIntosh, the curator of the museum, on behalf of the association by Mrs. Shaw as a slight token of appreciation of his assistance and of the work which he has done in scientific research. Mr. McIntosh, while taken completely by surprise, expressed his appreciation. A hearty vote of thanks extended to Mrs. McAvity was moved by Mrs. Harold Lawrence and seconded by Mrs. J. M. Lawrence.

ENTERTAIN A ST. JOHN RESIDENT

Sydney, N. S., Nov. 17.—F. Downing Patterson, of St. John, (N. B.) Maritime district governor Rotary, who is en route to Newfoundland, was entertained here today by Sydney Rotarians.
